 "WE MAKE LOVELINESS LOVELIER"

HERE ARE THE RULES
READ THEM CAREFULLY!

1. Any person living in Luzerne and Wyoming Counties may participate except employees of this newspaper or their immediate families. It does not cost anything to compete. You may use the coupon below or write our your answer in the same form, or, better still, go to any of the advertisers on this page and they will furnish you with additional copies of this coupon.

2. The problem is simple. There are fifteen advertisers on this page. You are required to make up a grammatically correct sentence using not more than one word from each advertisement. The person sending in the longest grammatically correct sentence **EX-PRESSING THE BEST IDEA** will be awarded the first prize. The second prize will go to the person sending in the next best sentence, and the third to the one sending in the third best.

3. Members of a family may work together on a sentence, and may send in as many sentences as they wish, but only one sentence of a kind will be accepted from any one family. Sentences will be passed on by judges appointed by this paper, and participation in this contest will be sufficient evidence that those participating agree to abide by the decisions of the judges.

4. There will be a contest each week for the next thirty weeks. Three prizes will be awarded each week. Prizes will be paid in merchandise certificates, which will be accepted as cash by any of the advertisers on this page. The order in which the words are selected and the subject of the ideas will be changed from week to week. These changes as well as the names of the winners will be announced each week.

The Scranton-Spring Brook Water Service Company

The water supply of the entire Wilkes-Barre district, comprising 52 separate civil divisions, with an area approximately 90 square miles, is furnished by Scranton-Spring Brook Water Service Company. The total population is estimated at 371,000, which is served through 82,500 taps in the distribution system.

The water, obtained from virgin mountain springs and streams, from 15 separate sources in forested watersheds, is impounded in 39 reservoirs, providing a total storage of 12 billion gallons, and distributed through 705 miles of distribution mains.

All Water Served To Consumers Is Carefully Sterilized.
