**Give Your Child
a Chance**

It isn't right to let a child toil under the handicap of defective eyesight. Poor eyes make backward children. They not only affect their work, but their nerves as well and health as well. Wisely, our educators do not consider glasses on children a "crime," knowing that the duller child may be one of the brightest with the help of properly fitted eyeglasses. For a limited time we will allow a 10 per cent discount to all persons who present this advertisement.

EARL H. MONK Succeeds At Last
IN OBTAINING
THE ECXLUSIVE AGENCY FOR THE FAMOUS
BREMER-TULLY
RADIO

Earl has been trying for the past year to get the agency for this unusual radio which, in the opinion of experts, is the finest instrument in the American Radio field today. A year ago Mr. Monk felt that it would be a simple matter to get the Bremer-Tully agency as it was to get the agency for other makes of radios sold locally. On this supposition he sold two Bremer-Tully machines and entered orders for them.

The demand for this unusual instrument was so great and the manufacturers so oversold that the company was very selective in choosing its agencies. It was, therefore, not until after a thorough investigation of his equipment and and ability to give service that Mr. Monk was given the exclusive rights in the local territory.

Three weeks ago after a special trip to Ithaca, N. Y., and through the special effort of Arthur Treman of Treman-King & Co., Mr. Monk was appointed local agent.

**See the New
BREMER-TULLY
Before You Buy**

Once you listen to its magnificent, "hum-less" tone . . . once experience the thrill of its distance-getting ability . . . once discover its hair's breadth station separation—you will never be satisfied with any other radio. And it's so easy to own one under the convenient terms of the unusually attractive Bremer-Tully partial payment purchase plan.

SPECIAL SERVICE FEATURE

Beside being one of the finest, most reliable instrument in the field, Bremer-Tully maintains the finest radio service in the world. All agencies are especially equipped with extra service chassis. A short circuit or any other trouble that might arise from outside difficulties is quickly overcome. At no time need a Bremer-Tully owner be more than thirty minutes without the use of his radio.
