THE COMMANDING ISSUE. ennsylvania is about to enter upon ontest for political independence regeneration that will be memorable in the annals of the times. The able in the annals of the times. The currents of public feeling to be noted in all parts of the state are deep and strong. It was thorough knowledge and appreciation of this fact which in-spired the action of the controlling forces in the recent Republican con-vention. It was onealy and signifivention. It was openly and signifi-cantly declared that no risks must be cantly declared that no risks must be taken. Nevertheless, the situation al-ready shows that even the best laid plans of the shrewdest political man-agers may go amiss, despite every ef-fort to persuade the people that all is well. There is a rising tide of public suspicion that a confidence game is suspicion that a confidence game is contemplated and an increasing pur-pose is manifest to know the truth and to act with vigorous indepen-dence and effect. There is to be a determined grappling once more with the forbidding forces in American pol-tics which have so tone mode tone mode

the forbidding forces in American pol-itics which have so long made the commonwealth of Pennsylvania a re-proach throughout the nation. It is clear knowledge of this fact which has caused many citizens of the highest standing and influence, and in full sympathy with the Repub-lean matry on national insure to compare lican party on national issues, to open-ly declare their purpose to again sus-tain the cause of reform, as represent-ed by the Democratic standard bear-ers in this state. Men like Henry C. Lea, the veteran reformer, and ex-Postmaster Hicks, of Phindelphia, have vigorously arraigned the Quay mackine and repudiated the attempt to deceive the people through the nomi-nation of a candidate for governor who seeks to cover with the cloak of personal respectability the multiplied sins of the most odious political com-bination the country has ever known. The battle is against the same bosses lican party on national issues, to open-The battle is against the same bosses The bittle is against the same bosses and their ready tools that have so deeply wronged and disgraced the state. The lines are clearly drawn and the friends of honest politics and good government are everywhere rally-ing earnestly for a great victory at the polis in November next.

They know how worthless are the promises of men without conscience or principle. Therefore they see clearly and speak out boldly in the present contest. The action of representative railroad workers, speaking for an organization numbering scores of thou sands of honest and courageous public sands of honest and courageous public servants, as they really are, is signifi-cant of the state of public feeling in Pennsylvania at this time. It shows how deep and widespread is the dis-gust of the people and the determination to turn the rascals out and re-store honest government. The short and sure road to this end is the election of an executive and associates and a legislature worthy of public

An earnest contest in every fairly divided legislative district will result in a largely increased anti-machine repre-sentation in both house and senate. Keep this important matter before the voters. A Disgrace to the City. A Disgrace to the City. The Press, a Pennypacker support-ter, is impelled to make this comment: "The scene at Musical Fund Hull yes-ter day was a disgrace to the city." It is always cash to pack a convention of union Party, and do it with some color of right.
