Pastor Tried to End Life.

While suffering from ill-health Rev. John C. Grimes, a Methodist clergyman living at Nescopeck, Luzerne county, attempted to commit suicide at Altoona by shooting yesterday. He was taken to a hospital, and, unless complications arise, will recover. Rev. Grimes is 37 years old and is married. He went to Altoona to attend the Methodist conference, and engaged a room. Then the minister wandered about until he reached the railroad, at Juniata, when he drew a pistol and shot himself in the head.

Mr. Grimes has not been well for some time past, and only went to conference under pressure. He was much disturbed about his condition and feared that it would prevent him from obtaining a charge this year.

TRADE AND INDUSTRY.

TRADE AND INDUSTRY.

The wire mills of the country are manufacturing 45,000 kegs of nails a day.

There is talk about the building of a huge rolling mill at Brunswick, Ga., to cost \$4,000,000. The matter is in the hands of some of the leading steel manufacturers of the country.

A wireless telegraph company has put up a station in Broad street, New York, and is preparing to install a number of stations along the great lakes which it is proposed to extend to interior cities later on.

Commercial experts assert that when the canal is cut across the isthmus New Orleans will become the largest exporting center in the United States and that Memphis will develop into a city of vast proportions.

Contracts have been placed for 720,000 tons of steel plate to be made into freight cars this year. The freight car building industry and locomotive building are two of the busiest and most prosperous industries on the continent.

TO SNUFF VOLCANOES.

Startling Discovery Made by An Australian.

Australian.

Volcanoes can easily be extinguished, says the New York Herald. A New Zealand man claims (and there are many who agree with him) to have discovered a liquid by means of whick volcanoes may be extinguished quickly whether active or threatening.

Many diseases of the human body act in the same manner as volcanoes. Dyspepsia, Rheumatism, Kidney Disorders, Female Diseases and many others all begin with a slight rumble of pain and distress, and if not treated in time will burst forth in all their furry, causing all who are so afflicted the most intense suffering and making life a complete burden.

That a liquid has been discovered

That a liquid has been discovered that will extinguish these volcanic eruptions of disease, whether active or threatening, is not only certain but a material fact.
