I Respectfully Solicit Your Vote For Justice of the Peace of Kingston Township RAYMOND A FINNEY

A WORD TO THE VOTERS OF DALLAS TOWNSHIP

It was only after many requests from friends and neighbors that I agreed to announce my candidacy for the office of SCHOOL

I am not a politician and never before have I aspired to any public office. I did not on my own accord seek this position. However, now that I am in the race, I am in to the finish. I am making no promises, but if elected, will do everything possible towards the reduction of expenses which should result in lower

SCHOOL TAXES IN THIS TOWNSHIP ARE GETTING TO BE A BURDEN. The school taxes assessed in 1931 are entirely too high, and in my mind, unreasonable. I am anxious to know where and how this money is being spent, and if elected, the voters shall also know.

The Federal Government up to the last year or two has been able to reduce personal income tax, but in our township it appears that all taxes are getting heavier each year, and I further believe that if an earnest and efficient effort was made, taxes could be re-

I am also in favor of and if elected, would insist on the employment of our home people as teachers, when any such applicant met the required qualifications for such position.

Where Gerlach Stands

William D. Gerlach, candidate for the Republican nomination for County Commissioner, says:

I stand with those thousands of Republicans and taxpayers who want control of our court house offices taken out of the hands of the Kehoes, the Langans and the Fines.

I stand for the same reduction in valuation for homeowners that was received by the coal companies—35 per cent. What's sauce for the rich man's goose should be sauce for the poor man's gander.

I am firmly convinced that the present board of commissioners is wasting \$300,000 a year on the roads and bridges of the county in an effort to find jobs for the "soldiers" who follow the flag of the Pittston booze machine.

In my end of the county no decent property owner can secure a job on the county roads. The booze and slot machine politicians of Hazleton fill them with their followers. Investigate the county roads in your section and see what is going on.

Go to the court house and look over the collection of so-called road engineers Commissioner McGuffie's man Jimmy Langan has on the payroll. There are thirty of them at an expense of \$90,000 a year to the taxpayers, and Luzerne county is not building one bridge or one foot of new highways.

I cannot do the work required alone. Give me Stanley M. Yetter for a partner and I assure you the soft snaps MacGuffie is providing for the tribe of Langans and Kehoes will be wiped off the county payroll.
