FRED C. KIRKENDALL,

County Treasurer.

The Hardworking Farmer.

"I used to think that all farmers were overworked until I went to the county fair."

"And what did you see there?"

"They had chairs covered with old postage stamps and lace crosses cut out of perforated cardboard, and one woman had a quilt with 5,000 pieces in it. Needn't tell me people like that are overworked unless it is from choice!"

—Washington Times.

He Meant All Right.

Miss Smith (to Mr. Dearborn, about to sing)—Miss Jones will play your accompaniments, Mr. Dearborn.

Miss Jones (coolly)—Oh, Mr. Dearborn plays his own accompaniments so beautifully I couldn't murder them for him.

Mr. Dearborn (gallantly)—Oh, yes, you could.—Judge.

What He Did.

Cassidy—O! hear Flanagan called ye a lolar.

Casey—He did so.

Cassidy—An' phwat did ye do?

Casey—I did Flanagan.—Philadelphia Press.

The Voice of Experience.

"Papa," said the small boy, looking up from his book, "what is a curio?"

"A curio," replied the father thoughtfully, "is something that costs ten times what it's worth."—Chicago Post.

DON'T DELAY.

It is "Putting Off" Till Some Other Day that Causes so Many Sudden Deaths.

Be sure you need a medicine before you take it, but having once found out that you need it, lose no time in getting the best. If it's for the kidneys, liver, bladder or blood, rheumatism, dyspepsia, chronic constipation, or the weaknesses peculiar to women, the best is Dr. David Kennedy's Favorite Remedy, and a very simple way to find out if you need it, is to put some urine in a glass tumbler and let it stand 24 hours; if it has a sediment or a milky, cloudy appearance; if it isropy or stringy, pale or discolored; you do not need a physician to tell you that your kidneys and bladder are badly affected.

The Rev. Theodore Hunter, pastor of the Presbyterian Church, Greensburg, Ky., writes us the following:

"It gives me much pleasure to state that I have received great benefit from the use of Dr. David Kennedy's Favorite Remedy. Some time ago I had a severe attack of kidney trouble, but a few bottles of 'Favorite Remedy' have entirely removed the malady."

"Favorite Remedy" speedily cures such dangerous symptoms as pain in the back, frequent desire to urinate, especially at night, burning scalding pain in passing water, the staining of linen by your urine and all the unpleasant and dangerous effects produced on the system by the use of whiskey and beer. All reliable druggists sell Dr. David Kennedy's Favorite Remedy at \$1.00 a bottle, or 6 bottles for \$5.00—less than one cent a dose.

Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N.Y.

THE FASHIONS.

More than ever are waists fastened up the back and worn by the owners of graceful and slender figures.

The postilion will be attached to the back of some of the new black Eton jackets for wear during the Lenten season.

The tailor gowns for early spring will be more and more like the French rather than the English version of a typical tailor suit.

Gowns of white or opal gray broadcloth, with fur, lace and silk applique garnitures, are just now very much in evidence at all smart functions in New York, Washington and other large cities.

A feature observable in a survey of some of the spring's advance models that are now held in abeyance is that tucking will still be used as a decoration during both the summer and spring seasons.

Round velvet hats worn by young women with handsome calling gowns are decorated with short, full ostrich plumes, out of which rises a soft feather chou with antennae of some vivid or delicate color.

Black, which has been so popular so long, will not pass from favor in the making of spring tailor suits and demidress gowns of peau de soie, French cashmere, failles and Muscovite silk.

Two or three handsome shades of brown and gray are to be in vogue, but marked favor will be shown to green.—New York Post.

GERMAN GLEANINGS.

The women of Germany have declared open war on the beard.

The official speed for automobiles in Berlin has been fixed at nine and a half miles an hour.

Among the German cities last year Königsberg had the highest death rate, 29.6, and Frankfurt the lowest, 17.4.

A majority of the attorneys at law in Berlin have agreed not to do any business with clients on Saturday afternoons.

Germany now has 19,000,000 more inhabitants than France, 15,000,000 more than Austria-Hungary and 22,000,000 more than Italy.

Lubeck, a free city of the German empire, has reasserted its right to mint its own coins, a privilege in abeyance since 1801.

A new periodical has appeared in a suburb of Berlin. It is entitled Der Heide, and its aim is to bring back heathenism and annihilate Christianity.

The late Professor von Trietschke, the German historian, frequently called the "Macaulay of Germany," will have a statue erected to his memory in Berlin in front of the university.

It has been known for some time that the seacoast of Germany is sinking, especially in the neighborhood of Hamburg, and the exact rate for the last fifty years has now been determined to be 5 feet 9 inches.

THE KEY TO HEALTH STRENGTH AND LONGEVITY IS THE STOMACH

CONSTITUTION SICK HEADACHE INDIGESTION NERVOUSNESS

All diseases are more or less comprised in the above four ailments, all of which have their origin in the Stomach. To cure each, any or all of them, begin right. Begin with Laxakola, the great tonic laxative. It speedily and painlessly acts on the bowels, cleanses the stomach, stimulates the liver, corrects the kidneys, allays nervousness, assists digestion, while its marvellous tonic properties tone up the system while curing it, and speedily causes a natural and permanent condition of health. Laxakola is the best Children's remedy in the world, and the only one that builds up the children's system while acting as an all-around blood-purifier and tonic. It speedily clears the coated tongue, checks colds and simple fevers, and promotes sleep. Children like it and ask for it. Mothers are its greatest friends; they use it and recommend it. All druggists, 25 and 50 cents, or free sample of THE LAXAKOLA COMPANY, 125 Nassau Street, New York.

Castles in the Air.

Yet I dream my dreams and attend to my castles in Spain. I have so much property there that I could not in conscience neglect it. All the years of my youth and the hopes of my manhood are stored away, like precious stones, in the vaults, and I know that I shall find everything convenient, elegant and beautiful when I come into possession. As the years go by I am not conscious that my interest diminishes. If I see that age is subtly sifting his snow into the dark hair of my true, I smile, contented, for her hair, dark and heavy as when I first saw it, is all carefully preserved in my castles in Spain. If I feel her arm more heavily leaning upon mine, as we walk around the squares, I press it closely to my side, for I know that the easy grace of an youth's motion will be restored by the elixir of that Spanish air. If her voice sometimes falls less clearly from her lips, it is no less sweet to me, for the music of her voice's prime fills, freshly as ever, those Spanish halls. If the light I love fades a little from her eyes, I know that the glances she gave me in her youth are the eternal sunshine of my castles in Spain.—George W. Curtis in "True and I."

Why a Limpet Sticks.

The limpet has gained notoriety by the strength with which it adheres to the rock on which it decides to rest. The force required to detach the limpet from the rock has lately been tested by a well known naturalist, who found that more than sixty pounds must be exerted for the purpose. So this little thing, weighing about half an ounce, sticks so tightly that a force equal to two thousand times its own weight is necessary to drag it away.

It was at one time supposed that atmospheric pressure had something to do with the adhesive power of the limpet, but it is now generally agreed that the creature exudes a kind of glue for this purpose. If you place your finger

on the rock immediately after a limpet has been detached, you will feel that the surface is sticky, and if you allow your finger to remain there for a short time you will notice that it is beginning to stick quite tightly.—Pearson's.

Unappreciative.

A certain politician, eminent but not refined, made Samuel J. Tilden a business call at his Gramercy Park mansion. Wishing to be particularly nice to him, the old gentleman got out a bottle of Johannisberger Schloss, the rarest of Rhine wines, and began to decant the contents into a minute glass, sniffing the savor of the juice and taking great pains to indicate that a treat was coming. A tray with some large glasses was at hand. The politician reached for one and, grasping the precious bottle by the neck, dumped half the contents into it and drank it all at one gulp. Mr. Tilden eyed him malevolently and did not try to prolong the visit. When the door closed behind the guest, he said with a snap: "Blast him! The next time he comes I'll give him beer."—New York World.

Fly Fishing.

There is no doubt that certain flies are best adapted to different seasons, times of day and conditions of weather, but a dozen flies of different names will fully answer all of these requirements. An angler's flies resemble nothing when cast upon the water. They are simply a something which attracts the trout. Color has more allurements than form, and as there are not so many colors there is no use for many flies. The general rule is for light flies on dark days and dark or darkish flies on light days. Sizes are more to be considered than form and mixture in makeup. A large trout wants something worth his making an effort to secure. It is doubtless true that an arbitrary cast of flies cannot be made up which will be adapted to all waters;
