Contract Let For Pike's Creek Road

Contracts for rebuilding the road between Pike's Creek and Noxen was let by the State Highway department on Saturday to the Union Paving Company of Philadelphia at a price of \$108,302. The distance to be rebuilt is 7.94 miles.

On August 5 the department of highway will open bids for the construction of 16,685 linear feet of macadam road in Noxen township and the construction of a reinforced concrete bridge forty-five feet long and one concrete box culvert. The distance covered by this contract will be from Lutes' Corners on the Tunkhannock-Dallas highway to the Main street of Noxen. The bridge will be built across a branch of Bowman's Creek.

BUY TWO TRACTS OF FOREST LAND

The total area of the Pennsylvania State Forests, now in excess of 1,500,000 acres, has been increased by the addition of some 6000 acres, comprising two tracts recently acquired in Clinton county by the Department of Forests and Waters.

The larger tract, known locally as the Adam Gotshall tract, embracing 5921 acres in Chapman and Leidy townships, is an interior holding in the Sprout and Susquehanna State Forests. Kettle creek a famous trout stream of northern Pennsylvania, lies to the north of this woodland, and the headwaters of Paddy's Run and Drury's Run lie to the south. This section, noted for its hunting and fishing is typical of the wild and mountainous Black Forest region of Pennsylvania. Many old tram roads, formerly used by lumbermen, traverse the area and make it accessible for sportsmen and campers.

The H. H. Fearon tract of 104 acres, acquired as a recent addition to the Sprout State Forest, is located in Beech Creek township. A new State Forest road which will traverse this area is now under construction. According to Alfred E. Rupp, chief of the bureau of lands, the new road will open an extensive territory for hunting and fishing.

SUPERIOR COURT DENIES APPEAL

(Continued from Page 1.) The case has received considerable attention throughout this region because of its unusual nature and because of the laxness of Kingston township school board in failing to carry compensation insurance on its employees.

SCHOOL SITE IS BOUGHT BY BOARD

(Continued from Page 1.) A value of \$7,850 was set. When Mr. Kaschenbach appealed from the decision of the viewers, the board considered the expense which would result from litigation, with the possibility of a court decision in Mr. Kaschenbach's favor, and it was considered wiser to accept his price of \$8,750 than to enter a court contest. Directors present were Herbert Hill, Joseph Schooley, Edwin F. Hay and G. Wilbur Nichols.

Sportsmen Wage War On Waterdog

Salamander Eats Spawn Kills Fish, Survey Proves

Fred Turpin of Dallas last year displayed a Susquehanna river salamander or hellbender which he killed near his cabin along the Susquehanna river at Falls. The animal created considerable interest in this vicinity among those who had never seen one before. Sportsmen in Lycoming county will make a determined drive against the salamander, or waterdog, in county streams.

Salamanders, have been found to be very detrimental to fish life. Not only with they eat spawn but larger fish also are killed by the ungainly creatures. A salamander opened recently was found to contain an eight-inch trout and the tails of five smaller fish.

Old fishermen who are familiar with Lycoming county waters believe that there is a very noticeable increase in waterdogs in recent years, and that they are a real menace to fish life.

H. J. Bressler, special fish warden in Lycoming county, has been issued a permit to organize the campaign against the salamanders, and the sportsmen will work under his directions in trying to reduce the number of waterdogs.

Dark, moonless nights are considered the best time in catching the creatures.

Uniforms and Trumpets

Rural mail carriers at the Dallas post office are now wearing attractive new blue-grey uniforms. Whether the uniforms increase the efficiency of the mail men or not is still somewhat of a question. They do, however, add to the picturesqueness of such fellows as Ad. Woolbert and Bill Corcoran. Commenting on the uniforms Ad. Woolbert says he has noticed for a long time that men with uniforms and trumpets have had an easy time collecting money from charitable Dallas folk. Ad says: "Keep this local business at home. The mail men are practicing with tambourines and trumpets and along with the added attraction of the new uniforms will soon be making their first official public appearance from door to door."

Firemen Meet At Shavertown

The local volunteer fire company held a regular meeting at the Van Campen storeroom Monday evening with twelve members present. Bills totaling \$25.68 were ordered paid.

Twenty-two new members were added to the rolls of the company by the committee in charge of the membership drive being conducted by the company. The team of Willard Garey and Scott Van Horn turned in 13 new members and the team composed of Welton Batey and Fisher turned in 9 new members, bringing the total membership of the company to 42. It is planned to enroll 150 members in the company so that the membership can carry on the running expense of the company which runs in the neighborhood of \$300 per year.

Chief Van Campen reported that the truck was in good running order.

Welton Batey was appointed financial secretary of the company by President Fisher to fill the unexpired term made vacant through the resignation of E. W. Platt. Mr. Batey will serve for the balance of the year.

Treasurer Van Horn reported the sum of \$119.38 in the treasury of the company. Receipts of the meeting were \$44.

On motion of Prater and seconded by Woolbert the company went on record to make payment on the blanket insurance policy for the protection of members who are injured while doing fire duty.

A committee consisting of Harry F. Goeringer as chairman, Willard Schwartz, A. George Prater, S. J. Woolbert, E. W. Platt, Welton Batey Charles Youngblood and Ralph Bertram were appointed to investigate the possibility of conducting the annual field day program. This committee will meet Friday night.

The Relief Association met following the meeting and adopted a resolution for the payment from the relief funds on the policy purchased for the fire company, thereby increasing the benefits for members of the company.

A committee consisting of Willard Garey, E. W. Platt and Andrew Fisher were appointed to make certain amendments to the by-laws of the Relief Association to conform with working conditions of the fire company.

PAYS IN PENNIES

When E. K. Conrad, Scranton, distributor of Packard cars, delivered a used Packard car to a customer recently he had to call for the services of a truck to carry the money back to his office. The customer presented a big wooden box containing \$500 in pennies. The coins were wrapped in 1000 packages of 50 each and the full box weighed 300 pounds. The purchaser of the car said he had been saving his pennies for years to buy a Packard.
