September has been handing us some cold weather but along with it has come the rain we have been praying for. Things were getting pretty dry up here, many springs and wells were dry and the lake was the lowest that it has been at this time of the year for a good many years. We can still stand a little more rain but that which already has fallen has been a great help. We'll hope for some real nice Indian summer weather in October. We of the younger group are getting sort of lonesome now as many of our friends have gone away to school. Genevieve and Lillian York are attending Wyoming Seminary, Edgar Stem, Jr., has returned to hold up his end as a sophomore at Lehigh University, and Harry Allen, Jr., is spending his first year as a pre-medical student at Penn State. Others have gone here and there, some teaching and others engaged in various occupations. We, the remaining few, will soon have to fold up our tents and depart also, but undoubtedly everyone will plan to be back to good old Harvey's Lake for the summer season. There's no place like home and especially when it's Harvey's Lake. Mrs. Anna Tinsley of Wilkes-Barre and Mrs. Carrie Roberts of Warrior Run called on Mr. and Mrs. J. C. Altemus on Sunday last. Herman Kern has closed up his garage and is now in search of a larger and better thing in the city of Detroit. We will all miss Herman with his cheery smile and his "service with a song." We wish him the very best of luck in his new venture. Lyman Hausch is now working for Raymond Garinger. A corn roast in honor of Carl Casper was held by a group of his friends on September 6. Carl, who is one of our popular summer visitors, is returning to his studies at Duke University at Durham, N. C. Among those present at the affair were: Adda, Esther and Elsie Garinger, Genevieve and Lillian York, Rosella Casper, Ann Davis, Virgie and Marjorie Kitchin, Ross and Lloyd Garinger, Glen Kitchin, Carl Casper, Michael and Peter Kuchta and Paul Avery. While engaged in canning corn on Thursday, September 12, Mrs. Corey Allen was badly burned about the legs and feet by boiling water which struck her when the ball came unhooked from the pail she was lifting from the stove. She is much better at present. Howard Major, who conducts the park bathing beach during the summer, has returned to his fuel business in Florida. He writes us that it's "hotter'n' Hanna" down there. We envy him the heat. The Alderson Ladies Aid will hold a roast pork supper in the church basement Thursday evening, September 26. We don't need to add that everyone may expect a darn good feed. John Rauch is now working for the

Stevens at Broadway Sunday afternoon. Mrs. L. T. Avery has returned from visiting friends in Wilkes-Barre. Have you noticed the broad smile on the face of Harry Zacharias, the milkman? He has a good reason for it. Harry, Jr., arrived but a short time ago, the first boy in the family. Congratulations, Harry. Now that the primary election is over we can sit back and listen to the excitement over the coming "big show" in November. My, but politicians make a lot of noise, don't they? But don't worry any. Of course, not! We just go to our favorite political boss and, of course, he knows which are the best men to vote for. Anyway, he says he does. Have you been to Sandy Beach to watch Tommy Loughran train? You must come over. Last week Tommy was visited by a group of newspapermen who took Tommy's picture from all curves and angles and another group is here now. Madison Square Garden surely believes in newspaper publicity. Tommy is working hard and seems to be in the best of condition. He is very well liked about here and he has our best wishes and also quite a few wagers that he will "put the cleaners" on Sharkey.
