Austrian Bulls.

Here are a few "bulls" that have been perpetrated from time to time in the Austro-Hungarian parliament:

"One most important point of the agricultural question is the maintenance of the breed of horses to which I have the honor to belong."

"We are here for the weal and woe of our constituents."

"Gentlemen, consider this question in the light of a dark future."

"The aye of the law weighs heavily on our gross legislation."

"There gentlemen, is the ever changing point of which the opposition has made a hobbyhorse."

"This taunt is the same old sea serpent which for years and years has been groaning in this assembly."

Incidents In American History.

A traveler who has just returned from a west to Matanzas says that he visited Ei Cumbre, a short distance from the city, and there was reminded of an finedent in American history with which he was entirely unfamiliar and which he is willing to bet not one American in a hundred knows anything about. He refers to the fact that a vice president of the United States took the oath of office there, being authorized to do so by special act of congress. El Cumbre means "the summit," and it was here that William Rufus King, vice president with Franklin Pierce, dying of consumption, was sworn into office March 24, 1853.

Loafing and Working.

Ever notice at the end of a day when you have fooled along with your work and slouched through everything in a slipshod manner that you are tred as if you had worked steadily and done your work well? And how much better satisfied you feel with yourself when you have done your work as you should. Your employer also notices these things. Don't belong to the slipshod class. Do your work well. You will feel better and stand higher in the estimation of the man you work for.—Atchison Globe.

Tricks of the Trade.

Tricks of the Trade.

If you find maple twigs and fragments of leaves in your "maple" sirup, you may feel pretty sure that it is an imitation or has been adulterated. People who make the pure article sent it market clean. The best butter does not market clean. The best butter does not have hair in it to prove that it was made from cows' milk. Strained honey with bits of comb in it is subject to the same suspicion. Tomato figs with a fig leaf on top of the box is another instance.

ROUND THE REGION.

Counsel for Jacob Gerhardt, of Sha-nokin, convicted of murder in the first mokin, convicted of murder in the airst degree for killing his wife, filed reasons for a new trial. They contend that one of the jurors, Jacob Forred, was prejudiced against the accused when he went on the jury and that he was solely responsible for the jury's rendering a first degree verdict.

Frank Smith, an amateur boxer of Allentown, was knocked out in a bout with Hans Hartranft at the Keystone Club, that place, Friday night, and died Saturday at the hospital. Tree That Turns to Stone.

There is a tree that grows in Mexico called the "chijol," or stone tree. It is of enormous proportions, both in circumference and height. It has a number of branches spreading out widely and carrying leaves of a yellowish green color. The wood is extremely fine and easily worked in a green state. It is not given to either warping or splitting. The most remarkable thing about it is that after being cut the wood gets gradually harder, and in the course of a few years it is absolutely petrified whether left in the open air or buried in the ground. From this timber houses can be built that would in a few years become completely fireproof and would Through the efforts of Congressman William Connell, congress has passed a special act giving a pension of \$25 per month to Mrs. Ruth B. School Appropriation.

The appropriation to the public schools for the year ending June 1, 1902, will be ready for distribution early in June, the Department of Public Instruction having made the calculations as to the amount that each county and school district is entitled to receive. This basis of distribution is the number of teachers, the number of resident taxables and the number of children between the ages of 6 and 16.

The original amount appropriated was \$5,500,000, but \$200,000 of this will be deducted for the normal schools and \$25,000 for township high schools, leav-\$5,500,000, but \$200,000 of this will be deducted for the normal schools, leaving the public schools, \$5,275,000.

Would Not Insure Him.

Insurance Companies Refused to Insure the Rev. J. W. Yeisley Because He Had Kidney Trouble.

This case is but one of thousands where the head of the house was refused insurance, because he had kidney trouble. Mr. Yeisley had given up in despair when some friend recommended Dr. David Kennedy's Favorite Remedy nd it cured him.

and it cured him.

Mr. Yelsley writes:

"My kidneys and liver were in bad condition and I was anxious for relief. I had tried many remedies without success and when I bought a bottle of Favorite Remedy," it was with but little faith in its ever helping me, but in a short time it effectively proved its merit. Perhaps the best proof I can give that it has completely cured me is to state that I have since been accepted by four different life insurance companies."

The Rev. Mr. Yeisley is the pastor of the First Reformed church, of St. Paris Ohio, and is as well the editor of the St. Paris Dispatch.

There is no question that Dr. David Kennedy's Favorite Remedy is the best blood, rheumatism, dyspepsia and chronic constipation, as well as the weaknesses peculiar to women.
