ASKS NEW QUESTION
TODAY**

TODAY'S QUESTION IS—
"DO YOU BELIEVE A
GIRL SHOULD KISS A
MAN BEFORE SHE IS
ENGAGED?"
PLACE ASKED— ON
MAIN STREET IN FRONT
OF THE FIRE HOUSE.
ANSWERS— ON RIGHT

I'M THE INQUIRING REPORTER
FROM THE DAILY BUZZ—
MY QUESTION TODAY IS—
"DO YOU BELIEVE A GIRL
SHOULD KISS A MAN BE-
FORE SHE IS ENGAGED?"

YES, I THINK IT'S ALL
RIGHT, PROVIDED SHE'S
KNOWN HIM FOR A
DAY OR SO— A
LITTLE KISS DON'T DO
NO HARM AN' IT ADDS
A LITTLE SPICE TO
THE EVENING

MY WIFE SAYS
SHE NEVER KISSED
ANYONE TILL SHE
WAS ENGAGED TO
ME, BUT SHE AIN'T
NEVER SAID HOW
MANY SHE'S KISSED
SINCE THEN!

NO, I DON'T BELIEVE
A GIRL SHOULD—
ESPECIALLY IF A MAN
HAS A MUSSTASH—
YA NEVER CAN TELL
WHAT YOUR GONNA
GET THESE DAYS

**DRY WEATHER ADDS
TO SNAKE MENACE**

Doctor J. Bruce McCreary, deputy secretary of health, today asserted that the hazard of bites from rattlesnakes and copperheads has increased because of the extreme hot spell. "These snakes which usually remain in the depths of forests and mountains are coming to lower levels because of the drying up of local water supplies in their immediate locality," said Dr. McCreary. "While there is no desire to convey the impression that it is hazardous for this reason to be in the woods or near streams, it is suggested that tourists and hikers be on the alert for a possible meeting with a venomous reptile. While even with the present dry weather such a meeting is not very probable, it is nevertheless wise to be on one's guard."

Many Co-Operate In Road Planting

Seventeen organizations and individuals took advantage of the roadside beautification policy of the State Department of Highways, during the Spring planting season which has just ended, and furnished plants that were planted and will be maintained by the State Department of Highways, the department forester this week announced. Plants thus donated are valued at more than \$6,000. The largest planting was carried out in co-operation with the Westmoreland County Garden club along the Lincoln Highway on the western entrance to the city of Greensburg. This planting included shade and ornamental trees, shrubs and vines valued at \$1,332. These plants were set out to prevent erosion and to cover roadside bare areas, for screens to shut off the view of unsightly junk yards and dilapidated buildings and for ornamentation.
