

WILL SEND \$4.00 FREE.

Franklin Miles, M. D., LL. B., the Celebrated Chicago Specialist, Will Send \$4.00 Worth of His New Special Treatment Free to Each of Our Readers.

When an experienced physician offers to give away \$40,000 worth of a New Treatment for disease of the heart, nerves, stomach or dropsy, it is conclusive evidence that he has great faith in it. And when hundreds of prominent people freely testify to his unusual skill and the superiority of his New Special Treatment, his liberality is certainly worthy of serious consideration.

That Dr. Miles is one of the world's most successful physicians is proven by hundreds of testimonials from well-known people. One patient cured after failure of eleven Grand Rapids physicians, two after being given up by six and seven Chicago physicians, another after nine leading doctors in New York City, Philadelphia and Chicago failed. 1000 testimonials sent upon request.

The eminent Rev. W. Hall, D. D., of Dayton O., Gen. Secy of Foreign Missions, writes editorially in *The State Sunday School Union*: "We desire to state that from personal acquaintance we know Dr. Miles to be a most skillful specialist, a man who has spared neither labor nor money to keep himself abreast of the great advancement in medical science."

Col. Tucker, late General Manager N. Y. L. E. & W. R. R. says: "Dr. Miles' success as a physician has been phenomenal. 'My heart,' writes Dr. M. Davis, of Warren, Pa., 'was so bad I was fearful of going to sleep last night. It would be my last. Dr. Miles cured my life. I was completely cured in six weeks.' Mrs. Ahigall Chambers, of Chambersburg, Pa., states: 'My trouble was in the brain and spinal cord. When I commenced Dr. Miles' treatment I could hardly walk across the room, now I am able to do all my own work.' Mrs. W. A. Warren, of Jamestown, N. Y., reports: 'For years I had severe trouble with my stomach, neuritis, sinking spells and dropsy. Dr. Miles cured me.'"

This new system of Special Treatment is thoroughly scientific and immensely superior to the ordinary methods.

As all afflicted readers may have \$4.00 worth of treatment free, we would advise them to send for it at once. Address, Dr. Franklin Miles, 203 to 211 State Street, Chicago, Ill.

CONVENTION ON MONDAY

United Mine Workers Will Approve Proposition.

Delegates From All Local Unions in the Three Anthracite Districts Notified to Meet at Wilkesbarre.

"To the officers and members of all local unions in Districts 1, 7 and 9, United Mine Workers of America: Gentlemen—

"At a meeting of the executive boards of Districts 1, 7 and 9 it was unanimously agreed to issue a call for a delegate convention, and recommend to that convention that all mine workers now on strike return to their former positions and working places and submit to the commission appointed by the president of the United States all questions at issue between the operators and the mine workers of the anthracite coal fields.

"In pursuance thereof you are hereby notified that a convention will be held in the city of Wilkesbarre beginning at 10 a. m., Monday, October 20. The purpose of the convention will be to act upon the proposition submitted by the president of the United States. Local unions will hold meetings not later than Friday night to elect delegates to attend such convention.

"The basis of representation will be one vote to each 100 members or less, and an additional vote for each additional 100 members or a majority fraction thereof. The president and secretary of each local will fill out one credential and one duplicate for each delegate elected. The duplicate credential shall be given to the delegate elected and the original shall be placed in the hands of the district board members, not later than Saturday night. The district board members are requested to have all credentials in the hands of the credential committee Sunday afternoon.

"It is recommended that delegates be given full power and authority to act in behalf of the local union.

"The name of the hall in which convention will be held will be announced later. Hotel accommodations are being arranged and will be announced to delegates on arrival.

"Respectfully submitted on behalf of the executive board."
John Mitchell, National President.
W. B. Wilson, National Secretary.

WILL APPROVE PROPOSITION.

The convention, it is expected, will act favorably upon the recommendations of the joint executive boards of Districts 1, 7 and 9, as the mine workers have full confidence in the commissioner named yesterday by President Roosevelt. The commissioners are as follows:

- Brigadier General John M. Wilson, U. S. A., retired (late chief of engineers), Washington, D. C.
- E. W. Parker, Washington, D. C., chief statistician of the coal division of the United States Geological Survey and the editor of the Engineering and Mining Journal of New York.
- Hon. George Gray, Wilmington, Del., a judge of a United States court.
- E. E. Clarke, Cedar Rapids, Iowa, grand chief of the Order of Railway Conductors.
- Thomas H. Watkins, Scranton, Pa.
- Bishop John L. Spaulding, Peoria, Ill.
- Hon. Carroll D. Wright, United States commissioner of labor, will serve as recorder of the commission.

While to all appearances the president has selected a commission in accordance with the definitions of the operators, with the addition of Bishop Spaulding to the number of men they asked for, he has really selected a board of arbitrators to whom no one could advance the slightest reasonable objections. The

operators have a representative in the person of Mr. Watkins, and the United Mine Workers a representative of organized labor in E. E. Clarke. The other members of the commission are men of the highest character, with no affiliations with either side to the controversy.

CONVENTION CALL UNANIMOUS.

At the meeting of the district executive boards yesterday it is said that there was some criticism of the plan of settlement by a few of the members who desired to insist that the union stand out for recognition.

Mitchell's reply was in effect that he recommended the call of a convention of miners to consider the proposition as speedily as possible on these grounds:

1. That the consent of the operators to arbitrate was a victory.
2. That the union would, and, as a matter of fact had already been, recognized by the president of the United States in sending for its officials and submitting to them the plan of the operators.
3. That the operators owed it to humanity to make some concessions toward settling the strike as soon as possible.
4. That the rights of the mine workers, union and non-union alike, would be respected, in accordance with the wishes of President Roosevelt.

Mitchell said that he had done everything in his power to gain all the concessions demanded by the mine workers, and asked if there was any dissatisfaction, intimating if there was, his willingness to step aside and permit any other man to take up the work.

This declaration, diplomatically veiled, was rejected at once, and although there was considerable discussion over various points in the arbitration scheme, when the project of calling the convention was put to a vote it was carried unanimously.

The convention will last at least two days and work will not be resumed before Thursday.

FREELAND PEOPLE HAPPY.

When the news reached town yesterday morning that the representatives of the operators had agreed to the changes in their proposition suggested by Mr. Mitchell, and that the president had named his commissioners, there was general rejoicing among all classes. When the mine workers learned the commissioners' names they were exceedingly well pleased and scarcely one could be found who did not feel that they have won a substantial victory. They viewed it in the light that the Shamokin convention, at which the demands were formulated, asked for arbitration if the operators did not feel disposed to grant increased wages, shorter hours, etc., and this has now been secured after hearing for five months that "there is nothing to arbitrate."

Among business and professional people, and workers in other lines, the prospects of an early resumption of work, with probabilities of better conditions for the mine workers as a result of the commission's report, was joyful news, and a widespread feeling that bright days are coming again was manifested by the conversation and actions of all who have been affected by the strike.

Inflamed the Jurors' Minds.

In court on Wednesday, Judge Ferris ordered the withdrawal of the jurors from two important cases. One case was a suit for \$20,000 damages, for injuries sustained by Mrs. Clarke, while riding on a train of the Lehigh Valley Company which was wrecked at Pond Creek in July, 1896. The other was that of Henry Ziegler vs. the Wilkesbarre and Eastern Railroad, in which the plaintiff claims that the railroad company has appropriated valuable coal lands belonging to him.

Counsel for the railroad companies raised the points in both cases that the lawyers for the plaintiffs had used improper language in addressing the jury, and that their remarks had a tendency to inflame and prejudice the minds of the jurors.

Judge Ferris took this view, and the jurors were withdrawn, and the cases continued. Several Freeland people were present in court to testify in the Clarke case.

ROUND THE REGION.

Fire broke out in the Lehigh Valley Coal Company's big barn on Exeter farm yesterday, and it was completely destroyed. The loss is \$15,000. The fire was caused by ashes falling from the pipes of watchmen who were guarding the barn since the strike, and who were sitting in the hay loft. Eighty mules were kept in the stable yard, and frightened by the blaze rushed into the burning structure. There was a wild stampede and eleven were killed.

A verdict in favor of Joseph B. Kirk, of New York, was given for \$787.30 in his suit for \$10,000 against the borough of East Stroudsburg for injuries sustained in a fall. The verdict of \$787.30 is made up as follows: For Mr. Kirk's incapacity from business, \$548; suffering, \$100; medical fees, crutches and car fare, \$79.30, and housekeeper, \$60.

At Mahanoy City this week the Schuylkill county teachers' institute is being held. Richard Pearson Hobson, U. S. N., of the spectacular Merrimac exploit during the Spanish-American war, last evening told of the United States as a naval power to a large and appreciative audience. The brave mariner held an impromptu reception after the lecture.

Matteo Gerod, George Sembello, Vido Germano and Joseph Rosnella were yesterday discharged from custody by Judge Wheaton on their own recognizances. The defendants are from Hazleton and were charged with conspiracy, perjury and libel.

The trial of Harry McElmoyle, William Ronemus and Ezekiel Johns, who are charged with complicity in the killing of Patrick Sharp, a mine worker, at Nesquehoning during the summer, began in Carbon county court today.

It is reported that Dr. D. E. Davis, of Carbon county, the Republican nominee for congress, will withdraw from the ticket this week and that Fred Nesbit, a member of select council, of Easton will be nominated.

Mrs. John Auge, of Lehighnton, died yesterday of gangrene, due to blood poisoning, caused by the bite of a poll parrot on a sore finger eight weeks ago. The finger was amputated; later the whole arm.

The body of Thomas Sowden, of West Pittston, who disappeared mysteriously from his home a week ago, was found in a pond in Wayne county. He had committed suicide.

The contract for the erection of buildings for the Jeanesville Iron Works on its new site near Hazleton has been awarded. The cost of the buildings, it is said, will exceed \$150,000.

COMMUNICATED.

Editor Tribune.—In a communication published in the Tribune on September 17, 1902, on the subject of the protest of the National Slavonic Society against admitting free of duty the national flag of Austro-Hungary, I gave expression to sentiments which some of my Magyar friends construed as casting reflections upon them and the race.

I desire to state that nothing in my communication on the subject named was intended to insult or belittle the Magyar race, and I ask that the people of that nationality and my friends will accept this explanation of the misunderstanding which has arisen.

Respectfully yours,
George Hudack.

Army Deserter Arrested.

John Rhoda, an Upper Lehigh young man, was arrested yesterday at his home in that town by Officer John Molik, charged with desertion from the United States army. Rhoda was brought to Freeland and placed in the borough lockup, and later was taken by Officer Molik to Fort Dupont, Del. It is alleged that Rhoda enlisted in the artillery branch of the service at Pottsville last May, and that in July, two months later, he deserted his company, which is stationed at Fort Dupont.

Officer Molik had been waiting for the past two weeks for an opportunity to capture the young man, but did not get it until yesterday. He will receive the usual reward of \$30 and expenses from the government for making the arrest and return of the deserter.
