Give Your Child a Chance

It isn't right to let a child toil under the handicap of defective eyesight. Poor eyes make backward children. They not only affect their work, but their nerves as well and health as well.

Wisely, our educators do not consider glasses on children a "crime," knowing that the duller child may be one of the brightest with the help of properly fitted eyeglasses.

For a limited time we will allow a 10 per cent discount to all persons who present this advertisement.
