## FACTS IN FEW LINES

Local government in the British metropolis costs about £4 4s. per inhabitant annually.  
The question of alien immigration is now far more serious in London than it ever was in California.  
Belfast paid nearly £100,000 less duty on whisky and £106,094 more duty on tobacco last year than in 1901.  
For riding a bicycle after being warned a canon named Stampa has been suspended by the bishop of Assisi, Italy.  
That the gas engine, large or small, is developed to an efficiency at which it can rival the steam engine in reliability is now admitted.  
A pressure recorder attached to the rowlock of the racing shell will hereafter be used to determine the work done by each oarsman.  
Sir Ernest Cassel, who gave \$1,000,000 for tuberculosis research, has offered to give \$200,000 toward the study and investigation of ophthalmia in Egypt.  
The electrical development of the city of Bangkok during the last ten years has been wonderful. The Siam Electric Company, limited, has a capital of \$800,000.  
Having in error been entered in the baptismal register as a male, a young girl named Gabrielle Hervier at Brest was in the drawing of lots recently drawn as a conscript.  
The Albuts are rapidly dying off since civilization has led to changes in their habits and clothing. The views of our civilization destroy every aboriginal people exposed to them.  
Every piece of ground in South Africa containing the graves of soldiers who fell in the war has been taken over and is to be maintained by the British war department.  
The current market price of liquid air in Berlin, where a company has been formed for its production and sale, is 95 cents per liter, or nearly one and three-quarter pints.  
From facts gathered in the last six months the remarkable condition is revealed of the existence of more child labor in New York city than in all the states of the south combined.  
During a lull in his duties as a collecting agent the kaiser has turned his attention to domestic science and expelled from the royal palace all the pet animals and birds. His royal highness surmised that they might entertain microbes.  
Gera, in Saxony, has been the scene of a singular "strike." The doctors refused to treat patients belonging to sick clubs because the societies sought to reduce their fees. New physicians from Berlin have now left the strikers without patients.  
Dr. Brung Hassenstein, one of the leading map drawers of the world, died recently at Gotha. He worked for the Perthes publications for many years. He is best known for the great ten sheet map of Africa and for his edition in collaboration with Menke of the Spruner historical atlas.  
The exodus of Scandinavian emigrants to the United States continues to be the greatest in twenty years. The hard times at home and the more stringent laws for the conscription of soldiers, together with the reported prosperity in America, are responsible for the universal movement.  
Stephen Jeans, an English authority, computes the cost of manufacturing hematite iron at the greatest steel centers of the world as follows: West Cumberland, England, \$15.65 a ton; Westphalia, Germany, \$13.50 a ton; Pittsburgh, \$9.57 a ton. At Sydney, N. S., the cost is \$7.45 a ton.  
In many country villages and isolated sections of the New England and the middle states women still may be found who earn a living by spinning and knitting wool and by weaving and knitting rag carpets and rugs. There is quite a revival in demand now for nicely made rugs in some localities.  
The managers of the Paris Metropolitan Underground railway have been persuaded by lovers of dogs to consider the question of providing special cars on their trains in which dogs and their owners can travel together instead of the dogs being separated from their masters or mistresses, as at present is necessary.

## THE SPORTING WORLD

**Princeton Baseball.**  
Princeton's baseball candidates have been called out for daily practice. Arthur ("Doc") Hillebrand, 1900, will coach the nine, and the undergraduates are full of confidence in the ability of the former Tiger baseball and football captain to turn out a strong baseball team.  
The prospects, though, are not as bright as last year. Four of the best players on last year's nine have graduated, and their absence will be sorely felt. Captain Steinwender, Meier,

Arthur ("Doc") Hillebrand, famous Tiger athlete.  
Brown and Green are the missing men. Meier and Steinwender were the best batters on the team.  
With five old players as a nucleus, however, and nearly all of last year's substitutes back, the hope of turning out a championship team is far from forlorn.

**Want Harvard-Yale Boat Race.**  
The Springfield (Mass.) board of trade is making strong efforts to have the annual Harvard-Yale boat race rowed at that city on the Connecticut river, and the two universities will be approached by committees from the board, the members of which have offered to contribute liberally for expenses.  
John A. Kennedy, the professional coach of the Yale crew, has been to Springfield to look over the course and have a talk with the members of the board of trade and says that the course impresses him favorably. A good four miles stretch could be laid out, and an advantage would be that it could be rowed over at the same hour every day, which is impossible at New London, as at the latter place a stiff breeze frequently prevents rowing at regular hours.  
Mr. Kennedy is in favor of the change, but says it must be considered from all points of view before any step is taken by the two universities.

**Our Nimble Racing Sailors.**  
There has been a great race for sailors to man the new America's cup defender, the Columbia and the Constitution. Skippers Barr, Rhodes and Miller have been jumping over each other in their efforts to ship good men.  
Barr has engaged many members of his old and trusty crew. Concerning

these a British expert who watched them at work on the Columbia remarked:  
"By Jove, ain't they smart! All they want is the tail of the monkey to make them the nimblest propositions that ever climbed aloft. No doubt the Yankees will soon develop the tail!"

**Quakers' New Star Athlete.**  
The University of Pennsylvania has a new star athlete in Joseph Zilligan. He stands 6 feet 1 inch high and weighs 220 pounds stripped, every pound of which is bone and muscle. In addition he is very quick and active and has had some football experience on the Utah university team, where he was the star tackle. Zilligan is taking a course in the veterinary school and expects to finish the first year's work by June, so that he will probably be eligible for next year's football team. His home is in Salt Lake City.

**Michael Cycling Plans.**  
Jimmy Michael has reached Paris, where he at once started work for the cycle racing season. Michael will ride free lance in Europe. It is probable that he will not return to America for the season. He has a number of engagements carrying him well into the summer.

**Woodruff to Coach Illinois.**  
George Woodruff, the former Pennsylvania football coach, has been engaged to coach the University of Illinois team next fall. This appointment means the abandonment of the Princeton tactics, which former Coach Smith employed.

**Zurbrück to Follow Pace.**  
Warren Zurbrück, the Buffalo rider, will enter the field of paced cycle racing this season. Zurbrück has been fighting with success all winter and doing nicely in that field. He followed pace considerably as an amateur.

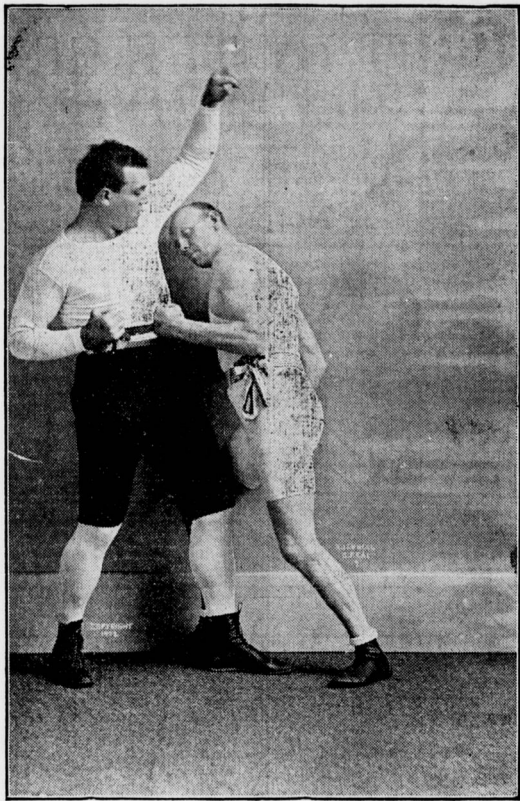

**New Charles River Track.**  
Over \$5,000 will be expended at Charles River park, near Boston, this spring in the erection of new stands and a new five lap track. This track will be almost oval and will be steeply banked.

**Applied Religion.**  
Robbie belonged to a severely orthodox family. He was taught to fear nothing and trust God. He often heard his grandfather remark that he "trembled for sinners," and this expression served Robbie in an hour of need.  
One night there was a terrific thunderstorm. Robbie stood it up as long as possible, then fled to his mother's room. "Robbie, are you afraid?" asked she. "No, ma'am."  
"You know God can take care of you as well in the storm as at other times?" "Oh, yes!"  
"Then what are you shaking for?" "Mother, I was thinking of sinners, and I thought that I would come down and tremble with you for them."—Brooklyn Life.

**Due Notice is Served.**  
Due notice is hereby served on the public generally that DeWitt's Witch Hazel Salve is the only salve on the market that is made from the pure, unadulterated witch hazel. DeWitt's Witch Hazel Salve has cured thousands of cases of piles that would not yield to any other treatment, and this fact has brought out many worthless counterfeits. Those persons who get the genuine DeWitt's Witch Hazel Salve are never disappointed, because it cures. Grover's City drug store.

**Dr. David Kennedy's Favorite Remedy**  
CURES ALL KIDNEY, STOMACH AND LIVER TROUBLES.

Beautiful wall paper, 7c per double roll up, at Wm. Birkbeck's. Stock is large.

## ROUND THE REGION.

Lehigh county court has appointed ex-Assemblyman Hugh E. Criley as receiver of the Mauch Chunk, Lehigh and Slatington Street Railway Company. The company has an electric line in operation between Mauch Chunk and Lehigh.

After being rescued by Robert Herron, a volunteer fireman, from a burning house, where she had been left unconscious among the flames, Emily Enterline died at Tamaqua last evening from burns which she received.

West Hazleton borough council is again to the fore with a deadlock. They balloted fruitlessly Wednesday night for the election of a chief of police and finally adjourned without making a choice.

The moulders of the upper Luzerne and Lackawanna counties received an increase to a minimum of \$2.75 for a ten-hour day and 15 cents a day increase to all who now get over \$2.75.

A Lehigh Traction car standing at Ebervale was run into by another car Wednesday evening and severely damaged. Both cars were filled with mine workers returning from Jeddo, but only a few persons received injuries.

Going into a coal pocket at the Carson washery, Honey Brook, shortly before quitting time, Daniel Sweeney, 13 years old, was smothered to death. Gustave Constancey, a companion, narrowly escaped the same fate.

**A Sweet Breath**  
is a never failing sign of a healthy stomach. When the breath is bad the stomach is out of order. There is no remedy in the world equal to Kodol Dyspepsia Cure for curing indigestion, dyspepsia and all stomach disorders. Mrs. Mary S. Crick, of White Plains, Ky., writes: "I have been a dyspeptic for years—tried all kind of remedies but continued to grow worse. By the use of Kodol I began to improve at once, and after taking a few bottles am fully restored in weight, health and strength and can eat whatever I like." Kodol digests what you eat and makes the stomach sweet. Grover's City drug store.

**Pauperism and Kingly Pomp.**  
One of the features of London life last winter was offered by the processions of unemployed which continually parade the streets. They did no violence and were not molested by the police as they came out of the east end and wound along through the streets of Westminster. King Edward, going to or from parliament, probably did not meet one of these great processions, but if he had how much the pomp of the king would have lacked of the impressiveness of the mute misery of the subjects!—Louisville Courier-Journal.

**Insulting to the Sultan.**  
An application for leave to open a public library in Constantinople was recently made to the minister of public instruction. He refused permission on the ground that the books, of which a list of some 10,000 had been furnished him, were immoral and "dangerous for the sultan." La Fontaine's "Fables" especially were objected to from their frequent references to the lion as the king of beasts, which, it was urged, "would be regarded as degrading to the kingdom and insulting to the sultan."

**Good for Children.**  
The pleasant to take and harmless One Minute Cough Cure gives immediate relief in all cases of Cough, Croup and La Grippe because it does not pass immediately into the stomach, but takes effect right at the seat of the trouble. It draws out the inflammation, heals and soothes and cures permanently by enabling the lungs to contribute pure life-giving and life-sustaining oxygen to the blood and tissues. Grover's City drug store.

**Do You Enjoy What You Eat?**  
You can eat whatever and whenever you like if you take Kodol. By the use of this remedy disordered digestion and diseased stomachs are so completely restored to health, and the full performance of their functions naturally, that such foods as would be one into a double-bow-knot are eaten without even a "rumbling" and with a positive pleasure and enjoyment. And what is more—these foods are assimilated and transformed into the kind of nutriment that is appropriated by the blood and tissues.

**Kodol Digests What You Eat**
