slipping down chimneys with a pack on his back to fill the stockings which hung from the mantel of the open fireplace, was given its present fixed form by Clement C. Moore, whose poem beginning "Twas the Night Before Christmas," was written nearly a hundred years ago. Mr. Moore did not call him Santa Claus but entitled his poem, "A Visit From St. Nicholas." **Origin of St. Nicholas**
Who was the real Saint Nicholas? Why is he associated with the giving of presents to children?
Nobody knows very much about him. Like some of the other leaders of the early Christians, a mass of legend and myth has grown up about his name, but the records are strangely silent.

All that is known definitely is that he was the Bishop of Myra, a town in Asia Minor, about three hundred years after Christ. Nobody knows how the legends about him started, but he was held in such high esteem that within a century or two after his death thousands of churches were named for him. In England alone there were at one time a thousand churches of St. Nicholas, and he was established as the patron saint of all Russia away back in the Middle Ages. Pictures of St. Nicholas usually show him standing in a tub with three boys. The legend back of this is that he miraculously restored to life three youths who had been killed by an innkeeper and their dismembered bodies packed in a salt tub. But the story of St. Nicholas which associates his name with secret gifts is that he learned of a poor man with three daughters, who were unable to get husbands because they had no dowries. Their father was planning to kill the daughters and himself when St. Nicholas slipped into their cottage by night and filled the stockings of the daughters with gold!

St. Nicholas Day is December 6th, and for a thousand years the Eve of St. Nicholas, December 5, was the date for filling the stockings. Christmas was not fixed on December 25 until the Christian church was nearly five hundred years old. In some parts of the church it was celebrated on January 6th, elsewhere on March 25th. There is, of course, no record of the date of the birth of the Savior. But the Angels, the ancient German people whose blood and traditions still rule the English-speaking world as well as the German, had a pagan festival of December 25, "Modranacht" or Mothers' Night, when their New Year began, and in the course of centuries that festival came to be celebrated as the anniversary of the greatest event in the life of the greatest Mother of all time, Mary, the Mother of Jesus.

Christmas was still, however, dis-the children had their innings, until the sixteenth century. On St. Nicholas Day it was the custom to elect a boy bishop, who appointed other boys to the offices of the church, and the youngsters ruled their towns (since in those days the church dominated everything) until Holy Innocents Day, December 28. In some parts of Ger-

many the boy bishop ceremony persisted until 1799. But in England Henry VIII abolished it in 1542. Queen Mary restored it in 1552 and Elizabeth abolished it finally a few years later. The festivities which had been a part of St. Nicholas Day then began to be transferred to Christmas, though there was a time when ever Christmas, though there was a time when even Christmas celebrations were forbidden in England. That was in 1644, when Cromwell's Puritan Parliament passed an act forbidding any merriment or religious services at Christmas on the ground that it was a heathen festival! This feeling against Christmas persisted among the Puritan settlers of New England down to the nineteenth century.

The exchanging of gifts by grown-ups on Christmas Day is a very modern idea indeed. And children today know where their presents come from; tinctly a religious festival. St. Nicholas Day remained the day when they no longer believe in the good St. Niklaas, who fills their stockings secretly by night. Perhaps the world was happier when Christmas giving was less of an obligation and more of a joy and the little ones still believed in fairies and Santa Claus.
