

THE DEVIL AT THE MIKE
(Continued from Page 2)

life-time's work. Our belongings had been levied upon for the rent. They had been sold for a dollar. The land-in. For instance a \$250.00 phonograph had been sold for a dollar. The landlord who commented this atrocity is a millionaire, the president of one of our large banks in W—

He did not need our belongings with which to buy food. He has plenty. We worked so hard. We prayed just as hard. In the last year we have worn out our Bible reading it. Mother and I. Working and praying. Last night we didn't pray. We both feel that God has deserted us. We who in better times, have contributed to welfare and public benefits. Now we are old, without a home. Everything gone. Where is the Almighty that he allows such conditions to exist?

H. J. S.

My friends these are trying times. I can see you and your wife battling those rough seas of adversity just as I see thousands of other brave souls watch the powerful and ruthless run rough shod over home and the sensi-

tive pride of the stability of our nation. What we must all do is to continue to affirm the presence of the Almighty and his eventual supremacy over the dark forces who continue in their material and bestial endeavors. "The Lord is your Shephard" and his attraction to your higher vibrations will attune you to all harmony. Personally I do not believe he is concerned with just how many chairs we possess, our fine brick a'back, or our other material possessions. There is a physical law of attraction whereby we possess the material. Physical values differ in various countries. Physical values taken from the earth and molded into various shapes, but with all God's free gift to man. But your faith, your soul, that indescribable "you" he is concerned with. Otherwise, you would not be privileged to make this life's journey into this world. This is what must become your concern. Remember, Christ had not a place to lay his head. His blanket was the night stars. His love for his fellowmen supplied food, shelter, warmth. May those vibrations of love consume you with forgiveness for your enemies and may you son again know prosperity.

—MR. FARMER—
Is it fair for you to expect to sell your produce, milk, etc., to your home merchants and then spend the cash with stores that send your money out of your community. Refuse to sell the home merchants your products and depend on those stores to buy them and see what happens—You would have no market! Think this over seriously. Patronize your old friends.
