ALDERSON AND VICINITY

Your scribe has been somewhat under the weather since last Thursday when he returned with a bad case of pneumonia which has kept him flat on his back ever since. This is the reason for the total absence of items last week. These last two weeks have been very busy ones for the doctors and the numerous cases of sickness have kept them hurrying and scurrying from morning till night. Now is the time we can best realize what a great good the country doctor performs in the service of mankind. He cannot sit in his office a certain number of hours a day and make a few nearby calls through well-swept streets and then retire (his task well done) as does the city doctor. Instead he must climb into his little Ford or Chevrolet or what-have-you, and face the wintry blasts and the slippery roads in order to reach some suffering patient who is waiting for him miles out in the country. His is no easy life and we should realize this when we growl sometimes because of his tardiness for he always does get there eventually and we surely could not get along without him.

All of Daddy Odenkirchens friends are glad to hear that he is about to receive his sixty year jewel for membership in the Independent Order of Odd Fellows. He is a member of the Beaumont Lodge.

We are glad to hear that Mr. A. A. Stull has recovered from a bad attack of la grippe which kept him confined to his home for a few days.

By this time Mr. and Mrs. S. E. Eggston must be enjoying themselves in Florida. They will travel

about somewhat but expect to spend most of the time at Winter Garden. From our present recumbent position we envy them.

Bethia and Oatis Allen are suffering from an attack of la grippe. We wish them a speedy recovery.

Laketon seems to be having a slump in the basket ball world lately. The high school teams, both boys and girls have not been playing as good a brand of basket ball as was expected of them after the first games with the Wilkes-Barre Business College. The Sandy Beach Five has failed to keep up its startling run of victories also. Tunkhannock proved to be it's Waterloo and since then the team has scarcely been able to win a game. We wish them better luck in the future.

Mrs. Howard Bigelow is spending sometime with her sister, Mrs. M. B. Avery.

Miss Lillian York has returned from the Children's Home at Wilkes-Barre where she has been taking care of some of the children who were isolated because of chicken pox.

Bible by Rote

Scattered over the English isles is an organization of 40,000 members, the Bureau Band of Bible Learners, who have taken upon themselves the task of learning the Bible word for word and from beginning to end. The movement is growing constantly.

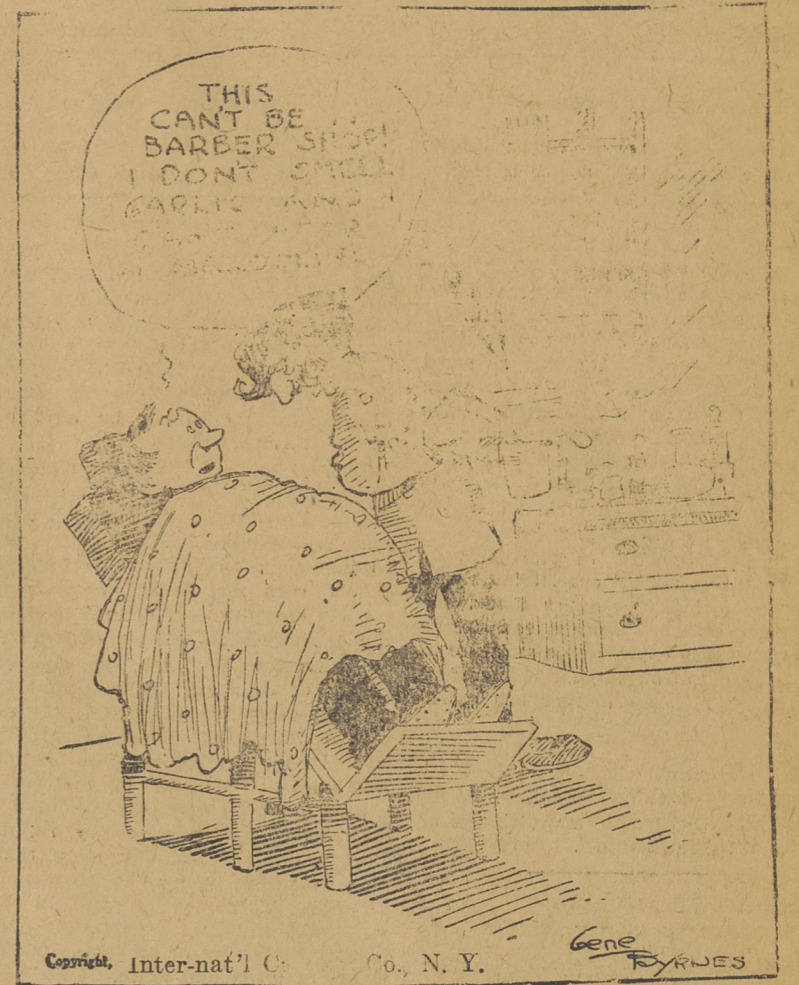

At Lonely Heights

Another advantage of air travel is that in the present state of aviation development they can't keep thumbing you for a ride after you once get well started.—Ohio State Journal.

YOU can shop more economically by patronizing advertisers who advertise in THE POST. A consistent advertiser is a consistent value-giver.
