## ENROLL FOR MEN'S RIGHTS

Now there is a world organization called Aequitas, formed to fight for Men's Rights.

It is housed in a fine old Vienna palace and its members are 25,000 suffering male who have been driven by the tyranny of femininity to join forces in the hope of preventing the further subjugation of men.

The Aequitas says that women have always ruled France, that women voters outnumber the men in England, and that the United States is completely under her domination of the ladies.

The Aequitas admits it does not want to reestablish the tyranny of the male. (Evidently that is considered a hopeless task.)

The program of the Aequitas, if carried out, would make it impossible for women of means or women capable of self-support, or women who leave their husbands within three years of marriage, to get alimony. Divorced women would be denied the use of their husband's names.

There are other purposes of this movement for Men's Rights. But it is a rather timid, milk-and-watery movement. For example, many American men are in it. But they refuse to make their names public!

They're afraid. And who wouldn't be?

## NOT HEALTHY TO RETIRE

Thomas A. Edison was recently asked whether he intended to retire. "No," he answered. "It's unhealthy."

These are wise words from a man of true wisdom. His inventions and discoveries have benefited the world for many years—at his advanced years many men stop working, and give themselves to rest and comfort, but he remains just as busy as ever.

He knows not only secrets of electricity, but also secrets of good living.

He has learned that life is an experience glorious and vital—and that retirement means stagnation and death. His own splendid health and mental ability at an advanced age is a sterling example of what hard work can do for one.

## Church Notes

# Notice To Water Users

Water consumers of the Dallas and Shavertown Water Companies whose water rents are not paid by September 20 will have their water turned off without further notice.

Dallas-Shavertown Water Co.

## DALLAS BOROUGH SCHOOLS OPENED HERE TUESDAY

Dallas borough schools opened Tuesday with every prospect for the most enjoyable and profitable year in its history. Minor repairs have been completed in each room in the old building and they present a clean, cheerful appearance to the pupils as they return for another year's work. In the elementary grades the teachers are: Misses Dorothy Patterson, Ella Sutton, Elmly Hill, Helen Anderson and Louise Miller, all of Dallas. The first day's enrollment was: Grade one, 35; two, 30; three, 32; four, 24; five, 30; six, 27; seven, 19; eight, 21; nine, 22; ten, 17; eleven, 10. Since that report, however, new students have enrolled to raise the total number to 275.

Ninety-two of these students are enrolled in the Junior-Senior high school. The high school faculty includes Miss Katherine Taylor, who will teach home economics and art; Miss Elizabeth Hazlett, who has charge of the English department; Miss Elda Mans for Latin and history; Harry Doll for mathematics and Principal George T. Bowen, who has charge of science and supervision.

E. E. Bowman, who was elected to teach this year, resigned his position here to accept one which seemed more desirable to him. Miss Mans, who was elected at a special meeting of the board on Saturday night to fill this vacancy, is a graduate of Thiel College and has had a year's experience teaching Latin in a first class high school near Pittsburgh. Miss Man's home is in Erie, Pa.

The curriculum has been widened by the addition of music, art and home economics. Miss Luise Miller will have charge of Junior-Senior high school music.

chased and many fires have been attended. A fine record stands to the company's credit and should lead to

In his report Mr. Hoffman showed the toy fire engine sent him as a joke when the prospects were rather blue. Upon opening the great box in which it was placed, a small engine was found with the following lines:

"Much has been said but very little has been done on this most important question. But for the interest taken by our friend, Mr. Hoffman, we tearfully dedicate the following:

**MR. HOFFMAN AT THE WHEEL**

We present you, Mr. Hoffman  
With this fire engine great,  
Hoping in the near future  
To see it adorn your estate.

It is not a thing of beauty,  
But its usefulness will prove  
If ever Shavertown is in trouble  
To Hoffman they will tumble  
And cry out in their trouble

Here comes Hoffman at the wheel.  
After announcing the next meeting with a special program for September 9, and making plans for the social

## THE WEDDING MARCH AT HIMMLER THEATER

"The Wedding March" in its entirety, a big Paramount special, will be shown at the Himmler Theater, Dallas, on Tuesday evening, September 10. An Erich VonStroheim creation with Fay Ray. A prodigious film of Vienna before the war, showing profligacy in high circles. Strong, realistic and thoroughly revolting, noted for its bigness. A fourteen-reel picture with some parts colored. Don't miss it. There will be no additional admittance price.

(cake and ice cream), Friday evening of this week, all went home thankful for the protection to life and property through this fine organization.

## A Job For The Exterminator

By Albert T. Reid

## Contributors' Column

Editor Dallas Post:

An ad appeared in the issue of your paper, August 25, to which I should think nothing. For any one knowing me would know I never sent in any such absurd notice to the Dallas Post or any other paper, but to the person who did send it in, perhaps a timely warning would be as well, not to try a like stunt on some people. To use another's name is exceedingly dangerous, and might cause considerable trouble to the practical joker.

MRS. M. C. JETER.

## JUNIOR-SENIORS ENTERTAIN

The Sophomore and Junior classes of the high school were hosts last night to the members of the new freshman class at a lively how-do-you-do party held in the high school gymnasium. Plenty of fun was furnished in the clever games, auto racing, songs, eats, etc., which furnished an evening of pleasure and helped the new students and teachers to get really acquainted. Eleven of the ninth grade are out of town students and Dallas high school wants to welcome them heartily and make them a part of the best school in the Upper West Side.

# A question 365 days long!

EVERY day, for twenty-four hours, Goodyear's tire-testing cars race along the roadways of America.

Overloaded, steaming, crowding the speedometer from dawn to dusk, they cover concrete and gravel, hill and dale. Each car often piles up as much as 800 miles a day.

Some of them are big cars, some small; some cruise in Ohio, some in Florida, some in Arizona and New Mexico, some on the Pacific Coast.

Altogether they comprise the largest tire-testing fleet in the world, and they're kept on the run in sunshine and storm the whole year through.

THIS ceaseless and unmerciful testing, this question 365 days long, is the kind of scrutiny Goodyear Tires must survive before they are offered to the public.

Every improvement in compound, every advance in construction, must run this gauntlet successfully before it is incorporated in production.

Inspection to insure uniformity of quality in itself is not enough; even this inspection is subject to check in the harsh laboratory of the road.

As a consequence Goodyear quality is a definite and dependable thing — so outstanding as to support the largest tire business in the world.

WHEN you buy a tire, ask yourself if it has this background — this insurance of brilliant and economical performance that is a part of every Goodyear Tire.

We will demonstrate to you the superior traction of Goodyear Treads and the greater vitality in Supertwist Cord
