FULL POWER FOR MITCHELL

National Strike to Be Left in President's Hands.

Such Is the Prediction Made Yesterday by a High Official in the Union—Report That Coxe's Will Resume.

The national convention of the United Mine Workers at Indianapolis on July 17 will give President Mitchell full power to order a strike in the manner that he believes best in part or in whole, according to President W. F. Williams, of the Michigan miners, who went home last night after a two days' conference with Mr. Mitchell.

This important announcement shows how carefully the plans of President Mitchell have been laid, and how, instead of sweeping the country into a great industrial crisis he is proceeding slowly and will continue to do so, giving the operators every opportunity to see the ultimate outcome and to meet the miners half way at any time.

President Williams said: "The soft coal men will all stand by President Mitchell, and if they have to break agreements, will do so. It is not good to violate a contract, but if it comes to breaking a contract or the union the contract will be broken first. I believe that the life or death of the union is involved in the present struggle."

The Ohio delegation, which arrived at the county seat yesterday, is now making an investigation of the conditions in the anthracite region, and will visit several of the large centres and then return to Wilkesbarre for a conference with President Mitchell. They went to Scranton this morning.

Other members of the Michigan delegation, as well as some of the men who are here from Ohio, seem to be firmly convinced that the action of the Indianapolis convention will be shaped by Mitchell alone on most conservative lines. It is more than likely that a strike resolution will be adopted and that the calling out of men will be confined to those states in which the miners are not bound by any agreements.

The Western men seem to think that the convention will vote its confidence in President Mitchell and leave the calling out of the contract miners entirely to his discretion. Since Mitchell has all along fought against a general strike it now seems certain that he will not resort to a move of the kind indicated until actually forced by existing conditions.

MINE WORKERS SUED.
At the instance of the Pennsylvania Coal Company Thomas Barthwick, one of its mine engineers at Durycy, brought four trespass suits for \$2,000 each yesterday against James and Charles Brown, John Burns and Ernest Dancks, who are alleged to be part of a crowd which hung him in effigy in front of his house. Seven similar suits against others of the crowd, who live across the county line, will be instituted in the Luzerne county court.

wanna and Western and Lehigh Valley companies are at work on the papers in the big raft of cases to be brought against the five United Mine Workers whose names were attached to the unfair list posted in and about Kingston yesterday. Upwards of fifty of the workmen and business men whose names appeared on the "unfair list" have been seen by agents of the companies and given their assent to the bringing of proceedings.

SAYS COXE BROS. & CO. WILL RESUME.

The Hazleton Item this morning says: "On what appears to be good authority it is stated that Coxe Bros. & Co. will blow their whistles at all their collieries next Monday evening signifying that work will be resumed Tuesday, July 1. It is also stated that the company has a large enrollment of men who are willing to return to work at the stated time at all hazards. It is said that the Austrian element will be the first to make a break and they will be followed by a large number of Poles and Slavonians. The claim is made by officials that at all collieries a sufficient number of men have volunteered for work to man the collieries."

Offers of Cash for Their Votes.

At the meeting of the Nanticoke school board, last night, two directors said that bribes had been offered to them to vote for a girl, who was an applicant for a place as teacher. The girl, Miss Helen Chowaniec, was nominated for the place by Director Madayowski, and was seconded by Director Dodson, who said the Polish people being heavy taxpayers should be represented in the schools.

At this point Director Kijorn said \$75 had been offered to him to vote favorably on her application. Director Bees said \$50 had been offered to him on similar grounds.

The charge caused a sensation. The spectators were turned out of the room, and a secret session was held. The matter was thoroughly discussed, and today the law and ordinance committee began an investigation. The names of those who offered the bribes have not been made public.

Licensed Liquor Dealers.

The licensed retail liquor dealers of Lackawanna and Luzerne counties have combined their associations and will establish headquarters at Scranton. Their efforts will be directed towards a reduction of the license fees and the securing of beer at lower prices. At their last meeting they declared they would sell none but union-made beer, ales and porters and employ none other than union help.

Permanent organization was effected by electing Frederick Dilcher, formerly a national board member of the United Mine Workers, now of Scranton, president; E. J. Lynch, of Plymouth, and John H. Rice, of Wilkesbarre, vice presidents; M. P. Riley, of Scranton, secretary, and John F. Connoie, of Plymouth, treasurer.

Lawyers will be engaged in each county to look after the association's interests and to assist in the prosecution of speakeasy keepers.

Accused Men Discharged.

Joseph Snyder, Jack Lewis, Benjamin Kites, William Minnick, William Woodring, Edward Buck and John Heisel, of Milesville, were arrested yesterday on a warrant sworn out by Fish Warden Hugh Malloy, on information furnished by two men from Wilkesbarre named Kemmerer and Edwards. The defendants were charged with illegally fishing with seine nets in the Big Walwalpen creek on June 10.

The accused men were brought before Squire Buckley last evening, and as the evidence of the witnesses, Kemmerer and Edwards, was insufficient to warrant a conviction, they were discharged. The costs were placed on Kemmerer, the principal witness.

Died at Highland.

Patrick Bradley, aged 60 years, died at his home in Highland yesterday morning after an illness of several weeks. The deceased was a well known man, having resided in this region for many years. He is survived by four children, Daniel and Patrick of Highland, and two adopted daughters, Mary and Jane. The funeral will take place Saturday afternoon at 2 o'clock. The interment will be made at St. Ann's cemetery.

The borough of Parsons has adopted an ordinance which levies the following taxes annually on telephone, telegraph, water, gas, electric light and street railway companies doing business in that town: 50 cents for each pole, \$1 for each mile of wire, \$5 for each mile of water or gas main, \$5 for each fire-plug and \$10 for each street car.

S. & F. L. Smith, dry goods merchants of Hazleton, have sold their business to a Philadelphia party.

All the teachers of last term who applied were re-appointed. Three vacancies, caused by the elevation of Mr. Hoffman to supervising principal, the marriage of Miss Leah Parry and the removal of Miss Margaret Streeter to the western part of the state, were filled by appointing Miss Lizzie Metzgar, of East Foster, who was substitute teacher last year, and Peter R. O'Donnell and Miss Grace McGeehan, of Freeland.

It was decided to open the schools on Tuesday, September 2.
The supply committee was instructed to ascertain the nature and quantity of supplies needed for the term and to order the same as soon as possible.

A Silent Woman.

At the home of Messrs. Lu and Gore Bonta, on the Lexington pike, near Harrodsburg, Ky., is an old colored woman who has never spoken since her husband was put upon the block and auctioned off to southern slave dealers over forty years ago. When he was torn from her side, she vowed never to speak until he was restored to her, and, though many years have passed and the custom of selling human beings has been abolished, she still keeps her vow. "Aunt Susan," as she is called, is now between sixty and seventy years of age.

The View Masculline.

And they subsequently merged.—Chicago Tribune.
