The Official Board has set aside the month of March at Loyalty Month in which every member and friend of the church is asked to prove his loyalty by three things: Attending the services of the church, Praying for the success of the church and its ministry, Paying his share towards the support of the church, both in its current expenses and its benevolent program. We come to the closing month of the year needing just about the regular receipts of two months to come out with flying colors.

At the meeting of the Official Board on October 9, 1928, with 21 members present the minister was authorized by unanimous vote to have installed a hot water heating plant. The contract was given to Mr. R. L. Hallock at \$788.00 to be paid for by April 1, 1929. The contract was executed and the plant has been a wonderful improvement. Voluntary subscriptions have been made to pay for this plant, four coming in this past week, one for \$2.00, one for \$5.00, one for \$20.00 and one for \$50.00 bringing the total up to \$624.60. Several others have expressed their intention to pay towards it and the prospects for its being all paid are bright.

The Young Men's Bible Class met at the parsonage with their wives on Tuesday night. The following were in attendance: Mr. and Mrs. Z. E. Garinger, Mr. and Mrs. D. F. Westover and son, Billie, Mr. and Mrs. Leslie Warhola, Mr. and Mrs. W. H. Baker, Prof. and Mrs. Ziba Howell, Mr. and Mrs. Charles Jones and Mr. and Mrs. Charles Gregory, daughters Sarah and Helen, Mr. and Mrs. L. W. LeGrand, Mrs. S. B. Davies, Mr. and H. Mannear, Mr. and Mrs. David Mrs. Thomas Him, Mr. and Mrs. J. Brace, Mr. and Mrs. J. N. Bailey and sons, Judson and Wesley. Prof. and Mrs. Howell were guests of the evening and both gave interesting addresses. The next meeting will be at the home of Mr. and Mrs. W. H. Baker.

EAST DALLAS SERVICES

East Dallas services—Sunday, 9:15, worship; 10:15, church school.

Twelve men of the East Dallas Church met on Wednesday and built cupboards, partitions, and tables for the kitchen and the women prepared a chicken dinner for the workers. They are preparing for the bazaar on Wednesday, March 6th when at five o'clock they will begin serving one of their roast beef and pork suppers. They will have fancy work, stockings, and other donated articles to sell. After the first tables are served there will be a moving picture shown upstairs so those who wish to spend an hour in social fellowship may do so.

The Official Board of the East Dallas Church met Wednesday night and heard the report of the Finance Committee which showed all salaries and bills paid up to February 1st. Collectors will go this week for the February collections and the arrangements were made for the every member canvas to begin March 18th to provide for the next year. This last year's work has been a succession of successes. The debt has been steadily reduced by people who pledged, voluntarily paying their pledges and although all had until December 31st, 1929 to pay their pledges over \$1,489 have been already paid. This is very gratifying as it will enable the Board to make a fine report to Conference and reduce the interest paying debt. The Board plans to grade the lot and lay walks to the road and finish the basement as soon as funds permit.

State Highway Department Issues Warning To drivers

The State Highway Department announced that after midnight last night, 1928 motor vehicle drivers' licenses will be void and that offenders will be arrested.

A fine of \$35 may be imposed and the driver will be compelled to secure a license before permitted to continue driving.

Amber Traffic Light Doomed

The amber traffic light, designed to increase safety of pedestrians and prevent intersection collisions, is fast being forced into the discard.

While traffic experts are still at odds as to the value of the amber light in combination with red and green lights, there is a widespread movement to discard the "warning" or "get ready" signal because drivers misinterpret its meaning.

Working on the information that persons who are to some extent color-blind constitute 5 per cent. of the population, the bureau of standards has selected colors which are distinguishable to most if not all persons having defective color vision.

Offers Hints For the Farm

Wood chips from which rosin has been extracted by distillation can be used in the manufacture of wrapping paper and of the cheaper grades of composition boards.

Level land, sod or fall-plowed land where there is no run-off when snow melts are the best places to spread manure in the winter. Avoid spreading it on steep hillsides until just before time for plowing.

Out of every 100 pigs farrowed in this country, only fifty-five live to market age. On farms where sanitation is carefully followed—where the sows farrow in clean pens and the pigs are raised on clean pasture away from old, worm-infested hog lots—swine owners are raising seventy-six out of every 100 pigs.

If chicken-pox appears in the poultry flock, isolate the sick birds and disinfect the poultry house to prevent spread of the disease. It usually is better to kill the affected birds than try to cure them. A preferable disinfectant is a 305 per cent. solution of compound cresol.

When picking calves as potential baby beef, choose ones that are wide, deep bodied and thick fleshed with short legs. Fineness of hair, texture of skin, smoothness of flesh, and general refinement about the head and other parts of the body are signs of quality. Uniformly in size, weight and color should be considered, as this is an advantage in marketing.
