Upon investigation I find that three fourths of the families in Alderson have friends or relatives in neighboring counties or states, and even foreign countries, who are subscribers to the Dallas Post. Naturally, these people are interested in their home town and the happenings therein. If the Alderson people would communicate with me when they have a family party, or something which would be of interest to out-of-state friends, I will gladly see that it is published with the Alderson items, and I am sure that the Editor will cooperate with me in making the Post a real friend to our out-of-town relatives. My telephone number is Harvey's Lake, 255, and I am always home.
