Mr. and Mrs. Henry Shaver of Plymouth spent the day Wednesday with Mr. and Mrs. Eston Adelman, Parrish Heights.

**Wyoming County Politics**

**BRUNGES For Representative**

Whether this or that candidate's friends talk for or against him as being back of this or that project in which the voters are interested in order to promote victory for their choice of the candidates for Representative, the voters, as a class, in this day of progress and enlightenment, use their heads and at the polls are governed by their better judgment in casting their ballots for or against candidates seeking the people's support.

When articles are prepared and publicly heralded through the press, someone at least, must be moved by a reason for so doing, and, naturally it is for the people to read. And if the candidate in whose behalf an article is published, does not disclaim it, the candidate, Charles L. Terry, as well as Ye Editor of the Nicholson Examiner, as per statement therein of two weeks ago shows, it would seem, are practicing the same principle which, in the article named, charges Brunges as practicing and which also Ye Editor of Ye Examiner has styled as "ALL BOSH," or untrue as applied to Terry, of whom many are speaking as Nicholson's candidate, and as such, charges Mr. Brunges as saying that Terry is interested particularly in certain road construction from which the Nicholson section people of the county would profit more than any other people as a class throughout the entire rest of the county.

All such dope whether true or untrue is always more or less indulged in, as everybody knows, by candidates and their friends also who exercise their rights to use all honorable means to arouse correct public sentiment as to what this or that candidate will most likely do, or how he stands relative to this or that project when exalted to position whereby he may try to help solve the many problems with which the Representative is confronted during his term of office.

Everybody knowing Percy H. Brunges well realizes the high type of citizen he is and that as the People's Candidate for Representative, he can be depended upon to do the right thing.

at all times on all questions in which the people of this entire county, irrespective of class, creed or party affiliation are or shall be interested, when sent to Harrisburg, as now seems a certainty, unless public sentiment materially changes between now and election time, Tuesday, November 4th, 1930.

It is becoming more and more apparent among the people that trying to get votes by heralding that because a man or woman may have enrolled as a Democrat or as a Republican, is not in and of itself sound argument why a person should receive support in seeking office; and Wyoming County Voters have repeatedly demonstrated this as a fact by their voting expressions in past elections.

What the people do want are men and women in office who know their duty, honest and courageous enough to do their duty.

Without disparagement to anyone, it is admitted that Mr. Brunges has stood unflinchingly four square, before and since the Primaries, facing every issue on which he has been interrogated.

We are also advised that one reason for Terry's large home vote at the Primaries was because Nicholson people were especially interested in having a new concrete road constructed between Nicholson and Springville. Whether or not this is true we do not know.

Brunges is centrally located in the county, being a farmer, resident of Eaton Township, and naturally will work hard for good roads for the people all over the county and this he has pledged himself to do. And, by virtue of his home location and dependability as a man, the people can and will judge for themselves as to their interests as a whole in their road problem solutions in so far as their Representative is able to make himself responsible for the same.

Percy H. Brunges, ex-County Chairman of the Republican Party of this county, is the Democratic nominee for Representative.

And not because he either is or is not of this or that political faith he is

asking the support of the people who are now rallying to give him their aid as the Farmers, Grangers, and People's choice for their Representative, but rather because he has been nominated therefor and merits the people's confidence.

These are some of the reasons why this county should, and we believe will, honor itself in sending Mr. Brunges to the coming session of our Legislature.

The Brunges Campaign Committee.
