THIRTY-EIGHTH YEAR

Fred W. Ellis Honored By the Juniors Tuesday

FRED W. ELLIS

In whose honor 1,078 candidates were received into Junior O. U. A. M. in Irem Temple last night.

More than 2,000 members of Junior Order of United American Mechanics Thursday night saw 1,078 candidates initiated into the order in Irem Temple. It was one of the largest groups ever received at one time and represented councils in three counties, Luzerne, Wyoming and Bradford. Candidates came from points as far south as Berwick and as far west as Sayre. Degree team of Henderson-Gaylord Council, Plymouth, exemplified the ritual, the work of the team members being letter perfect.

The class was named in honor of Fred W. Ellis, of Kingston, a member of Willow Grove Council, 139, of Luzerne, since December 1, 1887. Mr. Ellis has been one of the most active members in the order and for the last six years has held the chairmanship of Luzerne County Juniors' executive committee. For two terms he was national representative.

Because of Mr. Ellis' membership in Willow Grove Council, that unit was designated by special dispensation from State Councilor Gomer D. Lewis, of Jermyon to hold the class initiation in the temple.

Included among the State officers attending were Mr. Lewis; Charles Yahres of Pittsburgh, State vice councilor; Charles H. Hall of Philadelphia, State secretary. Each of these made brief addresses. The main address was given by Judge W. A. Valentine, who spoke eloquently on the order as a power for good, its work branching out in many ways with but the one goal ever foremost—good citizenship.

Thursday night's class is but one unit being accepted into the order throughout the State during what is known as World Peace Jubilee membership drive. The drive had its inception in the early part of October and continued unabated until Monday night. Intense rivalry was rampant between the various councils and individuals for the handsome prizes which were awarded last night.

The Dr. Henry M. Laing Fire Company will stage a card party at Gregory's Hall Tuesday night, March 5. Tickets for the affair are now being sold and the proceeds will be applied toward the liquidation of the indebtedness, which has already been cut to about \$2,500.

The local citizens are asked to turn-out and give the fire laddies their full support as the boys are trying to give the town the best in fire fighting apparatus and prove their sincerity at times when assistance is badly needed.

The boys respond to the call in all kinds of weather and at any time of the day or night and your whole-hearted support and assistance is urged and will be appreciated.

All the furniture and necessary equipment is on hand excepting the teachers' desks and if these do not arrive soon the old ones will be substituted temporarily.

The heating plant has been in operation for over two weeks in an attempt to remove all dampness from the building before the children occupy the same.

The building has been erected in a very short time, it requiring only a little over six months and in less than a year after the board began to give the subject of building active consideration.

Charge for Checking Accounts Creates Discussion

The action of all banks that clear through the Wilkes-Barre Clearing House in charging fifty cents each month for checking service on all check accounts whose balance does not average one hundred dollars has been the main topic of discussion about town the past week.

Various comments have been heard both pro and con but we think the majority of the people do not object to this charge as long as they receive service. Not only that, but banks can create better feeling in themselves, better business and closer relations with their depositors by what is known as banking courtesies. We always believe that one receives what one pays for.

How the mechanical age has improved and how we in our community should improve.
