IT'S THE CLIMATE

Strawberry shortcake is good at this season of the year, but huckleberries and cream make a good dish, too. Mrs. Louise Sutton of Parish Heights picked a bush of the berries up on "The Heights" last Friday so that her whole family had them for supper that night. Now, that we've found traces of strawberries and huckleberries in Dallas and Shavertown this fall, let's hear from somebody who has watermelons in his back yard or knows where there are chestnuts.

le was attended by Mr. and Mrs. Ralph Naugle, while Mr. and Mrs. Alfred Bronson acted as ushers. The bride was attired in a gown of transparent velvet with hat to match. Her attendant also wore brown velvet. Mrs. Carola Graham played the wedding march from Lohengren. During the ceremony she played "To a Rosebud."

The double ring ceremony was used and was performed by Rev. Frank Hartman of Kulpmont, an uncle of the bride.

Mrs. Davenport is the daughter of Mr. and Mrs. Torrence Naugle and is a graduate of Nanticoke high school, and an accomplished musician. The bridegroom, who is the son of Mr. and Mrs. D. E. Davenport, is a graduate of Kingston high school and Columbia college of Pharmacy and is at present employed in the Evans' Pharmacy at West Pittston. Shortly after the ceremony the young couple left for a wedding trip through the South. Upon their return they will reside at West Pittston.

MAKE BASS CATCHES

An officer on duty along the Rays-town branch of the Juanita reported better bass fishing than at any time in his experience.

ARREST DAIRYMEN WHO WATER MILK

Eight dairymen supplying milk to a receiving station in the northwestern part of the commonwealth, were prosecuted recently for delivering watered milk.

Pure food agents of the bureau of foods and chemistry, Pennsylvania Department of Agriculture, discovered that these farmers were delivering milk to which considerable water had been added. In addition, it was found that some of the milk had been skimmed. Thus, besides being adulterated, the product was deficient in butterfat and milk solids. The farmers involved were promptly arrested, plead guilty and paid the fine fixed by law.

"The State will continue to keep a watch on the activities of the prosecuted persons," Dr. James W. Kellogg, director of the bureau, asserted. "Everything possible is being done to protect the public against the sale of adulterated dairy products. A thorough check-up is being made on the deliveries of milk to dairy plants as well as the quality of milk distributed from such plants."

RADIO TOPICS

Radio is, this month, 65 years of age, according to those historians who date its birth from the conception of the idea of radio transmission first promulgated by James Clark Maxwell, in 1865. This was not proved until 22 years later when Heinrich Hertz, in 1887, showed the existence of electrical waves in the ether. In 1894, Marconi adapted a device of Hertz's so that it became the first instrument capable of transmitting and receiving radio impulses. This was the wireless.

Without this primary work and that of Emil Berliner's invention of the microphone for telephone conversation in 1877, we should not enjoy the fine variety of musical programs, talks, and plays that are poured into the air for our pleasure.

Joe White, who is the Silver Masked Tenor of NBC, was on the verge of singing "You're the Sweetest Girl in the World" on the afternoon of June 22, when the program was interrupted to read an announcement concerning the birth of Col. Charles A. Lindbergh's son.

"Make it the 'sweetest boy in the world' and we'll dedicate the number to the new baby," whispered the singer to Milt Cross, his announcer. "Brad" Reynolds, tenor of the

"Roundtowners" quartet over CBS, abandoned a medical course in college to become a singer. He left home in St. Joseph, Mo., and arrived in New York with \$9 in cash and an ambition to become a great concert artist. The ambition never left him, although the \$9 did, and he washed dishes in a Bowers restaurant for quite a while to eat. Finally he got a start singing in a church in Jersey City. Today he is considered one of the finest young lyric tenors on the air.

Possibly the World's Softest Job is that of the page boys in the NBC building who stand at the elevator signal buttons on each floor and push the button for those who wish to ride. The nattily-dressed page on the top floor has the easiest task of all. He has only one button to push—down.

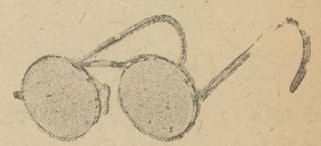

The call letters of station WGHP, Detroit, have been changed to WXYZ. Thus the Columbia chain will start and finish the alphabet. WABC being the New York Key station. Radio comic strip artists who commonly use WXYZ as a fictitious number will be forced to find a new combination of letters.
