rect, direct frontage on the county talk about it in a great democracy highway is available. The two plots have been quoted at about the same price.

As a citizen of this township having no personal favoritism for either plot, I can't see two cents worth of difference between the two, as places for a school. One is back from the road and hence cannot be readily seen by passing motorists. But on the other hand it isn't a bad idea to protect school children from passing motorists. One lies east and west, straight up the hill, but on the other hand here is a problem of situation out of which a competent architect can make an imposing feature. A person can visualize a fine looking and efficient school on either site.

But the main feature is that this weighing of qualities of respective sites is likely to go on for years. The board took action to buy the Shaver plot. Property holders and real estate promoters in the neighborhood of the Holcomb plot backed injunction proceedings. The chances are the case will have to lie over until the March term of court. Then if finally the Board rescinds its resolution to buy the Shaver plot, and instead of that moves to buy the Holcomb plot, there is sure to be reprisal in the form of a counter injunction. The street car company will profit thereby, for at that time Kingston township children will have to start going to Wilkes-Barre high schools.

There is not enough difference between these two plots to justify this fight. Neither is ideal but neither is undesirable. The children of the township rather joyfully welcome the prospect of a school on either plot, just so they get a new school. The township is simply being riddled by a passion for being contrary.

I believe the plaintiff in this injunction case should withdraw his action. On the other hand I believe the owner of the Shaver plot should assure the Board that he will leave it free to continue or withdraw its proceedings of purchase without any fear of legal reprisal in either case. The Board members at their first December meeting should feel themselves free as independent and intelligent men to act on this question according to its merits, and go ahead fearlessly. In the meantime a binding obligation of great importance rests on every citizen of the township to take hands off the members of the Board, and let them act as men of good judgment elected to responsible positions. It isn't the easiest thing for people who know their own property will be raised in value by having the school in their neighborhood to get out of the obstructionist parade, but some things rate even above cash market values.

The people of Kingston township would be surprised at the extent to which childish temper and short-sighted self-interest has gone in this affair. The newly elected school director made a statement in his testimony in court which displays an immaturity of mind which he must quickly overcome if he is going to be any good in his job. Such bitterness has arisen that in one case a school director was threatened with loss of his job in consequence of his attitude, and in another case a friendly conversation over the telephone was arranged to secure from a director an unwitting statement of his position for the benefit of the opposing lawyers. This is the sort of thing that raises questions as to whether or not democratic self-government by the rule of the majority can ever be a success.

Yours truly,
G. E. Ruff.

HIGH SCHOOL FOOTBALL

TEAM HAD GOOD SEASON

Coach Walter Hick's Kingston township high school warriors went through a fairly successful football season, considering the odds against them. In the first place there were never more than twenty candidates to select from. It was the first year that football had been played by many of the players composing the team with the exception of Holmgren who had some experience at G. A. R. high school.

The season closed last Thursday when Kingston township journeyed to Ashley and went down to defeat 41 to 6. The lone touchdown coming when Joe Platt ran the ball back on the kickoff from his own twenty yard line crossing a few yards in front of a Ashley man.

Scores of the seasons games follow:

Opponents	KTHS
Dallas Borough	0 25
Wyoming	75 6
Forty Fort	26 2
West Pittston	0 0
Duryea	54 0
Exeter	27 0
Lehman	6 14
Ashley	41 6

RURAL LEAGUE WILL OPEN SEASON

That the basket ball fans of Trucksville, Shavertown, Dallas, Lehman, Laketon and Orange are in for some real basket ball was revealed last Saturday night when managers representing the above teams met at H. S. Van Cappen's store and completed plans.

The league this year will consist of six teams instead of the four that finished a successful season last year. At the meeting last week those present were: James Goodwin, Trucksville; Herm Van Campen, Shavertown; D. L. Dingle, Lehman; Jack Roberts, Dallas; Don Hislop, Orange. Harry Allen was unable to be present at the meeting but in a telephone conversation assured the other managers that Laketon would be represented in the League.

Dallas, Trucksville and Shavertown basket-ball teams will use Meridian Hall, Dallas on alternate Monday nights, while Orange will play its games on Saturday night. Lehman will play on its own floor Tuesday nights and Laketon will use its high school gymnasium on Friday nights. With the opening games starting shortly and with the Meridians playing first class teams every Wednesday night, rural basketball lovers are assured plenty of good basket ball during the winter months.

PRUNE APPLE TREES COUNTY AGENT URGES

Luzerne County apple growers can take advantage of favorable late fall weather by pruning their trees, says County Agent J. D. Hutchison.

In accordance with recommendations of the past few seasons, extension fruit specialist of State College are again urging slight pruning each year rather than heavy slashing at longer intervals.

Fall pruning is just as desirable, from a practical standpoint, as late winter or early spring pruning, provided the trees have gone fully into dormancy.

If judicious pruning has been practiced in the past, large cuts will not be necessary. However, if large cuts have to be made, it is advisable to apply some good building paint to the wounds, or special preparations manufactured for this purpose may be used.

of the year is not recommended, Mr. Hutchison explains, because of the severity of winter weather conditions. An extremely cold wave may kill the peach buds and in that case the pruning would have to be done again or modified in the spring.

The following pruning demonstrations have been scheduled for next week:—

- Monday, December 7th, 9:30 a. m., Ira Frantz, Centerville.
- Monday, December 7th, 1:30 p. m., George Lewis, Lehman.
- Tuesday, December 8th, 9:00 a. m., Walp & Abrams, Berwick.
- Tuesday, December 8th, 1:30 p. m., Edward Vosler, Muhlenburg.
- Wednesday, December 9th, 9:00 a. m., Herman Kauffman, Drums.
- Wednesday, December 9th, 1:30 p. m., Willis Knolly, Black Creek.
