The orthodox fashion in making up the beds so as to gently slope toward the feet, and having a good sized pillow or two under the head is all wrong. A prominent German doctor is responsi-ble for this statement. He asserts that after a long series of experiments he has proved conclusively that to sleep in a bed prepared in the old fashioned way is simply to induce allments of all kinds. He advocates a complete re-versal of things. You must sleep with your head lower than your feet. Two or three pillows should be placed under the feet in order to carry out this the-ery. The result, he claims, will be mazing, being a sure cure for insom-man as well as a preventive of night-mer. Sleep in this position, it is as-serted, will be more profound, the en-tion benefits.

She does the buying and hires the servants for four of the lar-gest homes in Rittenhouse square. At the first of every month a certain sum from each of the houses is deposited in a bank to her credit. From this she buys all the household supplies, saving money by buying in large quantities. At the end of the month she returns the balance minus her salary and with an itemized account. Once every week she receives the housekeepers of the respective establishments in her office, and she also has a day for visiting each home, inspecting the larder and hearing suggestions from the house-keeper. THE HALL OF FAME.

THE HALL OF FAME. Edward Beaupre, a Canadian, at present a resident of Chicago, is so strong that he lately lifted a horse bodily off its legs. Major Walter D. McCaw will repre-ient the army at the international con-gress of hygiene and demonology in Brussels in September. Miss Bessie Johnson of Cleveland, O., has been appointed probation officer of the children's court of her city. Professor W. S. Jackson of the Uni-versity of Chicago has been elected president of the National Society For the Scientific Study of Education. Harrison Simrall, secretary of the board of education of Lexington, Ky., is in possession of a beautiful box of the razors that formerly belonged to Henry Clay. The former home of General Philip H. Sheridan in Washington, which was presented to him by admirers through-out the country, has been sold by his widow, the price being \$55,000. The elevation of Sir George White to the rank of field marshal puts Ireland in the position of runishing three field marshals out of nine to the British ar-my, or four if the Duke of Connaught is Included. Emile Waldteufel, the waltz writer, though an old man of eighty, still com-

Eaton, a noted handcrafts-man in wood, leather and metal, has, near Santa Barbara, Cal., a tropical garden surrounded by a hundred live oaks and containing 3,000 rare palms and other plants. English ity hangs in heavy strands from the oaks. Mrs. Julia Ward Howe has just be-come a great-grandmother through the birth of a child to Mrs. Henry Marion Hall of East Orange, N. J. Mr. Hall is a son of Mrs. Florence Howe Hall of Plainfield. This is Mrs. Howe's first great-grandchild. It was Pasteur, a French chemist, not a physician, who first revealed that dis-ense was essentially a fermentation, like that of yeast, due to the presence of minute fungt, now known as bacte-ria. His dramatic cures of drended hydrophobia gave his discovery world-wide notoricty.

MODES OF THE MOMENT.

nore parasols are in good form this year. The newest skirts are round and the tailor made gown has no train. Orchid mauve, sea green and tea rose pink are combined on spring hats just received from Paris. The favorite hat is the flat, round shape raised from the head by a wreath of roses and trimmed outside with flowers and loops of ribbon. The silk glove is being brought out for the summer in a sort of edition de luxe with decoration of exquisite em-broidery and insets of finest lace. burgh Infirmary. Mufiling In Spain. Never in my life have I seen such wrapping and mufiling as I have seen in Spain. The men here wear very heavy cloaks—heavier than any outer garment we have in America except fur coats. These cloaks are usually lined with colored pubsi, the insides of the front flaps are often lined with red or green or yellow plush, and of-ten with two colors. Sometimes the men have pointed hoods to their cloaks, but even when the cloaks are not hood-ed the wearers wrap the capes around their throats and mouths and even around their heads. I have often seen a Spaniard going along wrapped in a cloak and with a muffler bound around his head, so that only one ear, one eye and one nostril were exposed.—J. A. Hart in Argonaut.

"Whuppity Scoorie." The ancient custom at Lanark, Scot-land, of "Whuppity Scoorie," the origin and meaning of which are lost, is cele-brated annually and watched by a crowd of grown ups. The town bell is rung nightly at 6 o'clock from March to September and then lies dumb for six months. On the first night of the ringing all the young folk congregate at the cross, and after parading three times round the parish church the La-nark lads meet the New Lanark boys in a free fight, in which the only legit-imate weapons are their caps tied at the end of pieces of string.

the end of pieces of sterns. Too Mach Lungs. One of the greatest puglilsts that America ever produced, John Dwyer of Brooklyn, quit his regular occupa-tion to enter the counting room. He died within a year from tuberculosis. The explanation in this case was sim-ple enough. The immense lungs which were necessarily an advantage in the prize ring fell into disuse in the count-ing room. Disuse meant degeneration, and degeneration meant a lack of re-sistance, of which tubercle bacillus was not slow to take advantage.

A sure Remedy. "I am fixing up a surprise for John, but I am afraid that if he stays around the house he will discover me." "That's all right. You just the a towel around your head and ask him if he can't stay at home today and help you take up the carpets."—Baltimore News.

at the Public park. Ladies and Children Invited. All ladies and children who cannot stand the shocking strain of laxative syrups, cathartics, etc., are invited to try the famous Little Early Risers. They are different from all other pills. They do not purge the system. Even a double dose will not gripe, weaken or sicken; many people call them the Easy Pill. W. H. Howell, Houston Tex., says nothing better can be used for constipation, sick headache, etc. Bob Moore, Lafa-gette, Ind., says all others gripe and sicken, while DeWitt's Little Early Ris-ers do their work well and easy. Sold by Grover's City drug store.

An Offy Skin. An Offy Skin. A little alcohol diluted with rosewa-ter is recommended by a beauty expert for removing the olly appearance from the skin. "On the brow, chin and about the nose, where the oll glands are the largest and most active, sponge most thoroughly," she advises. Two or three times a day will not be too much for an olly, fat skin, but with a dry, fine skin once a day should be enough. Alcohol is drying, but stimulating. Rubbed into the flesh, it increases the surface circulation, something that is essential if the skin is to work actively and possess a healthy color.

A Good Thing to Have. A very ingenious polson label for medicine bottles is a small scarlet skull with a long pin attachment to stick deep into the cork. One of these or something similar should be firmly fastened to every bottle in the medi-cine chest or closet shelf whose con-tents are not for internal application. There will always be careless members of the household who walk into a dark room and grope for medicines, and a goodly proportion of these will come to grief sooner or later.

Woman's Perfect Age. It was Thackeray who decided that the age of the Venus of Milo was thi-ty-two. This we may take as expert authority, and so regard thirty-two as the era when a woman is at her per-fect moment of full bloom. Certainly it would seem that from this on to forty are the years when she is most apt to feel and to inspire great love,— Ainslee's.

What You Eat? You can eat whatever and whenever you like if you take Kodol. By the use of this remedy disordered digestion and diseased stomachs are so completely restored to health, and the full performance of their functions naturally, that such foods as would tie one into a double-bow-knot are eaten without even a "rumbling" and with a posi-tive pleasure and enjoyment. And what is more — these foods are assimilated and transformed into the kind of nutriment that is appropriated by the blood and tissues. Kodol is the only digestant or combination of digestants that will digest all classes of food. In addition to this fact, it contains, in assimilative form, the greatest known tonic and reconstructive properties. Kodol cures indigestion, dyspepsia and all disorders arising therefrom. Ainslee's.
