

MAKES PERSONAL SURVEY OF STATE SCHOOL PROBLEMS

(Continued from Page 1.)
 on Saturday, April 9. On April 23 he will be at Kutztown and at Slippery Rock on April 30. He met with schoolmen of the Millersville district on February 25 and the West Chester district on March 17.
 In his tour the State Superintendent is accomplishing a dual purpose, for, in addition to getting his first hand information on school conditions in every section he is able to tell local school officers just how the Department of Public Instruction can lend assistance to improvement of rural schools, particularly in such phases that were impossible of handling before. Dr. Rule also has opportunity to see where the teacher training resources of the various State Teachers' Colleges may be related as much as possible for ultimate improvement of instruction for farm boys and girls. He also indicated the need for equalized distribution of State subsidies as it is related to the poorer and to the wealthier districts.

PRIMARY BALLOT PLANS DRAWN

(Continued from Page 1.)
 coran, John J. Heffron, James A. Mangano.
 Fourth district, Republican — Leon P. Nalbach, John C. Hermansen, George T. Moss, Carl Horlacher, Bruno Kajorski. Democratic — Bruno Kajorski, John C. Hermansen, George T. Moss, Carl Horlacher, Leon P. Nalbach.
 Fifth district — No contests, Republican or Democratic.
 Sixth District, Republican — Clinton H. Roberts, Frank Tecoske, Wil-

lard G. Shortz. Democratic — Willard G. Shortz, Frank Tecoske, John Masel, Clinton H. Roberts.
 Seventh district, Republican — Emerson P. Jennings, M. W. McCarty, J. Gordon Mason, Anthony Love Lynch, James W. Brislin, James M. McLaughlin, Arthur A. Dunn, Benjamin Jones, John J. Devers, John F. Ruddy, Harry J. Hebel, Wendell H. Richards. Democratic — M. W. McCarty, Emerson P. Jennings, J. Gordon Mason, John J. Devers, James W. Brislin, James M. McLaughlin, John F. Ruddy, Anthony Love Lynch, Wendell H. Richards.

LEAGUE DAIRYMEN TO MEET AT SYRACUSE

The eleventh annual meeting of the Dairymen's League Cooperative Association Inc., will be held in the University Auditorium at Syracuse, New York, on June 16, 1932, according to official announcement following the regular March meeting of the board of directors. Urgent invitations were received from other cities of New York State.
 It is estimated that 4000 dairymen will attend this convention. Nearly 800 of these will be regularly elected delegates from the local associations scattered throughout the six states in which the 50,000 members of the Association are located.
 While the official business session of the convention will be held on June 16 the convention itself will occupy approximately three days. On June 15 there will be a morning, afternoon and evening program in the hands of organized women of the League. 500 women delegates will be present from all parts of the territory. June 14 will be given over to committee meetings, directors meetings and various preliminary work incident to the convention.

Casey Aspires To Seat In Congress

Son Of Late Congressman Enters Campaign For Democratic Nomination

A Democrat for a Democrat nomination; the repeal of the Eighteenth Amendment and the carrying on of the program of labor and other bills for which his father, the late Hon. John J. Casey, fought during his six terms of service as congressman, are the planks in the outstanding platform of Dr. John J. Casey, who is now campaigning for election as a successor to the great labor leader, who for six terms served in the House as representative from the twelfth district.
 Dr. John J. Casey is no novice in Washington. He spent nine years there with his father, four of these as private secretary, confidante and aide. As a result Dr. Casey made many intimate contacts with leaders of both Houses of Congress and acquired a knowledge of procedure only to be gained by years of service. Incidentally he helped frame and launch bills of import to labor and Wyoming Valley's coal industry. Congressman Casey sponsored the State Child Labor and Workmen's Compensation laws and forced passage of the Adamson act giving all railroads an eight hour work day. He was president of the Pennsylvania State Federation of Labor at the time of his death in May 1929.
 Dr. John J. Casey is a graduate of the local schools of his community and at college he won his degree of Dental Surgeon with honors. In following in his father's footsteps he will fight for a high tariff on imported anthracite coal, needed recognition of his district in the matter of federal buildings and facilities, and urges the employment of every means within the power of the government to relieve distress and correct the evils responsible therefore.

G. O. P. CANDIDATES

(Continued from Page 1.)
 being a descendant of Revolutionary stock and pioneers who lost their lives in the battle of Wyoming. She is the daughter of the late Col. Benjamin Dorrance, noted rose grower and horticulturist. Miss Dorrance maintains a country home at Huntsville, near Lehman and is highly respected among her neighbors in that rural section.
 She has been president of the Kingston school board for the last six years and has been a member of the old Dorrance and Consolidated school boards for many years. Miss Dorrance as a candidate for Republican State Committeewoman at the request of her close personal friend, General Edward Martin, Republican State Chairman. Friends acknowledge she is an enthusiastic campaigner.
 Campaigning in the Twentieth Senatorial District will not be a new experience for William H. Evans, candidate for Republican State Committeeman. Mr. Evans campaigned two years ago as an Independent and won by a nice majority over five opponents. He also interested himself in the campaign of friends and knows the county pretty well.
 He is one of the outstanding young citizens of the West Side, having taken part in almost every movement toward the civic betterment of Kingston.
 For the last nine years he has been Secretary of the Kingston School Board and recently he was honored by the business men of Kingston by being placed president of Kingston Business Men's Association.
 He is a member of Black Diamond Post 395, American Legion, of which he served one term as Adjutant; a member of I. O. O. F.; and a member of F. O. E.
 Mr. Evans is looked upon as a hard working campaigner.

HEAVIEST STORM IN YEARS SWEEPS REGION

(Continued From Page 1)
 tically snowed under at Alderson nec-

essitating the use of snow plows with double headers attached. A force of men worked all night Monday night to dig a path for the train which finally made its way back to Coxton yards late Tuesday.
 At Castle Inn motorists were blocked all night Monday by eight-foot drifts on the State highway.
 Condition of highways was such that all local schools were closed Monday and Tuesday.

65 H. P. ENGINE NEW BODY LINES FORD FEATURES

(Continued from Page 1.)
 are roomy and richly finished. Seats are of new style, designed for utmost comfort. Driver's seats in all closed cars are adjustable. A large ventilator is provided in the cowl.
 The instrument panel is oval with a rustless steel moulding. Inside sun visors fold out of the way when not in use.
 Many outstanding features are found in the chassis. These include a strong, rugged frame; newly designed, soft, flexible transverse cantilever springs; rubber-cushioned spring shackles and self-adjusting hydraulic double-acting shock absorbers and large brakes.
 The rear spring is mounted on perches back of the axle housing and is bowed out around the differential housing.
 The shape of the frame and design of the springs allow the body to be mounted close to the road, thus lowering the car's center of gravity and improving roadability and riding comfort.

Large Brakes Employed

The large mechanical four-wheel brakes have 18 1/2 square inches of braking surface. Brake drums are of cast alloy iron which tests show does not score easily.
 The steel-spoke wheels are 18 inches in diameter. Large hubs enclose the bolts which attach the wheel to the drum. There are 32 wheel-spokes, which are short, sharply pitched and electrically welded to the drop-center rim and hub shell, forming an unusually strong unit.
 Tires are 18x25 inches. Each tire is balanced to avoid "tramping" or vibration at higher speeds.

Body Insulated by Rubber

Rubber in the spring shackles and shock absorbers links not only insulates the frame and body from road shocks but also prevents mechanical friction and eliminates the need for lubrication at these points.
 A torque-tube drive is used. The tube transmits the driving thrust to a point well forward in the car and leaves the spring free to perform their function. Radius-rods keep the axles in alignment.
 The front axle is of "I" beam section, of chrome alloy steel for strength and toughness. The axle is sharply tilted to give great roadability and easy steering.

STATE RESTS IN KUMITIS CASE

(Continued from Page 1.)
 McGovern was permitted to ask her the question if she was the wife of Kumitis.
 When the question was asked the young woman remained pale and silent for almost a minute and then fell forward in a faint from her chair. After she was revived she was again asked the question and answered, "yes."
 "When, where and by whom were you married?" asked Assistant District Attorney Flannery. The young woman answered that she did not know, that there had been no formal marriage ceremony.
 Then a marriage certificate was produced showing that the witness and Kumitis had been married. It was signed by a Joseph Klimus, but there was nothing to show that he was a squire or clergyman, and the State police said they knew of no squire or clergyman of that name in this county.
 Questioned further the young woman said she believed the certificate was a legal marriage and that after she had received it she had lived with Kumitis as his wife. The question of a legal marriage was raised and was to be submitted to the court for a ruling during the afternoon but the commonwealth then decided to withdraw the young woman as a witness and the question remains undecided.
 Patrons and entertainers at Castle Inn who had been held up and robbed were called to the witness stand and identified watches and other articles taken from them by the robbers, but could not identify the defendants as one of those who entered with revolvers.
 County Detective John Dempsey, State Trooper Pope and City Detectives Burke and Oliver testified to arresting the defendants in the basement of a restaurant on East Market street, Wilkes-Barre, two days after the holdup, and what they found on them.

FORMER RESIDENT VISITS DALLAS

Thomas Higgins, former proprietor of Higgins College Inn, was a visitor in Dallas this week. Mr. Higgins says that his wife, who is spending the summer in Florida, is making a splendid recovery from her rheumatic condition and is in the best health she has been in eight years.

Beaumont Briefs

Mr. Harry Hunt, who has been sick for the past week was removed to the hospital on Friday morning. He is remaining there under observation.
 Mr. and Mrs. Thomas Roberts of Wilkes-Barre are rejoicing over the arrival of a baby boy. Mrs. Roberts was formerly Nellie Mac Dougall, of this place.
 Mr. Lorenzo Dymond is building a new silo.
 Mr. and Mrs. Edward Mac Dougall have purchased a new radio.
 Miss Erma Kelley, one of the Monroe Township teachers is spending Easter vacation with her parents at Blossburg.
