Poor Observers

Who will not willingly agree that pure observation is more rare than is believed? We are apt to confuse our sensations, our opinion, our judgment, with what we experience, so that we do not remain long in the passive attitude of the observer but soon go on to make reflections; and upon these no greater weight can be placed than may be more or less justified by the nature and quality of our individual intellects.—Goethe.

Can't Compete

Intellect and character, declares Abe Martin in *Farm and Fireside*, cannot combat the widespread exploitation of physical charms.

LOCAL GIRL SCOUTS HOLD MEETING

The Dallas Girl Scouts held a very enjoyable meeting on Friday. Mrs. Robert Moore started a class in first aid. For the first meeting she gave them instructions in four kinds of bandages, how to make them, what materials should be used, or can be used in an emergency, and their uses. Then she took up first aid for ivy poisoning and nose bleed.

Next week Mrs. Moore will give a practical demonstration on how to make a bed, also hospital and accident beds. The girls will meet at the school and then go over to her home for this week.

HEARD ABOUT TOWN

our next burgess?

Very favorable comment has been heard about the forwarding of R. H. Rood for burgess. We think that the dad will decline. Why not then the son, R. Harold Rood.

Burgess Anderson still insists he will not be a candidate. There have been many burgesses in Dallas but few gave the time to the job as Harry did and does.

The greatest comment is to elect a majority board of auditors who will make the audits on time. We would like to see an audit of the school district so as to know exactly just what our new school is costing.

Professor Morris says the taxpayers did not get as good a school as they should for the money expended.

D. A. Waters and other members of the board insists that the architect and contractors gave a dollar's worth of work for every dollar expended. A matter of opinion of different sides.

The writer inspected the new building but is reserving comment until the school is entirely finished. We do not wish to express our opinion until the school board opens the building officially to the public.

The new gymnasium is sure a fine one and is one credit to the board.

Science Given a Boost
You may have noticed that the weather is cooler lately. Science says the earth is cooling at the rate of two degrees each 16,000,000 years.—Yakimo Republic

Jewish Holy Spot
The Walling Wall name is given to the western wall of the Temple of Solomon in Jerusalem. The wall is the holiest of Jewish religious shrines.

That's enough about the fire. Who's Tom Higgins may be a little chap (that is in height) but he sure is some fire fighter.

Chief Avery arrived but it wasn't necessary to hold the crowds back. Not at that time of the morning. The Chief made himself generally useful, however.

Jim Besecker and Hal Wagner sure enjoyed the ride out. They were holding down (?) the rear end of the truck.

The Gold Dust Twins, E. and R. S. appeared a few minutes later after the truck.

Clyde LaBar, who has a perfect record for attending all of the fires, also got there in good time. Also Clyde Veitch and Al Misson.

Would suggest that when the siren does not blow at nine o'clock that arrangements be made to have the Chief of Police notify those in authority.
