NEW LIGHT PROPOSITIONS

Received by Council From
Electric Company.

Members Defer Action on
the Question and Transact
Only the Routine Business
at Last Evening's Meeting.

The borough council met last evening with Messrs. Doggett, Hincer, Wm. Gallagher, McLaughlin, McNelis, Crawford and Moersbacher present. The following bills were ordered paid: James Kennedy, testing fire plugs, \$2; Freeland Water Company, rent of fire plugs, \$120; Hazleton Machinery and Supply Company, material for fire alarm, \$12; L. V. R. R., freight, 45c; Freeland Electric Light Company, street lights (four months), \$1,093.32; J. D. Meyers, labor, \$1 38; United States Express Company, express, \$2.28; police department, services, \$136.50; street commissioner's pay-roll, \$133 04; janitor, \$30 15.

The report of Burgess Boyle showed total receipts of \$12 75; \$3.25 due burgess and \$9.50 due borough.

Treasurer Meehan reported a total balance of \$1,831.27, less \$1,190.71 sinking fund or \$640.56.

The street committee reported on the land question of the Third ward, but thought it not a question for council to decide who was right. The damage by rains along Fern street was discussed and a manhole was suggested, while others thought if gutters were placed water would take original course and flow west from the brewery at much less cost than the construction of a manhole.

President Moersbacher reported trees being cut in the Public park. It was decided to post suitable notices offering a reward of \$10 for conviction of parties doing the damage.

The ordinance committee appointed at the last meeting reported progress.

The chair reported that the Rudewick damage case against the borough could be satisfactorily settled if council would lay an 18-inch pipe sewer across the land of Mr. Rudewick, the permission for which would be granted, and pay the costs. The proper committee was instructed to seek permission from the Upper Lehigh Coal Company for an outlet on its land.

Two new propositions were read from the Freeland Electric Light Company in which the following was offered: To give the town as at present located forty-two 450-watt arc lamps for a term of three years at \$74 per lamp per year with free lights; the other was for forty-two alternating enclosed lamps for a term of seven years at \$67 per lamp per year and no free lights. If the latter is accepted six months will be required to make the change.

Mr. McNelis, of the First ward, thought it time council was doing something to secure the monies due the borough from the different sources and for which council had given instructions.

The use of the Public park was granted for a Prohibition address tomorrow afternoon.

For the vacancy in the Second ward Mr. Crawford named John Sutton. His election was made unanimous.

Previous to the meeting Councilman Ward reproached George McGee, correspondent of the Hazleton Plain Speaker, for publishing an article in yesterday's issue of that paper, in which the councilman was mentioned as likely to deliver a speech at the session on the subject of untaxed land in the borough.

During the conversation Ward became angry and attacked the reporter, who was sitting at the press table, striking him twice, once on the head and once in the face. McGee was unable to defend himself, owing to the position he occupied at the table, and Chief of Police O'Donnell grappled with the councilman and removed him from the building. Ward's action was the subject of much unfavorable comment during the evening by those who were present.

Gobin's Order Denounced.

The Labor Day meeting at the Public park on Monday was marked by intense enthusiasm on the part of the 4,000 people who gathered and listened to the addresses delivered by P. G. Gallagher, Andrew Matti, Matthew Long and D. J. McCarthy, Esq. At the conclusion of

the speeches the following resolutions were presented and adopted:

"Whereas, An astounding order has been issued by General John P. Gobin, the officer in command of the military forces of the state of Pennsylvania now stationed in the coal fields, to the officers under his command, to shoot all persons, who in the opinion of that officer or any member of his force, insult the soldiers and to station sharpshooters on the flanks with instructions to pick off the leaders of the men and spare neither women or children. Be it

Resolved, That the workmen of Freeland and vicinity, in mass meeting assembled, denounce the order of General Gobin as an uncalculated usurpation of power, dangerous alike to the liberty of the citizen and the peace of the community. The general by his action has demonstrated that he is an unsafe man for the very responsible command to which he has been assigned by the executive of the state. Be it further

Resolved, That we register an emphatic protest against his action and urge upon the governor of this Commonwealth the urgent necessity of removing the said General Gobin from the command of the military forces of the state now stationed in the coal fields and place some officer in charge who will be animated by no other motive than the common weal of the citizens of the state.

Resolved, That the chairman of this meeting be empowered to acquaint his excellency, Governor Stone, of the action here taken."

A committee of ten representative workmen was named to carry out the instructions of the resolutions and a copy of the same was forwarded Monday afternoon to the governor.

COMMUNICATED.

Upper Lehigh, Pa., September 1.
Editor Tribune.—There came to my notice in last Friday's issue of the Tribune an article that made me blush, which was sent by Mr. Ambrozi to Washington. He says: "As an American citizen of Hungarian birth I protest against the admission free of duty of the Hungarian flag now on its way to this country." I do not know how the readers of the Tribune understand this protest, but I believe it was unnecessary. In the first place: The flag has not arrived yet. In the second place: There are the officers of the custom house, who are supposed to know whether or not the flag or any other article should be admitted free of duty.

I think that Mr. Ambrozi was a little premature by interfering in this matter. The short answer he received to his protest from H. A. Taylor only proves that. The officers of the custom house know their business without him interfering. Furthermore, it is evident that Mr. Ambrozi was seeking revenge.

Mr. Ambrozi has forfeited his honor of his native land, because such a man is ready for every chance to get vengeance on his motherland. I would wish to know another gentleman, Irish or German, who would attempt to protest against the banner of their mother-country, as Mr. Ambrozi did! He is only practising deceit.

As regards the inscription on the flag, "Be dauntlessly loyal to your fatherland, oh Magyar!" I would inform the reader that this is a motto taken from an Hungarian hymn, for all Hungarians and can be placed on every flag.

The writer of the article said: "The National Slavonic Society has made a successful protest, etc." I would like to know where he bases his claim as a nation? I never to my knowledge knew of a Slavonic nation in this world since A. D. 908, when Svatupek, king of the Slovaks, exchanged with Arpad, chief leader of Hungary, his country (I mean Slovak) for a nice, white horse and a flowery red bride.

Mr. Ambrozi is a type of this character extracted from Svatupek and does not respect any flag.

A Loving and Adoring Boy of the Motherland and a Faithful Citizen of America.

Received the Flag.

With many bands and with a most picturesque display of native costumes the civic and military parade of the various Hungarian organizations and committees taking part in celebrating the reception of the flag sent to the United States from Hungary caused considerable stir in New York city on Monday.

Joseph Tzeni, the Hungarian delegate, led the parade, in a carriage drawn by four horses, and surrounded by a gayly dressed company of aides in Hessian costumes.

Then followed carriages laden with pretty girls in national costumes, and as every one in the parade wore rosettes, streamers or flags of red, white and green, it was full of sparkle and color. Delegations of Hungarians were present from many cities, resplendent in the rich Magyar uniform with top boots, furs, spurs and sabres.

The duty levied on the flag amounted to \$240, which goes to show that it is an extremely costly banner. The local members of the National Slavonic Society are elated at the action of the American government officers in refusing to admit the flag free of duty.

REASON OF THE OPPOSITION.

A committee consisting of Rev. Charles Pachisak, pastor of St. John's Slavonian Catholic church, and Joseph B. Kreemery, editor of the Slavonic Truth, called at the Tribune office yesterday and explained the reason of the opposition of the Slavs to this gift from Hungarian officials. They claim the flag was sent here to induce their countrymen to renew their allegiance to the Hungarian government and to build up in the United States a power which the Hungarian government could control.

They asserted that but very few of those who favor the acceptance of this flag are American citizens and refuse to become such, preferring to remain subjects of a foreign monarch while enjoying the freedom of this country.

The committee contended that the Slavs left their country because of the oppression by the government, in closing their schools and colleges and prohibiting their language from being used in schools and courts, and that having become citizens of the United States they wish to have nothing further to do with those who oppressed and persecuted them. Both gentlemen related personal experiences of the hatred borne by the Hungarian government and its officials against the Slavish people in that country.

Kidney diseases should be attended to at once, for almost 90 per cent of our unexpected deaths of today are from that cause. Dr. David Kennedy's Favorite Remedy is the only sure cure known for diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation. It is marvelous how it stops that pain in the back, relieves the necessity of urinating so often at night, drives away that scalding pain in passing water, corrects the bad effect of whiskey and beer and shows its beneficial effects on the system in incredibly short time.

George L. Smith, foreman of the Holley Manufacturing Company's Works, Lockport, N. Y., says in a recent letter: "I have used Dr. David Kennedy's Favorite Remedy with the most beneficial results. I was troubled with gravel and kidney complaint very severely, it bothered me a great deal, and have found great relief from its use, and cheerfully recommend it."
