MINERS IN CONVENTION

Sentiment Against Calling Out Soft Coal Men.

Mitchell Opposes Violation of Contracts and Favors Heavy Assessments for the Anthracite Workers' Fund.

About 1,400 delegates, representing more than 350,000 members of the United Mine Workers of America, assembled in Tomlinson Hall, Indianapolis, yesterday to consider what should be done to aid the striking miners in the Pennsylvania anthracite fields. They were to decide whether or not a general strike that would in a short time stop every factory and locomotive wheel in the country, should be called. There were 2,184 votes in the convention. Many of them, of course, were cast by proxy, some of the delegates holding as many as five proxies. Of the 2,184 votes 708 represent the strikers in the three anthracite districts. In President Mitchell's speech he declared against a general sympathetic strike. This has special significance, because many delegates came to the convention without instructions, and it is believed they came with the intention of following the policy laid out by the leaders of the national organization.

A motion to adopt the suggestions of President Mitchell provoked a long debate, in which the general sentiment was against the ordering of the strike. The men from the anthracite region finally made a request that they be allowed to hold a caucus to determine upon an expression of opinion as to what they thought the convention should do, and asked an adjournment of the convention for this purpose. Their request was granted and the adjournment taken.

The men who were in favor of a strike were in a decided minority in the convention. Three speeches were made by members of the anthracite districts asking that the soft coal men walk out, and twice as many were made by the anthracite men urging the soft coal men to continue at work.

On account of the widespread interest of the public in the result of the convention the sessions are open to all persons who desire to attend.

MITCHELL'S SUBSTITUTE.
The main point under consideration is Mitchell's substitute plan for a strike, and whether the miners will be satisfied with it. On this point he says:

"I am firm in my conviction that the strike in the anthracite fields can and will be won without repudiating our solemn contracts with the bituminous operators, provided the bituminous miners, will rise to the occasion and do their full duty by their struggling fellow-workers, and with this in mind I desire to submit for your consideration the following specific recommendations:

"First.—That the national secretary-treasurer be authorized and directed to immediately appropriate \$50,000 from the funds in the national treasury and place it at the disposal of the officers of Districts 1, 7 and 9.

The EGGS
which some coffee roasters use to glaze their coffee with—would you eat that kind of eggs? Then why drink them?
Lion Coffee
has no coating of storage eggs, glue, etc. It's coffee—pure, unadulterated, fresh, strong and of delightful flavor and aroma.
Uniform quality and freshness are insured by the sealed package.

"Second.—That all districts, sub-districts and local unions be appealed to to donate from the surplus in their treasuries as large amounts as they can afford.

"Third.—That an assessment of not less than \$1 per week be levied upon all members of local unions, the amount so levied to be collected at the earliest possible moment and forwarded to the national secretary-treasurer.

"Fourth.—That an assessment of 25 per cent be levied upon all national, district and subdistrict officers whose salaries amount to \$50 per month or more.

"Fifth.—That an appeal be made to all American trade unions and to the general public for financial assistance to carry the strike through to a successful issue.

"Sixth.—That a committee be selected from this convention to draft an address to the American people, setting forth in proper form the policy of the miners' organization and appealing to the people to bring all possible pressure to bear upon the officers and stockholders of the anthracite coal-carrying roads to compel them to treat considerably the appeals of their employes for arbitration.

"Firm in my conviction that the adoption of these recommendations and concurrence in this policy will insure success and conserve the best interests and the welfare of our organization, I submit them to you and bespeak for them your earnest consideration, with the sincere hope that whatever policy you decide upon the honor and integrity of our organization will be preserved."

FIRST ATTEMPT IS A FAILURE.

The first attempt of the operators to break the strike has utterly failed. One of the mine bosses at Nanticoke gave it out Wednesday night that the company had all the miners it wanted and that No. 7 breaker would surely start up yesterday. A large crowd of men and boys collected when the whistle blew and the machinery in the breaker started. But no miners entered the mine and no coal was mined. Some coal was run through the breaker. This was stock coal, which was picked up in the roadways of the mines by the bosses. It is said they have been engaged for two weeks in getting the refuse coal in cars ready to be hoisted to the surface. For a while it did look as though the breaker was doing business, but when the deception became known the strikers gathered outside of the stockade and cheered derisively.

ONE ARREST YESTERDAY.
Andrew Braznitski, of Upper Lehigh, was arrested yesterday by Constables Zeigler and Woodring, of Hazleton, on a warrant issued by Alderman Heidenrich, before whom he was charged by John Hodgson, of North Centre street, with assault and battery and riot and unlawful assembly on Monday morning.

Braznitski waived a hearing and furnished \$200 bail before Squire Shovlin for his appearance in court, John Shigo qualifying as bondsman.

Married or Not Married?

In yesterday's Atlantic City news of the Philadelphia Inquirer appears the following item:

"Beaux and belles were numerous on the promenade today, notwithstanding that June is considered the most prolific of all months for blushing brides and happy grooms. Among the strollers today were Mr. and Mrs. Joseph Birkbeck, of Freeland, Pa., who are spending the summer at the Osborne. Mrs. Birkbeck was formerly Miss Katherine Holliday, a belle of the town from which they came, and this is probably the first intimation that her many friends will have had of the fact that she is now a wife. The couple came here a fortnight ago and were quietly wedded by a local minister at the hotel. Some of their friends who have come here are extending congratulations."

Mr. Birkbeck returned alone on Sunday evening from Atlantic City, where he spent the previous two weeks. He says the Inquirer's correspondent has libeled him and threatens to institute a suit for half a million dollars damages against the proprietor of the paper. The young lady referred to in the Inquirer article is not a resident of town.

Children of School Age.

A list of children of school age in Luzerne county, as returned by the assessors, on which the state appropriation for the various districts is based, has been compiled. It shows that there are 61,320 children of school age in this county, of which 11,040 are residents of Wilkesbarre. Hazle township comes next with 3,863 and Hazleton city third with 3,293. The Fairmount township independent district is the smallest in the county, having a total of 15 children of school age.

In Freeland there are 1,692 school children, 918 males and 774 females. Foster has 1,970, Jeddo 93 and Butler 447.

ROUND THE REGION.

A party of Philadelphians this week inspected near White Haven a tract of 1,000 acres of land which they own and which they are to transform into the largest ice preserve in the state. They expect to be able to ship about 300,000 tons a year. It is also proposed to make the place a summer resort and a hotel is to be erected as soon as the railroad is built. The company will be known as the Mountain Spring Water Ice Company.

When Mrs. John Roberts, of Tamaqua, closed a bureau drawer she pinched the tail of her pet cat, which hung, howling dimly, until Mrs. Roberts turned to its rescue. Then, maddened by pain, the cat sunk teeth and claws into the woman's arm, which was terribly lacerated, and is now swollen to twice its natural size.

For the tenth time in ten years John T. Allen, of Williamsport, is suffering from a broken leg. The present injury is the right leg, and that limb has now been broken the same number of times as the other. Allen stooped over to straighten out a piece of carpet on his porch when the bone snapped.

Wilkesbarre has saved \$7,000 by re-advertising for bids for repaving 30,000 square yards of the city streets with asphalt. When the first bids were opened a dispute arose and it was necessary to advertise again. The second bids were much lower than the first.

Hearing he was suspected of having broken into the Central Railroad of New Jersey depot on July 10, Harry G. Hontz, of Lehighton, went to Mauch Chunk jail and confessed. He was committed for trial.

John Quinn, of Scranton, died on Thursday, his death being due to continued brooding over the death of his sister, Mary Quinn, who was murdered a month ago.

Thomas Hinkle, an aged man of Mahanoy City, was milking a cow when it kicked him, breaking his leg and causing internal injuries which resulted in his death.

Prison Warden's Report.

The annual report of George J. Llewellyn, warden of Luzerne county prison, has been issued. During the past year 1,002 prisoners were placed in his keeping. They were fed at a cost of eight and seven-tenths cents each per day.

The lower end towns and townships contributed to the 1,002 the following numbers: Freeland, 12; Hazleton, 55; Hazle, 16, and West Hazleton, 2. Wilkesbarre city sent the largest number to jail, 346.

There were 743 married and 359 single persons placed in jail, representing almost every nationality in the county. Their ages ranged from 8 to 80 years. They were charged with every crime from murder to profanity. Nine were arrested for murder and one of these was hanged.

Every occupation, trade and profession is represented in the list, excepting editors and printers. One reporter went afoul of the law during the year.

Charged With Libel.

Some weeks ago the borough of Edwardsville and the upper end of Plymouth township were flooded with handbills containing names of men who refused to leave their work at the Pettibone and Woodward collieries of the Delaware, Lackawanna and Western Company. The top of the circulars contained a heading, reading "Unfair workers," and the circular gave the names of the persons. The matter was followed up by detectives and John R. Mullery, of Wilkesbarre, manager of the Courier-Herald, and Charles Thain, of Wilkesbarre, editor of the same organ, were arrested on a charge of libeling twenty-two non-union men.

The two defendants were taken before Alderman Pollock and after hearing the testimony the alderman placed them under \$500 bail on each warrant issued, which amounted to \$11,000 altogether. Bail was furnished.

Palmer Is a Candidate.

Congressman Henry W. Palmer announced yesterday that he would be a candidate for re-election, and thus removed all doubts as to the miners' strike keeping him out of the field. "I have the nomination in my hands," he said. "I am going to run and will have no opposition in my own party. I fully expect to get 5,000 more votes than I did before."

The Democrats have not yet put any one in the field for the place, but several names have been mentioned.
