FREELAND, PA., APRIL 28, 1902.

Warden Malloy Commended.

San Boyd in Wilkesbarre Telephone. Hugh Malloy, of Freeland, the fish and game warden appointed by Governor Stone, and every genuine fisherman and hunter owes thanks to the governor for this most creditable appointment, in instituting severe measures against the pot fisherman whose illegal methods of fishing has made the sport tame and uninteresting.

Arrests of several prominent people were made at White Haven last week for taking fish not up to the requirements of the law, and the justice is also embroiled in the meshes of the law for not discharging his sworn duty.

Another chap was arrested in the peaceful borough of Dorranceport for dynamiting the river for fish on Monday last, and through the efforts of Mr. Malloy, and his able counsel, the alderman fined him \$100 and sent him to jail for a period of six months.

The prompt arrest, prosecution and conviction of these pot fishermen and pot bird hunters will go far to breaking up this nefarious practice, and it will result in bringing both fishing and hunting back to the old-time popular favor, when the sport offered an attraction that was both studious and delightful.

We more than commend Mr. Malloy for the genuine interest and effort he is showing to crush out the pot hunter and fisher, and trust he will continue the good work until it is settled and ended forever.

Not only that, but he should be zealously aided and seconded by every true, kindly disposed sportsman, for their interest in the matter ought to be fully equal to that shown by Mr. Malloy.

Mr. Fynn, the gentleman from Pittsburg, announced some time ago that he has retired from politics, and, acting on the theory that repetition enforces truth, he repeats the assertion at regular intervals, that no one may make a mistake and think he is still doing political stunts. It is almost certain that any political cause would suffer in the public estimation if it were suspected that it had Mr. Fynn's sympathy. It is a question whether politics didn't really shrink from Mr. Fynn before he decided to perform the retiring act. It is true that he does not retire very honorably, but it is equally true that it would be impossible for him to remain in politics with honor to himself or credit to any party with which he might ally himself. The reason why Fynn was a political failure is that he devoted his whole energies to furthering his personal interests. In other words, he was in politics for what there was in it. Had he stood up and done battle for the public interests and the cause of good government, he would today be an honored leader, and could do much toward overthrowing those who are still leaders, but who are dishonored because they, too, have no thought above personal gain. Fynn never had a political friend that he would not betray, when betrayal would advance his selfish interests; he never had a political principle that he would not cast to the winds if he could profit personally by so doing. May his kind grow smaller and smaller, until Durham, Stone, Elkin, Quay and the whole corrupt crowd has passed into political oblivion.

Senator Frye is one of the good men who insists that a few wealthy ship owners should be subsidized by the government. He is surprised that the people, and especially that Republicans, should object to stealing a few millions from the government to be given to ship owners under the name of ship subsidies. "Why," he says, "you do it for every other industry in the country. You have been doing it for years. Subsidy is only another name for protection." This is the simple truth much as some of the millionaire senators disliked to have the unpleasant truth told by one of their own number. Protection, subsidy and legal piracy are pretty nearly synonymous, both in principal and results. They are as hypothetical frauds as ever were perpetrated upon a people to fitch money from the masses and put it into the pockets of the favored few.

The SPORTING WORLD

The High Jump Champion.

S. S. Jones of the New York university and New York Athletic club is the intercollegiate champion at high jumping. Jones is a splendidly built athlete, standing more than six feet high in his stocking feet, and his opinions on the art of clearing the stick should be of interest to every athlete in the land. He says:

"Almost any young man with ambition can excel in some branch of athletics. What he wants to do is to find out just what comes easiest to him. "I began 'gym' work when fifteen years old, and it wasn't long before I discovered that the high jump was my forte. I was greatly aided by my

height, which even at that age was exceptional. I soon became able to clear the bar at five feet two inches. Two years later I captured the interscholastic championship with a spring of five feet to inches. That shows how rapidly I improved. Since that time I have kept on increasing my power.

"When jumping six feet or more, the landing becomes very important. Carelessness may tear a ligament or sprain an ankle. Always land in a crouching position, facing the bar.

"It is necessary to jump to your limit once in awhile to be accustomed to a good height. A month before a contest I try myself out and do this weekly until the great event comes off."

With the Amateur Oarsmen.

At a meeting of the executive committee of the National Association of Amateur Oarsmen held recently in New York the national regatta was awarded to Worcester, Mass. In response to requests for bids the Quinsigamond Athletic association of Worcester was the only bidder. The committee voted to accept the bid, and the regatta will be held Aug. 8 and 9 on Lake Quinsigamond.

The committee unanimously endorsed the entry of C. S. Titus of the Union Boat club of New York to the royal Henley regatta, England. Titus' amateur standing was certified by the committee to meet the standard required by the Henley stewards as well as that of the N. A. A. O. Secretary Fred Fortmeyer has sent Titus' entry over.

Cyclists Use "Dope."

So general has been the use of drugs by the bicycle riders during the winter season that it is beginning to tell on some of them. It is even said that some riders are using the stuff while training. The "dope" used is usually a fifth of a grain of strychnine, it is said, which quantity has to be gradually increased. It quickens the heart action, but is no aid in gaining strength.

Rebellers "Wild Bill"

To get "Wild Bill" Harahan in shape for a fight requires the constant attendance of several handlers. Bill is inclined to ignore training rules. Joe Sullivan, Harahan's manager, never left the pugilist while he was training for Joe Choynski.

Where Cyclists Train.

Eddie Bald and MacFarland, cycle riders, are training at Hot Springs, Ark. Other riders who will do training there are Fenn, Maya, Freeman and Lester Wilson.

Baseball Chitchat.

Cy Young is out with the statement that he will depend largely upon a slow ball this season.

Barney Dreyfuss has already begun the erection of a new flagpole from which the National league pennant is expected to float this summer.

It is now reported that the Boston club of the National league made an unsuccessful effort to secure Roger Bresnahan from Baltimore during the winter.

Detroit fans are somewhat skeptical as to whether the recent raising of prices in the American league will prove successful at the City of the Straits.

Manager Horace Fogel of New York has landed the clever young pitcher Frank Sparks of last season's Milwaukee team, who refused to be transferred to St. Louis except at a salary increase which McAleer considered exorbitant.

Joe Kelley says that the reputation of President Johnson's ideas on the deportment of the players had preceded him, and the new Orleole magnate states that he will endeavor to give the league executive as little trouble as possible this season.

Owner Hedges of the new St. Louis Browns, in announcing his plans for Comiskey day at St. Louis, said that the principal thing on the programme was to "do Comiskey." The old Roman would almost prefer to lose a pennant rather than lose the game which will mark the first appearance of the White Stockings on Comiskey's old stamping grounds. The owner of the American champions says that Hedges has another guess.

HUMOR

BY THE LITTLE ONES.

A Fresh Supply of Up to Date Sayings From the Mouths of Babies.

Small Mabel upon seeing a baldheaded man for the first time exclaimed, "Oh, mamma, look at the man with the ingrowing hair!"

Mamma—Bessie, dear, you must not drink that milk. It's sour.

Bessie (aged four)—Why, mamma, has the cow been eating pickles?

Margie (aged three)—Mamma, do you know what makes the lightning?

Mamma—Yes, my dear, but I can't explain it so you would understand.

Margie—But I know, mamma. It's the angels scratching matches across the sky.

Teacher—What is that a picture of?

Small Pupil—Don't know.

Teacher—It's the picture of a calf. Now, do you know what a calf is?

Small Pupil—Yes'm. A calf is a cow before it gets to be a cow.

As little Harry was being tucked into bed on one of the chilly nights recently he said:

"Oh, but it's cold! I wish I had a refrigerator at my back."

"Why, Harry," said his mother, "a refrigerator is an ice chest."

"So it is," said the little fellow. Then after a pause he continued, "I guess I meant a perambulator, mamma."—Chicago News.

His Subterfuge.

The patient was very talkative, and the doctor thought the consultation would never end. Finally he requested the lady to put out her tongue, and silence reigned while the doctor went on writing. When he had finished the prescription, he handed it to her and, reaching for his hat, started for the door.

"But, doctor," reproachfully exclaimed the lady, "you have not looked at my tongue yet!"

"That is all right," calmly responded the doctor, "I only wanted to finish the prescription."—New York Times.

Trifling With Your Health

Is Like Playing With a Loaded Gun—If You Have Kidney Trouble Attend to It at Once.

It is easy to tell whether your kidneys or bladder are diseased. Take a bottle or glass tumbler and fill it with urine. If there is a sediment—a powder-like substance—after standing a day and night, if it is pale or discolored,ropy or stringy, there is something wrong with the kidneys. Other sure signs of disease are a desire to urinate often, pain in the back, or if your urine stains linen.

There is no question that Dr. David Kennedy's Favorite Remedy is the best and surest medicine in the world for diseases of the Kidneys, Liver, Bladder and Blood, Rheumatism, Dyspepsia, Chronic Constipation, and the sicknesses peculiar to women. It quickly relieves and cures inability to hold urine and the necessity of getting up a number of times during the night, and puts an end to the scalding pain when passing urine.

The Rev. Henry P. Miller, pastor Baptist Church, Spangenburg, S. C., writes:

"For eleven years I suffered with kidney, liver and heart troubles, swimming in the head, dull headache and numbness of the limbs. Several physicians prescribed for me and I took different medicines, but none of them did me any good. I then began the use of Dr. David Kennedy's Favorite Remedy, and in about two weeks was entirely well."

Dr. David Kennedy's Favorite Remedy is for sale by any reliable druggist, \$1.00 a bottle or six bottles for \$5.00—less than one cent a dose.

Sample bottle—enough for trial. Free by mail.
