Survey of the Special Antlerless Deer Season

Harrisburg, Pa., January 9, 1929.

The Dallas Post, Gentlemen:
Following is the report presented to Governor John S. Fisher by the Board of Game Commissioners on the 1928 Special Season for antlerless deer:

"January 7, 1929
"Honorable John S. Fisher,
"Governor of Pennsylvania,
"Harrisburg, Pennsylvania.

"My Dear Governor Fisher:
"The Board of Game Commissioners wish to submit the following report on the 1928 deer season. This season was for antlerless deer only—our first such general season since 1907. Under the provisions of Section 511 of the Game Code, this season was declared a Special Season and those who hunted deer were required to pay an additional two dollar special license fee.
"During the season 25,097 legal and 1,593 illegal deer were taken. Of the illegal animals 354 were fawn does weighing under 50 pounds, dressed. A survey of the season has revealed to us the following facts:

"First, that there was no such immense slaughter of animals as was expected. We feel, of course, that not enough animals were removed to remedy conditions; but there are many hunters who thought they could approach a doe as easily as they could a cow, who went home without even having had a shot at a deer.
"Second, that hunting accidents during this season were few—only three men killed, and but twenty casualties among the deer hunters—a remarkably good record.
"Third, that young bucks are not producing good antlers probably as a result of over-abundance of animals and consequent lack of need for sturdy implements of warfare.
"Fourth, that the breeding period of deer is so upset as a result of unbalanced sexes that fawns are produced too late in the season for them to compete with their elders in securing food during the winter.
"Fifth, that the kill of illegal deer was not great, in fact proportionately less than in the regular buck season.

"Respectfully yours,
"ROSS L. LEFFLER,
"President Board of Game Commissioners."
