Apartment size—a really remarkable value in one of the most popular pianos of the day. Easy Terms. All other pianos in our store are reduced 25 per cent to 50 per cent for our 27th anniversary and Christmas sale—and on your own terms.

The injunction was secured through Attorney Jenkins, Turner and Jenkins, by J. E. Newhart, school director elect.

CONTINUES FIGHT TO KEEP STREAMS FREE OF WASTE

(Continued From Page 1)
 contact with the tanneries of the State.

"Constant study, constant experimentation and constant development of improved facilities for conducting the work, mark the activities of both tanners and engineers. A plan is believed to be good—it is tried—it is improved upon—then it is either adopted or cast aside for something that promises greater efficiency. That—in brief—is the continued story of this big job.

"An outline of progress compiled from the last reports of Engineer Milligan, touching upon the activities of a dozen tanneries in the State, in the matter of improving processes, shows the following:

Reviews Work

"The J. K. Mosser Leather Company, Noxen, has deepened its receiving basins, installed a triple effect vacuum evaporator, and a chain pump for the removal of the sludge. This plant will soon submit plans for a complete treatment works, to the Sanitary Water Board for its approval.

"The J. G. Curtis Leather Company, Luflow, is using a small experimental treatment works, as installed by the Tannery Waste Committee, and it is working successfully. The Eberle Tanning Company, Westfield, is changing the working plans of its treating equipment, and the new system will be ready for trial in the near future.

"The Elk Tanning Company, with plants at Coudersport and East Stroudsburg, has recently altered its waste system operating at the suggestion of Milligan, with improved results. But since it does not yet reach the standard set by the Commonwealth, additional data will be gathered for further recommendation as to improvement.

"The Elkland Leather Company, Elkland, have eight tanks, with a total capacity of 134,000 gallons about half completed. The piping and other necessary work in connection with the tanks, is about 80 per cent done.

"The International Shoe Company, Mount Jewett, has almost completed the alternation of its sedimentation basins. A 150,000 gallon storage la-

goon is about 90 per cent finished. When in use its contents will be allowed to thicken, and then hauled to neighboring farms, thus keeping it out of the stream altogether.

Constant Tests

"The Kistler Leather Company, Lock Haven, is having the efficiency of its treatment work checked by constant laboratory tests. From these tests, information is gained, to be used in still further improving its facilities, in the elimination of objectionable features from its wastes.

"The Millville Tanning Corporation, Millville, is so successfully working its waste treatment system, that there is now no discoloration visible in Fishing Creek, into which it empties its waters. This plant has also secured co-operation from the Bloomsburg Water Company who are prepared to make telegraphic reports of any evidence of pollution coming from the tannery at Millville.

"The Elk Tanning Company, Emporium, re-opened its plant in August after a long shut down. They changed the type of their product and speeded up to full capacity. Their method of caring for the waste was inadequate for so large an output, and stream pollution resulted, with some killing of fish. Operations have been reduced to about half, and the situation is improved. The treatment will be made more effective, and there should be no recurrence of fish killing in Sinnema-honing Creek.

"The Pine Grove Tanning Company, Pine Grove, is discharging its waste directly into Swatara Creek, without treatment, but the stream is so fouled with mine waters, that its effect on the condition of the stream is obscured."

STATE COLLEGE ALUMNI WILL HOLD SMOKER

The Alumni of the Pennsylvania State College will hold a smoker and get-together in the Hotel Sterling, Wednesday, December 9th at 8:00 p. m.

A program of general activity for the Alumni of Luzerne County will be discussed at this meeting, and also in addition, there will be a talk by E. K. Hibsham, General Secretary of the Alumni Association.

All alumni and former students of the Pennsylvania State College are invited to attend.

TIOGA GAS TO BE PIPED TO SYRACUSE

(Continued From Page 1.)

Pittsburg will throw their Tioga properties into a holding company called Lycoming United Natural Gas Corporation. It is understood that Standard Oil will dominate the field by ownership of fifty per cent of Lycoming United stock, followed by thirty per cent for Columbia Gas, twenty per cent for Benedum-Trees. The market Lycoming United will serve is the Syracuse area, active industrial district directly north of Tioga, where there is a potential annual demand for 10 billion cubic feet (Buffalo, second biggest city in New York, has had natural gas service for several years from the Wayne-Dundee field in the western part of the State. New York City is still without any natural gas connections.)

Sponsors of Lycoming United were dickering last week for a contract with Mohawk Hudson Power Corporation subsidiary of Niagara Hudson Power, to bring Tioga gas to the Syracuse city limits. Here it would be mixed with manufactured gas before delivery. Natural gas has a higher heat value than manufactured gas, but is often disliked by housewives as it carbonizes more quickly, clogs stove burners, dirties pots and pans.

DALLAS ROTARY CLUB ENTERTAINS FREELAND

(Continued From Page 1)

greater Dallas section another fine musical organization of first rank and which will make a name for this region throughout Northeastern Pennsylvania.

The hunting season kept a few of the local club members away from the meeting as it did three of the Freeland members. Henry Sipple claimed the prize for the best hunting story saying that just two hours and twenty-five minutes after he left home a great buck fell before his keen marksman-ship.

Next Thursday night all members of the Greater Dallas Club will be the guests of their wives when the Woman of Rotary will entertain at their annual Christmas party at Colonial Tea room.

CARD PARTY NETS MILK FUND \$100

(Continued From Page 1.)

Prizes at cards were as follows: Five Hundred, score 2660, won by Cory Gordon who received a necklace given by Landau Brothers; Bridge score 3293, won by Beatrice Crisman, of Kingston who received a vacuum cleaner given by R. R. Church; Pinochle, score 688, won by Robert Challis who received a bathroom set given by Earl Monk.

The second prize at Bridge was won by Mrs. Katherine Beiler with a score of 3071. Mrs. Beiler selected 40 gallons of gasoline donated by Hi-Grade Gas and Oil company as her prize and in turn gave it back to the club to be auctioned off to the highest bidder. A. N. Garinger bought the gas for \$5.25. V. A. Shindal who likewise won 15 gallons of gasoline donated by J. F. Besecker as a Bridge prize, auctioned it to Mr. Garinger for \$2.00. Proceeds of the auction being returned to the club.

D. A. Hontz won a quart of milk a day, donated by A. N. Garinger as a prize. Mr. Hontz gave the prize to the Parent-Teacher association for use of Undernourished children.

In addition to donations listed last week, Planters Nut & chocolate Co., and Alex Sheppard Company donated the peanuts and coffee, and Mr. Walter Elston of Kunkle donated the cream for coffee.

There were 50 prizes given to the highest scorers.

Members of the Club wish to thank all who helped to make the affair a success by their attendance as well as the merchants who contributed so generously.

-Huntsville-

HUNTSVILLE CHRISTIAN CHURCH

This is a busy week at Huntsville. The teachers and officers of the Sunday School met on Wednesday night with Rev. P. A. Davis as their speaker. The Aid and Missionary Society met Thursday and the adult classes meet tonight. At the Sunday service at 9:30 the pastor will anticipate Christmas speaking on the theme, "There's a Song in the Air." Bible School follows the morning service.

The Reason Why!

Some people buy their foods in A&P Stores for reasons of economy. Others buy there because they want assurance of high quality. All people who trade with A&P Stores are satisfied, because the great strength of A&P's organization is devoted to serving its patrons with
