Miss Wolfley of Wilkes-Barre, who is a house guest of Mrs. John Frantz, and Mrs. Frantz were dinner guests on Thursday of Mrs. Elmer Parrish.

Mr. and Mrs. Ross Lewin Fernbrook spent Sunday with Mrs. Lewin's mother, Mrs. Emma Shaver.

John Rogers, breeder of white collie dogs, has just sold two at very fancy prices. One was shipped to a Mrs. White on Long Island, the other to John A. Starran of Lancaster, Pa.

Home Canning Made Easy

By GRACE VIALL GRAY
Household Science Institute.

- 9 CANNING POINTS**
1. Have all equipment in readiness before canning is started.
 2. Pack products in jars or cans that will seal air tight. Spoilage in canned foods is frequently due to imperfect containers.
 3. Pressure cookers are helpful in the canning of meat and all non-acid vegetables. The high pressure obtainable kills all spores, thus assuring perfect sterilization. Pressure cookers also save time and fuel.
 4. If you live in the South, or in very high altitudes, or in the west coast states, get the time-tables for canning recommended by your state college. In these sections it is recommended not to use hot water for the canning of vegetables and meats but the pressure cooker.
 5. For exhibit and contest purposes always use glass jars.
 6. Empty space in a jar will not lessen the keeping qualities of the food, but it detracts from the appearance and is a waste of jar space. However, if a glass jar has lost liquid during processing, do not open to refill.
 7. To can fruit juices pasteurize for from 25 to 30 minutes at 160 to 170 degrees. Boiling fruit juice destroys the flavor.
 8. Canning does not change poor products into good products so use good products to put into jars. And do not spoil good products by half-way methods of canning. Use the quickest, safest, and most efficient method of canning, which is the pressure cooker method.
 9. Before storing canned products away in a cool dry airy place for winter use keep the jars under observation at room temperature for at least one week.

OFFER \$5,825 IN PRIZES IN NATIONAL CANNING CONTEST

To ward off a threatened surplus of farm products in many sections and to impress more housewives with the economy and healthfulness of home canned foods, a National Canning Contest is now under way to find the best jar of canned fruit, vegetables and meat in the country. Two hundred and twenty-two cash prizes totalling \$5,825 have been hung up by the Sears-Roebuck Agricultural Foundation, including a grand sweepstakes prize of \$1,250 for the best jar of canned food entered in the contest. Any woman or girl is eligible to enter the contest, but entries must be in not later than October 1, 1929. Further information on the contest and free jar and entry blanks for sending in entries may be had by writing to Amo Williams, director, National Canning Contest, 925 S. Homan Avenue, Chicago, Ill.

Ain't Science Wonderful?

Veterinarians have discovered, according to Farm and Fireside, how to remove the bark from a dog and the bleat from a goat. It remains only for them to eliminate the mosquito's bite and the bee's sting to make country life practically 100 per cent perfect.

When the Pontiac Six was introduced by the Oakland Motor Car Company in 1926, it was believed to be the first car so named until this old-timer came to light at Pittsburgh, Pa. A plate on the car reveals its name as the Pontiac and its manufacturer as the Pontiac Motor Vehicle Company, Pontiac, Mich., a firm that cropped into the picture about 1904 and then dropped out after building only fifty or sixty cars.
