

THIS WEEK

**NATURE'S BALANCE.
THE PRICE FOR PICTURES.
EINSTEIN PUZZLE.
THE "FIVE AND TEN" LAW.**

It is dangerous to interfere with nature's balance, one thing killing others, all kept in bounds. Yakima County, Washington, offered a bounty to exterminate hawks and owls, and thousands were killed, to protect game birds and poultry.

Investigation by government experts, examining hawk and owl interiors, found that the birds lived on snakes, grasshoppers, field mice and ground squirrels, all dangerous to man—especially the ground squirrels that spread bubonic plague.

Yakima has withdrawn the bounty.

Kill off coyotes and foxes and you encourage a plague of field mice and jack rabbits. Montana made that discovery. The wise plan is to destroy the objectionable creatures by scientific means. Get rid of small vermin and the bigger nuisances will disappear.

When we see news films we rarely realize the risks run by cameramen. Those risks are great and occasionally death proves it.

At Daytona, Florida, Mr. Bible, trying for a new automobile speed record, was instantly killed when his car was going 202 miles an hour.

The crowd stood well back, watching the race, but Charles Traub, grinding a newsreel camera, knew it was his duty to show the machine, traveling four miles a minute, coming head-on. He stood with his camera planted slightly to one side of the straight course. When the driver lost control the car leaped and rolled. It was too late for Traub to save himself. His dead body was laid out beside that of the driver. That is the price paid sometimes for news pictures.

Professor Einstein, fifty years old, retired with his wife from public view, to think about relativity and the fourth dimension, and wonder why people make such a fuss over him.

He is especially amazed at the great interest in his discoveries in the United States. And he wonders why. Not ten men in the United States understand them.

What does the "Five and Ten" law mean? It means that a man who is five years in jail, and a \$10,000 fine went into effect in Chicago, and the first man caught in the Jones net was Carl Mahnke, a policeman. The Chicago federal district attorney expects 250 indictments per month.

Impressive figures prove that the radio has come to stay with a vengeance. During 1928 retail sales of radio apparatus totalled \$70,877,517.

The extent to which radio has transformed human life and enlarged its possibilities is understood as little as the importance of printing was understood when Gutenberg began setting up his movable type.

Printing opened all the knowledge of the world to everybody that could read.

Radio offers the speeches, music and information of the world to everybody able to listen.

Professor Card of Philadelphia, says women will soon wear dresses made of asbestos, fireproof, shiny as silk, more durable than any cloth, easily cleaned with a wet cloth, costing less than other materials.

ACTIVITIES IN CHURCH CIRCLES

Services at Dallas M. E. Church will be as follows this Sunday: The morning worship with holy communion, 10:30 a. m.; church school, 11:45 a. m.; Epworth League, William Brickel, leader; 6:30 p. m., evening worship, Farewell sermon for the Conference Year, 7:30 p. m.

The program for the week will be: Tuesday, 7:45 p. h., Young Women's Missionary Society meets; Thursday, 4 p. m., King's Heralds; 2:30 p. m., Ladies' Aid Society; 7 p. m., prayer meeting; 8 p. m., choir practice.

W. S. Taylor, representative of the Anti-Saloon League, will preach at the services in Dallas and East Dallas on Sunday, April 14. The evening services will be in charge of the Epworth League.

SERVICES AT SHAVERTOWN ST. PAUL'S LUTHERAN

"Russellism" will be the title of the first of a series of Sunday evening sermons on present day religious beliefs at the Lutheran Church, Shavertown, Sunday evening at 7:30. A study of the International Bible Students' Association, its origin, teaching, and popularity, will be given.

At Sunday evening services throughout the month further studies in this series will include Seventh Day Adventism, Spiritualism, Christian Science, Unity and others.

**Goodness
Doubly Assured**

Deeds, not words, build a good name! The name of Dodge Brothers stands for endurance, trustworthiness, long life. Its reputation for dependability rests on a solid and unshakable foundation of years of honest motor car manufacture. The name of Walter P. Chrysler stands for style, for engineering leadership and integrity. His genius has been proved by a long succession of achievements that have virtually revolutionized motor car construction and design. That is why the new Dodge Brothers Six is so outstanding in character and behavior. The sturdiness so long associated with Dodge Brothers cars is a guarantee of its stamina. Its vivid style and spirited performance typify it as a Chrysler creation. EIGHT BODY STYLES: \$945 TO \$1065 F. O. B. DETROIT
