Hunlocks	1	0	1.000
East Dallas	0	1	.000
Roaring Brook	0	1	.000
Beaumont	0	1	.000

The Rural League got away to a good start Saturday with weather conditions ideal for base ball, Beaumont and Dallas put up one of the best exhibitions seen in this section for some time. The score was 3 to 2 in favor of Dallas.

Austin was on the mound for Beaumont and held the locals to three scratch hits until the sixth frame when Owens got a base on balls coupled with consecutive hits by Reese, Stitzer and Woolbert which accounted for three runs, enough to cop a victory. Reigles started for Dallas allowing the visitors four hits and two runs, one of the runs scoring on an overthrow by Ray. In the fifth inning Culver was sent to the mound and proved mid-season form by holding Beaumont to two hits. He made five batters fan the breeze. One of the features of the game was a triple play made by Beaumont which deprived the Dallas boys of a chance for a rally in the first inning after Ray had singled. Owens got a base on balls, then a long drive by Reese which looked like a real hit was caught by Zarnic who returned the ball to Smith who completed the triple play. R. H. Hood, one of base ball's old-timers, had charge of the game and kept the boys on their toes from start to finish, pleasing the fans with the capable way he handled the game.

More boosters and less knockers.  
More who lift and less who lean.  
More sympathy and less derision.  
More prayers and less gossipers.  
More doves of peace and fewer eagles with anxious talons ready to find a prey and then soar high into space only to come to earth again.

**Some Needs of the Church**  
More charity and less fault-finding.  
More burden-bearers and fewer tale-bearers.

A spiritual revival.  
A better understanding of the meaning of "The Fatherhood of God and the Brotherhood of Man."  
More study of the Bible and personal application of its teachings.  
More attention to any sympathy for the young people.

A warmer feeling of friendship and interest extended to new comers and strangers.

## Annual May Day Luncheon Proves Delightful Affair

### More Than 100 Women Attend Program In Huntsville Methodist Church—Elect Officers

Annual election of officers, and a delightful musical program were features of the May Day luncheon of Shavertown Branch, Woman's Auxiliary of Nesbitt West Side Hospital held Thursday afternoon in Huntsville M. E. Church.

Mrs. George Learn was general chairman of the affair which attracted more than a hundred women from all parts of the upper West Side. The luncheon was served by the Ladies' Aid Society of the Huntsville Church. ## Heavy Rains Make New Road a Mud Hole

### New Fills Present Obstacles To Motorists — One-Way Traffic Observed

Traffic on the new Trucksville-Luzerne road was severely hampered this week by bad road conditions which resulted from the heavy rainfall of the week. In many places it was almost impossible for motor cars and trucks to plow through the mud of new fills that were placed late last week and early this week.

One-way traffic was necessary in the narrows where steam shovels, and bull dozers were at work on one side of the road and concrete was being laid on the other.

On Thursday night following the heavy rain conditions became so bad that Contractor Kersten found it necessary to keep a force of men at work all night dragging the road and pulling motorists out of the mud. It seems probable that road conditions will become worse instead of better and that there will be no relief until one side of the road is opened to traffic about June 1.

### LOCAL LAD BEGINS CAREER AS MARINE

The roving life of a U. S. Marine is in prospect for Russell D. Honeywell, who is now undergoing training in the drills, duties and customs of the soldiers of the sea at Parris Island, S. C., according to a recent report of enlistments at that training station.

Attracted by the prospect of serving abroad a battleship, seeing some foreign lands, or the appearance of the smart military uniform worn by the Marines, Honeywell applied for enlistment at Wilkes-Barre, Pa., several days ago and was sent to the training station at Parris Island, where his instruction, as a recruit, will soon be completed.

Honeywell is 23 years old, and is a son of Mr. Fred F. Honeywell, of R. F. D., No. 1, Dallas. He enlisted for four years and during that period he may decide to take advantage of the special educational courses offered by the Marine Corps. At least he is bound to have interesting experiences while following the fortunes of the sea soldiers.

### PUPILS GIVE RECITAL

The recital given in the First Presbyterian Church of Wilkes-Barre, by Prof. Ernest Wood and his students last evening drew a large audience. The numbers were well received and a neat sum realized from the silver offering. Prof. Ernest Wood gives some very wonderful recitals every season.

## Dallas Rotary Club Awarded Coveted Trophy

### Wins Convention Cup for Greatest Attendance Gain During Year—48 Clubs Compete

The coveted attendance trophy, awarded each year to the Rotary Club in the fifty-seventh district which has the largest percentage gain in attendance, was presented to Dallas Rotary Club Thursday night at its dinner meeting in Higgin's College Inn.

Presentation was made by G. Harold Wagner who received the cup for the club at the recent fifty-seventh district Rotary Club convention in Pottstown. The winning of the cup by the local club is considered a great honor since it is the smallest and one of the youngest clubs in the district. Forty-eight other clubs competed for the award.

In making the presentation, Mr. Wagner, spoke briefly on happenings at the convention and upon the work being done by the local club. His talk was followed by that of Earl Monk, Thom Higgins, James Besecker and Henry Sipple who were also delegates to the convention.

In their reports on the convention the speakers said that it was the finest one they had yet attended during their membership in Rotary. High lights of the convention they said, were the governor's ball where Tony Christian and his orchestra of New York City furnished the music, the pageant, depicting the six objects of Rotary, given by 250 Pottsville school children and the addresses given by nationally known speakers. Among these speakers were, Dr. H. J. Bevan, of Rochester University and Almond Roth, controller of Leland Stanford University, Palo Alto, California.

The law pertaining to the carrying of a red danger signal on an exposed load such as props, pipe and telephone poles, will also be enforced. Many drivers were warned this week.

### FIRE DESTROYS HOME

Mrs. Louis Brown, of Main Street, received word this week that her only sister and family, Mr. and Mrs. Wm. Lutes, of Tunkhannock, had lost their home by fire this week. Not a thing was saved. Kind neighbors took the stricken family into their homes, until other arrangements could be made.

### NOXEN GIRL SCOUTS PLANT SHADE TREES

Under the direction and sponsorship of the Noxen troop of Girl Scouts more than twenty-five young shade trees have been planted in that community this week.

Seeking a way to be of community service, the girls decided some time ago that they could beautify the village by planting trees themselves and stimulating interest in tree planting among the other residents of the community. Five trees were planted on the Main Street. Five others were planted by the Tanners Bank and five by the Lutheran Church. Many others were planted by the Ladies' Society and by home-owners.

## Little Accomplished Toward Bringing Districts Into Closer Harmony — Prejudices Still Hold Sway Over Common Sense.

### NO SOLUTION AT PRESENT

In an effort to stimulate better harmony between the two school districts, directors of Dallas Township and Dallas Borough schools met Thursday night in the new high school building to discuss common educational problems.

Although nothing of note was accomplished, there was considerable discussion and presentation of facts and figures. The most noteworthy accomplishment of the joint session was the decision of both boards to go along with Kingston Township schools in the hiring of a part time music teacher. This instructor will teach three days a week in Kingston Township and one day each week in Dallas Township and Dallas Borough respectively. Expense for such a teacher will be apportioned among the townships according to the time the teacher spends in each of the districts.

A similar agreement has been entered into by Dallas Borough and Kingston Township schools for the employment of an art and home economics teacher.

In the discussion Director Melvin Mosier, of Dallas Township pointed out that Dallas Borough was offered an opportunity a few years ago to build eight rooms on the township school at a cost of \$10,000, and since the borough refused to go along at that time he now feels that it is impossible for the school boards to attempt to come to any other solution of educational problems.

Directors present at the meeting were: Dallas Borough—Machell, Morris, Space, Waters and Secretary Besecker. Dallas Township—Mosier, Wilson, Devens, Landon, Prof. Ger-ton and Peter Doll.

## Intruders Fail In Attempt To Rob A. & P. Store

### Third Effort of Robbers In Two Months To Gain Entry To Shavertown Store

For the third time within two months an attempt was made to rob the Atlantic and Pacific Store at Shavertown last week. The intruders attempted to make their entry by breaking the glass door and removing enough glass to enable them to reach the Yale lock on the inside of the door.

The lock, however, being one of the knobless variety did not yield so easily since this type must be unlocked with a key from either side.

Discouraged in their attempt or scared away, the robbers left without evidences of any other effort to enter. About two months ago the store was broken into and a considerable amount of groceries and provisions was carried off. Officer Edward Avery investigated the recent attempted robbery but could find no clues to lead to the identity of the robbers.
