

Dear Cousin Leroy:  
Here am I answering your letter. In school the other day the teacher asked me which traveled faster heat or cold - and I said I guessed heat did - for

② you can catch cold. Mom has a new hair wave - I just happened to think how funny it is - Mom's hair is all waves and Dad is all beach. Reddy Murphy is awful lazy. He's going to try to get a job as caddy in a miniature golf course.

③ I was arguing with Reddy today - and I bet him five cents that my Dad could lick his Pop in ten minutes. When I got home I asked Dad if he would hold open Saturday at stage the fight. But he said I ought to be glad that he didn't give me a licking for talking that way. Which I was - As B 4 - Pinky

**The BEST Gray Hair Remedy is Home Made**

To half pint of water add one ounce bay rum, a small box of Barbo Compound and one-fourth ounce of glycerine. Any druggist can put this up or you can mix it at home at very little cost. Apply to the hair twice a week until the desired shade is obtained. It will gradually darken streaked, faded or gray hair and make it soft and glossy. Barbo will not color the scalp, is not sticky or greasy and does not rub off.

**2 Meals Day, Plenty Water Helps Stomach**

"Since I drink plenty water, eat 2 good meals a day and take Adlerika now and then, I've had no trouble with my stomach."—C. DeForrest.

Unlike other medicine, Adlerika acts on BOTH upper and lower bowel, removing poisonous waste which caused gas and other stomach trouble. Just ONE spoonful relieves gas, sour stomach and sick headache. Let Adlerika give your stomach and bowels a REAL cleaning and see how good you feel!

**FRUITS THAT ARE FRUITFUL**

HOUSEWIVES are more and more demanding to know what value they are receiving for the money they spend. They are looking for labels on food just as they look for labels on clothes. And every now and then the spotlight swings around and casts its illumination on a well-known object, showing it up as something vital to our welfare. Right now, the spot-light is on fruit.

America is a fruit-loving nation, and no longer are we content to have our fruit only when it is in season, or to have only the kind of fruit that grows in our neighboring orchards. If we live in Maine in the winter we are apt to want the kind of oranges that grow in California in the summer; if we live in the Southeast, we want apples from the Northwest.

This demand is due, somewhat to modern transportation, and also to the fact that canneries have made it possible for us to have sun-ripened fruit from anywhere at any time. Even those people who say, "Oh, I prefer fresh fruit to canned fruit," will admit that they prefer good sun-ripened canned fruit to worthless fresh fruit which has been picked green and ripened in transit or in warehouses.

**Pampered Pineapple**

Take pineapple, for instance. Over in Hawaii, they pamper pineapples. They provide them with the finest soil conditions and nurse them to perfect maturity. The pineapples refuse to be hurried—they just grow lazily along in the tropical sunshine. Those pineapples that are picked green to be sent north as fresh fruit have been denied their birthright—long weeks of sunshine and sea air. Also, pineapples refuse to be shipped when they are fully ripe—they bruise easily and become too ripe before they reach their far destinations.

So the canner has solved the pineapple problem by building the

cannery right on the scene of action. The very moment when the particular pineapple has reached its stage of full sun-warmed maturity it is quickly picked and packed into cans, so that it comes to us with full quota of flavor and food value, and even its sun-glow color.

Other fruits are canned in the same manner. You can even get good orange juice in cans now—the juice of sun-ripened oranges. This, like canned grape-fruit juice, is still somewhat new to many people who buy canned peaches, pears and other fruits regularly. Yet people who try these juices like them, and they like also, the convenience of having them ready-squeezed and strained.

**These Are Sun-Ripened Fruits**

For the convenience of many housewives who do not have at hand the list of fruits available in cans, the following list is printed, with the suggestion that you post it on your kitchen bulletin board and try some of the more unusual delicacies available, as well as the tried-and-true ones:

The following recipes combine several canned fruits in new delicious dishes:

**Apricots and Figs in Casserole:** Drain one 8-ounce can of apricots and one 8-ounce can of figs. Place in a buttered casserole. Make a roux of one teaspoon of butter and one tablespoon flour and then thin with the juice of one lemon. Add the fruit juices and pour over the fruit. Bake in a hot oven, 400 degrees, for thirty minutes. Serve either warm or cold as a compote. This serves six persons.

**Scandinavian Prune Pudding:** Remove stones from a No. 3 can of prunes, cut in pieces and return to the syrup. Add one-third cup sugar, one-fourth teaspoon clove, one-fourth teaspoon cinnamon and simmer for five minutes. Mix one-third cup cornstarch with one-half cup orange juice, add to the hot mixture and cook in a double boiler, stirring constantly until the mixture is thick and smooth. Cool slightly, add one-half cup chopped nuts and fold in the stiffly-beaten whites of two eggs. Pour into wet molds and chill. Serve with whipped cream or custard sauce. This serves eight persons.
