PRESIDENT HAS REPORT

Wright's Strike Findings in Roosevelt's Hands.

Labor Commissioner Completes His Investigation. Situation at Sandy Run. Drifton Stockade.

The report of Labor Commissioner Carroll D. Wright upon his investigation of the coal strike and its causes is in the hands of President Roosevelt. It reached Washington last night, and the president was too busy preparing for his trip to Boston to give it more than cursory consideration. He has taken the document with him to read and consider it during his trip, and will probably hold a conference in Boston with Mr. Wright respecting it.

The report is a voluminous one, and goes thoroughly into the cause which led to the conflict between the mine workers and the operators, and it is understood that it discusses at length the merits of the controversy.

Beyond this it is impossible to judge the character of the communication, except by the nature of the investigation which Mr. Wright was understood to be making in New York.

It is not believed Mr. Wright has shown any way in which the president can invoke the law to bring about a settlement of the difficulty.

It is understood the president will make public a statement of some kind respecting the report and the strike when he has returned from Boston.

RETURNED TO WORK.

Fifteen of the Susquehanna Coal Company's engineers, firemen and pump runners returned to work at the Nanticoke collieries yesterday. The men at a meeting on Monday night voted to return in a body and appointed a committee to wait upon General Manager Williams to apprise him of that fact. A surprise was in store for the committee, which was that they were informed that the men must make individual applications for work. The result of these individual applications was that the men who went out and remained passive were given work, while those who had become aggressive were turned down. The men who returned did so at the old rate of wages.

President Mitchell says the return of the men at Nanticoke has little or no real significance.

"The companies are offering these men big premiums to go back to work," he said. "It is a temptation to some, and here and there a few men may return for a time. But we are dealing with 147,000 men, and individual cases of this kind do not count for much. The anthracite strikers are determined to win this fight and there will be no breaks."

SITUATION AT SANDY RUN.

Sandy Run Local Union of the United Mine Workers, has decided to pay no attention to the alleged statement of M. S. Kemmerer, in which the head of the firm operating Sandy Run colliery is reported having said he did not sanction the granting of the steam-men's demands. The union, a week ago, received positive assurance that these demands were conceded, and upon this assurance instructed the engineers, firemen and pumpmen to return to work.

Inasmuch as the union or the steammen have not received any notice that the concessions have or are to be withdrawn, the employees have been notified to continue at work. The pumping of the water out of the mines is going on steadily, the men working on eight-hour shifts.

BEHIND THE STOCKADE.

To judge from the murmurs which reach the outside world, everything is not serene with those who have voluntarily imprisoned themselves behind the stockade at Drifton. When the clerks and other employees took the places of striking firemen and pumpmen on June 2 they expected to be relieved from their irksome labors in a short while. Cox Bros. & Co., however, found them so willing to work that they are making little effort to replace them. This is not pleasing to the "volunteers," and their woes are now beginning to leak through the barricade.

With an unappreciative corporation piling work on them on one side and the contempt of the public on the other, the stockade gang is finding that "the way of the transgressor is hard."

"MOTHER" JONES ON TRIAL.

The trial of "Mother" Jones and eleven others who are accused of violating an injunction of the Federal court

in regard to interfering with working miners, was begun yesterday at Parkersburg, W. Va. Most of the time was taken up by one witness, who testified to the language used by "Mother" Jones in a public speech. She advised miners to pay no attention to injunctions of courts. There are about thirty witnesses and the trial will last all week.

DETECTIVE CONVICTED.

William Bauer, the detective, who was charged with criminal libel by John Fallon, national board member of the United Mine Workers, was convicted yesterday and recommended to the mercy of the court. Bauer furnished a newspaper with a statement purporting to come from Fallon saying that 500 miners were needed in Bluefields, W. Va., where there was then a strike.

Located the Bullets.

Charles McCann, who was shot by a Stanton mine deputy some time ago, underwent an X-ray examination to locate the bullet. The physicians found that the bullet lies under the right shoulder and is somewhat flattened. This is due to the upward course it took after entering the flesh, which saved the boy's life. Unless the patient shows uneasiness the bullet will not be probed for, but will be left in the shoulder muscles.

The Shorts boy, who was shot by a farmer near Ashley the day following the McCann shooting, was also put under the X-rays. The bullet was found in the muscles of the back and will be probed for in a few days. Both boys are improving nicely.

Certificates for the following applicants for schools in Freeland have been received by D. S. Buckley, secretary of the board: Professional—Myron Zimmerman, Miss Annie Gillespie. Provisional—Misses Katie Winter, Sarah D. Gallagher, Mary McGill, Mary McGee, Bessie Gallagher.

Provisional—Frank Solomon, Frank Dever, Mrs. Mary O'Donnell, Mrs. Mary E. McHugh, Misses Johanna Duffy, Katie Duffy, Mary Boyle, Cora M. Keller, Lizzie Lawson, Margaret McFadden, Nellie Timony.

Foster School Accounts.

Since the appearance in print of the financial statement of Foster township school district for the past year, the directors have received many commendations from taxpayers and others interested in Foster school affairs. For the first time in many years the district is practically free of debt, the outstanding obligations amounting to less than \$263.

The receipts, expenditures and other matters pertaining to the financial condition of the district appear in another column of this issue. These figures show that the directors have managed their school accounts well, and at the same time have provided the schools with everything required.

It will be the first time such ceremony has occurred in this country, and it was necessary for Bishop Hoban to obtain a special dispensation from the Greek college of the propoganda. Four priests of the Roman Catholic church will be ordained the same day.

In the annual scramble for schools in Mahanoy township, Schuylkill county, fifteen teachers were ousted by the controlling political power to make room for others dropped last year. A great stir has been created by the wholesale decapitation.

A Cranky Conductor.

A respected resident of Freeland makes complaint to the Tribune of the actions of the conductor on trolley car No. 32, which arrived here at 7 o'clock last evening from Hazleton. He says he boarded the car on the Diamond, in the latter city, and owing to the crowded condition of the car was compelled to stand on the rear platform. The conductor, for some unexplained reason, took exceptions at Harleigh hill to the position occupied by the Freeland man, and from that point to Ebervale lost no opportunity to jostle him about and insult him in various ways, notwithstanding the fact that every possible effort was made by the passenger to keep out of the conductor's way.

The actions and language of the trolley road employee are said by other occupants of the car to have been a disgrace to his uniform, and were it not that the target of his abuse is a quiet, inoffensive man, serious trouble would undoubtedly have resulted. As this is not the first time this conductor has ill-treated his passengers, his conduct should receive some attention from his superiors.

A Freeland picked team was defeated, 16 to 14, by Drifton Twirlers at Drifton yesterday.

TRY THIS TEST. And See If Your Kidneys Are Diseased.

A very simple way to determine whether your kidneys or bladder are diseased is to put some of your urine in a glass tumbler and let it stand 24 hours; if it has a sediment or a cloudy, rosy or stringy appearance, or if it is pale or discolored, you do not need a physician to tell you that you are in a dangerous condition. Dr. David Kennedy's Favorite Remedy speedily cures such serious symptoms as pain in back, inability to hold urine, a burning scalding pain in passing it. Frequent desire to urinate, especially at night, the staining of linen by your urine and all unpleasant and dangerous effects produced on the system by the use of whiskey and beer.

In speaking of the good done him by Dr. David Kennedy's Favorite Remedy, the Rev. Aaron Coons, D. D., pastor of the M. E. Church of Rhinecliff, N. Y., says:

"I most sincerely believe that Dr. David Kennedy's Favorite Remedy is the best kidney, liver and blood medicine made, and urgently recommend it, for I know by experience it will do all that is claimed for it."

"Favorite Remedy" is a vegetable help to the stomach and bowels in performing their duties properly. It overcomes and permanently cures dyspepsia, indigestion, biliousness and rheumatism. It is absolutely harmless and purely vegetable. It contains no dangerous stimulants, no mercury or poisons, and is the only kidney medicine that does not constipate.

All druggists sell Dr. David Kennedy's Favorite Remedy in the **NEW 50 Cent Size** and the regular \$1.00 size bottles. Sample bottle—enough for trial, free by mail.
