BOARD OF TRADE.

nent for Reorganization of the Body Is Steadily Growing.

The movement recently started to re-organize the Freeland Board of Trade is steadily gaining in strength and the prospects of the town again having a body which will look after its material welfare and advancement are very en-couraging. During the week the pro-moters have received assurances from a number of the business and monied men of town that they will assist in reorgan-izing the board and become active mem-bers. Response to a General Demand for a Full Term the Board Adds Two More

Instead of closing tomorrow afternoon, which will complete the seventh school month in Freeland borough, the term will not end until on or about June 18.

This was decided upon last evening at a meeting of the board, which was attended by Directors Slattery, Brogan. Brennan, Boyle, Buckley, Kline, McGeehan and Timony.

The president announced that the special session was called totake definite action upon the length of the term.

A communication from the teachers of the borough schools, containing the signature of every teacher regularly employed by the board, was read by the secretary. It asked that the board grant an extension of the term. The communication was accepted and ordered filed.

signature of every teacher regularly employed by the board, was read by the secretary. It asked that the board grant an extension of the term. The communication was accepted and ordered filed.

A motion was then made by Directors Brennan and Boyle to extend the term two more months. It received the votes of all the directors present, Mr. Kline, however, qualifying his assent with the provisions that the officers use the proper funds in paying the teachers' salaries and if the funds are not sufficient that the teachers wait for their money, without interest, until the next state appropriation is received.

After some discussion on the effect of certain laws affecting school districts, passed by the late legislature, the board adjourned.

Judging from the comments heard to day on the work of board last evening, the action of the directors meets with the approval of every person interested directly or indirectly in the schools. The pupils of today will receive the benefit of the full course of studies, and two months will mean considerable to those who will end their school days with the present term.

The length of the term was fixed last August at seven months, or longer if the funds should permit. When this action was taken the probability of the coal strike affecting the collection of taxes was considered, hence the minimum number of months was set.

The strike having ended favorably to the majority of the taxpayers, the collector was thereby enabled to secure a least of Ridge street, is also absent from her less in local courts lately, is numbered among the missing, and Mary Spuk.

was considered, hence the minimum number of months was set.

The strike having ended favorably to the majority of the taxpayers, the collector was thereby enabled to secure a larger amount of revenue than had been anticipated and the board was placed in a position whereby the term could be increased without adding anything to the floating indebtedness of the district.

Have They Eloped?

Andrew Stefan, who has figured more or less in local courts lately, is numbered among the missing, and Mary Spuk, of Ridge street, is also absent from her home. It is rumored that the two have eloped and will give the town a wide berth for the future.

Stefan is known as "The Gypsy" and is proprietor of a saloon at the northwest corner of Carbon and Washington streets, where he resided until yesterday morning with his wife and three children. Last week he was placed under arrest on charges of ill-treatment preferred by his better half, and on promises made to mend his ways the suit was settled and the case dropped.

promises made to mend his ways the suit was settled and the case dropped.

The woman is said to be also married and has a husband and five children living at or near Bethlehem. She has been a resident of town for some months past, and she and Stefan were very fast friends. She disappeared on Monday and Stefan's departure so soon afterward is said by the knowing ones to indicate a real elopement.

Socialists Swept City.

Zeistioft, Johnson, O'Neil and Dudley, A motion fixing the term at eight months was carried. The board has something over \$2,500 in the treasury, but the influence of the Taxpayers' Association was directed against a nine months' term, on the ground that part of this money belongs to the building fund, and the wishes of the association in the matter were conserved in the At a recent election held in Anaconda, Montana, the Socialists swept the city, electing all their candidates for office, from mayor down. Local friends are now receiving newspapers from former residents of this section who are located there, in which the results of the election are given in detail.

The mayor-elect is Con C. McHugh, who went west from Lansford a few years ago. That town is well represented in Anaconda, and several others of its former residents were chosen to fill offices.

fill offices.

Among those from hereabouts who are located in the western city are James G. Rogan and Henry Gillespie, Freeland, and John E Shearon, Eckley. The city of Butte, same state, in which the Socialists also made practically a clean sweep, contains a number of Freeland men, including Bernard Ferry, James McKinley and Cormac Gallagher.

"Strength and vigor come of good food, duly digested. Force, a ready-to-serve wheat and barley food, adds no burden, but sustains, nourishes, invigorates."

THEATRICAL.

"Foxy Grandpa" to Be Played Here Nex Monday Evening.

"Foxy Grandpa" to Be Played Here Next Monday Evening.

Wm. A. Brady's big musical farcical production, "Foxy Grandpa," will appear at the Grand opera house Monday evening next. The same magnificient production will be given as during the fitteen weeks run at the Fourteenth street theatre, New York city, and the sparkling comedy will be interpreted by a splendid cast of farceurs. The author found his inspiration for the piece in the scries of cartoons which have appeared from time to time in the Sunday newspapers, depicting "Foxy Grandpa" and his two mischlevous grandsons in various comicalities. While taking those cartoons as the foundation principle for his play, Mr. Baker has not restricted himself to them alone, but I town and the board and construction of the board complished for the town by a Board of Trade, or some organization having for its object the bringing of more industries to Freeland. Propositions from sound, reliable and long-established conserns to locate among us are received almost weekly, but in the absence of any authorized person to receive and act annon them these opportunities to further monthem the month of the month of the further monthem the month of the month of the further months of t

Conciliation Committee.

Conciliation Committee.

President Mitchell and the executive boards of the three anthracite districts yesterday took the first step in settling existing differences between miners and companies growing out of the interpretation of the coal commission's award, by ordering the men in the Schujkill region to return to work and appointing a conciliation committee, representing the miners, to bring about an understanding and peace.

They have selected the presidents of Districts 1, 7 and 9 to act as the representatives on the board of conciliation and have decided to notify the presidents of the various coal carrying roads that they are prepared to meet the representatives of the companies at the earliest possible date for the purpose of considering and adjusting all questions accruing out of the interpretation of the application of the award.
