DEATHS OF THE WEEK

Sketches of Those Who
Have Passed Away.

Mrs. William Russell, of
Eckley; William McTague,
of Drifton, and Patrick
Furey, of Freeland.

Annie May Russell, wife of William
Russell, died at 7 o'clock this morning
at her home in Eckley. Death was due
to acute bronchitis. Mrs. Russell was
aged 30 years and was a daughter of Mr.
and Mrs. Gottlieb Kreitzburger, of that
town.

The deceased is survived by her hus-
band and one child.

The funeral will take place at 2 o'clock
Saturday afternoon. Interment at Eck-
ley cemetery.

WILLIAM M'TAGUE.

William McTague, aged 58 years, died
Monday at his home in Drifton. He
took sick on Thursday evening, after
returning from work. Pneumonia set
in, and this dread disease, aided by
heart failure, caused his death. Mr.
McTague was one of Drifton's most
respected residents and his sudden death
was a surprise to his friends.

The deceased is survived by a wife
and the following sons and daughters:
Patrick, Scranton; Nellie, Philadelphia;
Sister Clara (Katie), Sisters of Mercy
convent, Wilkesbarre, and John, Peter,
William and Mary, who reside at home.

The funeral will take place at 9:15
o'clock tomorrow morning, followed by
a requiem mass at St. Ann's church.
Interment at St. Ann's cemetery.

PATRICK FUREY.

After a lingering illness of many
months Patrick Furey, aged 26 years,
passed away yesterday at his home on
South Centre street. The deceased was
a well known young man of town. For
nearly a year past he has suffered from
pulmonary troubles and his death had
been looked for. Previous to his illness
he was a member of St. Ann's band.

He was a son of ex-Poor Director
Daniel A. Furey, who survives him. He
is also survived by a brother, Andrew,
and two sisters, Misses Maggie and
Mary.

The funeral will take place at 9
o'clock tomorrow morning, with a re-
quiem mass at St. Ann's church. The
remains will be interred at St. Ann's
cemetery. St. Ann's band will accom-
pany the body to its last resting place.

School Board Meeting.

Monday evening's special meeting of
the borough school board was attended
by Directors Bell, Brogan, Buckley,
Isaac, McCole, McGeehan, Timony and
Slattery.

Principal J. E. Williams gave a brief
outline of the plans prepared for the
graduating exercises and introduced
John Sipple, president of the class, who
explained at length the requests of the
graduates.

The class asked the board for the
privilege of obtaining a speaker for the
occasion; also that the rent of the opera
house, cost of printing, music, etc., be
provided for.

The principal's estimate of the expense
was that it would not exceed \$40, which
sum could likely be secured by charging
a small admission fee.

The board approved the suggestions
of the principal and the requests of the
class, and agreed that if any deficiency
exists after paying the necessary ex-
penses the amount will be made good by
the board.

The date of the graduating exercises
will be between May 7 and May 10.

The principal reported that four
teachers had arranged to conduct pay
school, as follows: Misses Rogan, Lind-
say and Winter, in the Daniel Coxie
building, and Mr. Farrar, at East South
Heberton.

The question of providing heat and
the janitor for the Daniel Coxie school
was discussed at length. Bell moved to
procure two loads of coal for the pur-
pose, but as Mr. Farrar has arranged to

provide his own fuel the motion did not
seem to meet the board's approval.

Mr. Williams asked for a partial leave
of absence until June 1, with the under-
standing that he shall return at the call
of the president or secretary, when
his services are needed by the board.

McGeehan asked if the pay of the
principal was to continue during his
absence, and the question brought out
the fact that the principal had not
signed the contract presented to him at
the opening of the term. The principal
stated that he had asked for a modifica-
tion of the contract, but no action had
been taken by the board.

Timony expressed himself in favor of
continuing the High school another
month, to give those pupils who were
unable, by reason of the short term, an
opportunity to finish this year's course.
Buckley favored the suggestion on the
ground that another month's teaching
would fit the High school first and
second-year pupils for advancement to
the courses which they are expected to
study next term. As it is, these pupils
are not advanced sufficiently to stand
promotion.

Isaac opposed the reopening of the
High school, as it would necessitate the
buying of coal and the employment of
the janitor another month. Bell also
opposed the proposition, and Mr. Wil-
liams stated that he could not teach the
pupils of the High school without assist-
ance.

The janitor question was then taken
up again and a motion by Isaac to con-
tinue his services until the end of his
month and that the principal speak to
the teachers about purchasing coal was
carried without dissent.

A motion granting the principal leave
of absence, subject to the call of the
board, was passed unanimously.

Bishop Asks for Proof.

Bishop Hoban, of Scranton, takes ex-
ception to some things which Rev. Dr.
James McLeod, of that city, expressed
in a sermon Sunday night at the First
Presbyterian church on the "Jesus."

In his sermon Dr. McLeod said:
"Whatever be the doctrines of the
Jesus of today, there can be no doubt
that in the sixteenth century and much
later they adopted and defended the
proposition that the end justifies the
means."

To this Bishop Hoban says: "I doubt
it, and hereby offer \$100 to the Home
for the Friendless if the reverend doctor
will kindly furnish me with the proofs
that any reputable Jesuit ever taught
that 'the end justifies the means'—
meaning thereby that we may adopt
unlawful and unjust means to an end,
however good it may be, or that we may
do evil that good may come."

Dr. McLeod's answer to the bishop's
challenge has not yet been made, but
Scranton people are anticipating an in-
teresting discussion on this subject.

A. O. H. Banquet.

The members of the Ancient Order of
Hibernians, of Freeland, accompanied
by their wives and lady friends, will
banquet tomorrow evening at the Os-
borne hotel. Several of the state and
county officers are expected to be pres-
ent, and the following clergymen will
be the guests of the evening: Rev. M.
J. Fallihee and Rev. John L. Moore,
Freeland; Rev. William O'Hara, Eckley,
and Rev. McEnroe, Beaver Meadow.

Mrs. J. DeFoy, proprietress of the
hotel, has arranged to seat 450 people at
the banquet-tables. A musical program
and short addresses will be given at
the close of the supper. The affair promises
to be the most auspicious ever held by
the A. O. H. in this end of the county.

After the banquet a dance will take
place at Krell's hall, to be participated
in by the members and lady friends of
the two divisions of the order in Freeland.

Dog Poisoners About.

The number of dogs which have lately
died and were found to have been the
victims of poison has alarmed the
owners of good dogs, and many of the
canines of town are now confined to
their kennels and are no longer per-
mitted to roam at large.

Dr. S. S. Hess and Attorney Geo. T.
Brown lost valuable dogs recently, and
yesterday a large Newfoundland dog
owned by W. J. Morgan was poisoned
and died a few hours later. W. H. Van-
Horn, of North Centre street, found his
fine hunting dog suffering from poison
yesterday morning and the animal suc-
cumbed in a short while.

Their Claims Vindicated.

One of the arguments of the miners,
in demanding another increase in wages,
is that the cost of living has been so
heavily increased since their 10 per cent
advance in October, 1900, that the bene-
fits then derived have disappeared. The
recent increases by the trusts in the
price of meat, butter and other neces-
sities is considered by the miners as full
vindication of their claims.

ROUND THE REGION.

The application for permission to or-
ganize the Miners' National bank, of
Nanticoke, has been approved by the
treasury department. The bank will
be capitalized at \$100,000. Among the
principal stockholders are Thomas E.
Hyde and Edward B. Tustin, Blooms-
burg; E. S. Millard, Kingston; Morgan J.
Rees, and Brinton Jackson, Nanti-
coke, and others. The shares of the
new bank will be \$100 with a paid in sur-
plus of \$50 per share. This will give
the institution a working capital of
\$100,000 and a surplus of \$50,000 to be-
gin business with.

Because her parents rebuked her for
keeping late hours and attending
dances, fifteen-year-old Mary Hall, of
Mahanoy City, drank a quantity of
carbolic acid with suicidal intent.
At a late hour last night she was
still alive, but her condition is such
that little hope is entertained for her
recovery. Before swallowing the poison
the girl wrote a note inviting her Sunday
school class of the Primitive Methodist
church to be present at her funeral.

John J. Kiernan, of Scranton, a mem-
ber of the Thirtieth regiment, con-
tracted typhoid fever at Camp Alger in
the South during the Spanish American
war and since then his mind has been
unbalanced. Word has been received
in Scranton that he just been allowed
the pension limit, \$75 a month. He is
of brother of Father Kiernan, of St.
Dominic's church at Parsons, and has a
wife and child.

Samuel Keller, who was discharged
from jail a few days ago, after the
grand jury had ignored the bill charg-
ing him with the murder of James Lar-
kin, was before Mayor Price, of Wilkes-
barre, yesterday for drunkenness. He
was severely lectured and fined.

Scranton journeymen tailors entered
upon a strike last night to secure a
uniform rate of wages. There is now a
difference of 25 per cent in the wages
paid by different tailors for the same
work. Some of the master tailors are
willing to sign the scale.

Citizens of Tamaqua yesterday voted
to increase the town's indebtedness \$35-
000, for the improvement of the water
plant.

Charged with the murder of Stanley
Moleski, in Wilkesbarre, Joseph Mach-
utis was brought from Illinois to that city
yesterday.

Tracing Rev. Bennett.

Those who are investigating the dis-
appearance of Rev. A. P. Bennett, of
Lansford, at Harrisburg on March 19,
have learned that he crossed the Sus-
quehanna bridge at Harrisburg on that
night, as he was seen at the Cumber-
land Valley station at Bridgeport.
The station agent is positive he saw Mr.
Bennett. He does not remember, how-
ever, whether Mr. Bennett purchased a
ticket. The suicide theory has now
been abandoned.

It has been learned that he removed
his clerical coat and donned a sackcoat.
His money and watch he took with him.
The authorities are working on two
clues. He is either in the South or
West, and it is expected that the mys-
tery will soon be cleared up. The sui-
cide theory was never accepted by the
authorities, who claim that if the man
contemplated it he would not have tak-
en with him the \$200 owed to the church
and conference.

The situation in the Bennett house-
hold, at Lansford, is a very pathetic
one. The four children, the oldest be-
ing 7 years, cry almost nightly for their
father, while the wife is heartbroken
under the strain.

Should he return it is claimed there
will be no prosecution on account of the
shortage, as Mrs. J. T. Bennett, of Jer-
sey City, mother of the missing man, will
make good the deficiency.

Jersey Fire Is Spreading.

Because the Delaware, Lackawanna
and Western Company refused to consid-
er the grievances of its striking em-
ployees the seventy-five men who have
been fighting the fire in the Jersey mine
of that company have joined the strikers
of the Pettibone, Woodward and Avon-
dale collieries and deserted the blazing
mine. The other men had been on
strike eight weeks. The fire is now
spreading, as the company is unable to
get men to work at it. For the past
year it has been a doubtful question
when it would break beyond the present
limits, and only by the most skillful
work have the fire fighters been able to
keep it confined to a certain area.

Most of the engineers and the pump
men at the Avondale colliery went out
yesterday in sympathy with the strikers
and several at the Woodward and the
Pettibone. The company has not yet
been able to fill their places, and if it
cannot the mines may be badly dam-
aged by the gathering of water and gas.
