

KUNKLE

Mr. and Mrs. Benart Soderman, of Wilkes-Barre and Harry Flyby, of Fernbrook, visited for a short time with Mr. and Mrs. Harry LeValley on Saturday. Little Miss Rose LeValley accompanied Mr. and Mrs. Soderman home for a two weeks visit and will go with them on a trip to Newark, N. J. to visit with other relatives there. Mrs. Soderman is the little girl's aunt.

Mr. Amos Kitchen, of Alderson, spent Wednesday with Mrs. Joseph Shoemaker.

Mr. and Mrs. Jack Shortz, of Harvey's Lake, were callers at the home of Mr. and Mrs. Albert Kunkle on Sunday.

Messrs. Minor Lozo and Albert Haring, of Shickshinny, were visitors at the home of Mr. and Mrs. Charles Herdman on Tuesday.

Many families of Kunkle and vicinity are victims of the influenza epidemic the past week. In some cases whole families being ill with it and it is seriously affecting school attendance.

Mr. and Mrs. Cragg Herdman and two little daughters, Jane and Rebecca, are ill with the flu.

The family of Fred Boston, nearly all of whom were suffering from the flu at the same time, are recovering.

Misses Marjorie Grummel and Lottie Watson, of Forty Fort, were callers at the home of Mr. and Mrs. Henry Shoemaker Saturday evening.

George Landon is confined to his home with the flu, as are also Thomas Landon and Miss Althea Landon.

Allen Brace is attending school again after being kept at home for a few days with a severe cold.

Misses Frances Sweezy and Emily Shoemaker were the guests of Mrs. William Brace on Sunday afternoon.

Mrs. W. H. Conden, Mrs. A. C. Devens, Mrs. C. W. Kunkle, Mrs. Russell Miers and daughter, Felice, attended the W. C. T. U. at Dallas on Tuesday.

Mrs. W. S. Kunkle, Mrs. Ralph Ashburner and son Bobbie, are on the mend after a severe attack of the flu. Dr. Swartz attended them.

Mrs. N. S. Sutliff, of Trucksville, visited at the home of Mr. and Mrs. Harry Sweezy on Wednesday.

Miss Blanche Mosier and Mrs. Melvin Mosier were Wilkes-Barre shoppers on Wednesday.

Mr. and Mrs. Kiler Richards have moved in with their son-in-law and daughter, Mr. and Mrs. Palmer Updyke, for the winter months.

The families of S. J. Hess and Leroy Hess are ill with la grippe.

A number of men from here went to the Mountain Springs on Tuesday to work on the ice for Stull Brothers.

Mrs. John Isaacs and Miss Dorothy Elston are suffering from the flu and are under the care of Dr. Swartz.

James Miers is recovering from an attack of the flu that kept him out of school this week.

Mrs. Joseph Shoemaker is able to be about again after a severe attack of the flu.

Mrs. Charles Wertman has been ill for several days with a severe cold.

The family of Wheeler Kunkle who have all been suffering from the flu are recovering.

Mrs. W. H. Conden, Mrs. Charles Herdman and Mrs. Kiler Richards attended their Birthday Club dinner at the home of Mrs. Sherman Warden, of Shavertown on Wednesday. Other guests of Mrs. Warden were Mrs. Fred Makinson, of Forty Fort; Mrs. D. P. Honeywell, of Dallas; Mrs. C. W. Fisher, of Trucksville; Mrs. S. J. Woolbert, of Shavertown.

Mr. and Mrs. Frank Smith spent Sunday with Mr. and Mrs. Harry Shaver, of Laketon.

Lamp in Long Voyage

Covered with a thick coating of salt, an Osram lamp has been picked up at a North Wales coast resort. It had been in the water so long that it was a solid brown mass. It bore the identity mark of a place one and one-half miles away. Despite the lamp's appearance it glowed almost as if new when attached to an electric circuit.

Electrification for Rural Farms Exhibit Feature

State Farm Products show will be held in Harrisburg from January 22 to January 25, 1929. In addition to the various agricultural exhibits, the Pennsylvania Joint Committee on Rural Electrification will have a special exhibit.

The railroads are offering round trip tickets at the rate of a single fare and a half fare. To get this special rate, it will be necessary to obtain a certificate to be presented at the time the tickets are to be purchased.

Some of these certificates can be obtained by calling at the office of Pennsylvania Power and Light Co., 36 North Main Street, Wilkes-Barre.

Dog Owners Delay Securing State Permits for Year

Although there are 30,000 dogs in Luzerne County and 23,000 licenses were taken out here last year, Thursday at the expiration of the time allowed for securing licenses for 1929, but 2,700 have been issued by the county treasurer, according to official information of James G. Fox, an agent of the State Department of Animal Industry.

Owners of dogs which are not now licensed are liable to arrest and subject to the imposing of a fine.

Lords of the Domain

Nowadays a man is entitled to life, liberty and the right to vote as his wife tells him to do.—Atlanta Constitution.

Colder Weather Brings Full Time At Coal Mines

The cold wave which has been hovering over this section of the State has been responsible for joy to coal and ice dealers. All Hudson Coal Co. operations, including Greenwood Colliery near Moosic, and Baltimore No. 5 in Wilkes-Barre, are now working. The two collieries had been idle for some time. Glen Alden Coal Co. reports all operations working. Pennsylvania Co., Scranton Coal Co. and virtually all other producers are making similar reports concerning operations.

Watch Out

Emergency hospital: The place where the pedestrian winds up when he is run down.—Detroit News.

Pumpkin Keeps Popularity

This generation has known the pumpkin more as a symbol of the harvest season than as the vegetable of all uses. Pumpkin is still popular, and not only because it is a substitute for what the Puritan blue laws styled "anti-Christian minced pies," but other than that their only use is for Halloween jack o' lanterns and dairy fodder. Every year the production exceeds the consumption.—Rutland Herald.

Utilizing Fireflies

Cuban negroes, going about at night, fasten a firefly to each big toe, to light their way along some dark path. They also make lanterns out of gourds hollowed out and perforated with many small holes inside of which are placed several of the big fireflies.

Passion's Impetuosity

A genuine passion is like a mountain stream; it admits of no impediment; it cannot go backward; it must go forward.—Bovee.

Sun Spots

The naval observatory says that after appearing on the sun's eastern limb spots remain visible for about two weeks. By solar rotation they are carried behind the western limb. If still existing they reappear again about a fortnight later. Spots are at times seen to form on the sun's visible hemisphere.

Greyhound Pigs Gone.

That greyhound pigs, that once existed in Ireland, are now extinct is the declaration of an Irish scientist. The animal was a native Irish domestic pig, probably a descendant of the wild boar and had a hairy body, long legs and ears, and often whiskers like those of a goat. Its objection to being driven to market made it unpopular, and this led to its undoing.

A Good Rule

Our health rule for the day: Eat anything you want to but less of it.—Ohio State Journal.

Here It Is!

The New 8 Tube Model

(Including Rectifier Tube)

PHILCO

REG. U.S. PAT. OFF.

ALL-ELECTRIC RADIO

The Highboy

Louis XVI period style. Hand some, matched butt-joint panels, fluted legs and pillars, swinging doors. Constructed with painstaking care—all joints doweled and glued—no nails, cleats or screws. Exquisite finish. Includes phonograph connection to play records electrically, and the New Type Philco Electro-Dynamic Speaker.

The Table Model

Simple, classic design, finished in a rich, two-tone Spanish Brown. Contains 7-tube (including rectifier) Philco Receiver, power supply, phonograph connection built-in aerial and portable ground.

The Philco Speaker

A speaker specially designed for use with the Philco Table Model Radio. Reproduces the entire musical range, high notes as well as low notes, in perfect balance and proportion.

\$157

(Less Tubes)

New Type Electro-Dynamic Speaker

Philco engineers have perfected the Dynamic Speaker. No more unnatural "boom, boom" to drown out the melody; no more blurred speech. High tones have been restored to their proper place, while preserving the pleasing background of the lows. Melodies are heard in proper proportion to the bass. Speech is wonderfully clear and distinct. Startlingly true to life! AND—tremendous volume without distortion.

Neutrodyne-Plus

Power, super-power—that's the secret of Neutrodyne-Plus, Philco's New Radio Discovery. The power to perform under the most difficult local conditions. This great power Philco engineers have added for the first time to Neutrodyne, famous for its pure, clear tone.

No Aerial Needed

Philco needs no aerial for local and many distant stations. All-electric—entirely dry. Range control cuts out local interference and separates distant stations. 8 tubes, including rectifier. Push-pull amplification. One dial control. Four condensers.

COME IN... HEAR IT!

Come in—see and hear the new 1929 Philco on display at our store. Judge for yourself if you have ever seen the equal of this astounding radio value. Also, ask about our **Free Home Demonstration** and **Easy Payment Plan**.
