Centremoreland

After a very successful term, our schools, with Miss Hannetta Weaver and Mrs. Lolita V. Gregory as teachers, closed today.

C. M. Gay and family of Dallas spent Sunday at the home of C. S. Besteder.

Mrs. Verna Gay is still a patient in the Wilkes-Barre General hospital, her many friends are wishing her a speedy recovery.

D. C. Smith and Mr. and Mrs. Stanley Van Scoy attended the Pomona Grange at Laceyville last Wednesday.

Mr. Otto Harsdorf is planting several hundred spruce trees on his farm.

Lawrence Munyon met with quite a severe accident last week in an automobile crash when riding with Jack Dymond of Lockville.

A number of men from this vicinity are working on the Sugar Hollow road.

The pupils of this district who took the eighth grade examination at Beaumont last week passed with one exception, it certainly speaks well for our teachers, with 19 taking the test.

Gustave Erligott has moved on James Winters' farm.

Much sympathy is extended to Mr. and Mrs. Ellis Weaver in the loss of their four year old son, little Bobby was a bright lovable child, he had been sick about six months with heart trouble. The funeral was held from the home with a large attendance.

CENTERMORELAND M. E. CHURCH

Services for next Sunday are as follows: Sunday School at Centremoreland at 10:00 A. M., followed by the preaching service at 11:00 with sermon by the pastor. Preaching service at Lockville at 7:45 P. M. This Sunday is Mother's Day. Let us honor our mothers with our presence in the house of the Lord.

Who Said Milkmen Have Dull Jobs?

Familiar Wagon Recognized As An American Institution

Dictatorships, or Utopia, may or may not come, but the old familiar horse-drawn milk wagon seems rooted forever in the American tradition, according to a recently conducted survey of the milk industry.

The milkwagon horse is to remain with us because the automobile can never become intelligent enough to blink its eye and move along as the driver delivers his milk from house to house, the survey determined. And the driver is destined to stay because Mrs. Housewife insists on leaving notes kicking about yesterday's cream. Robots can't apologize.

But the life of the milk driver is filled with far more thrills than leaving full and taking away empty bottles. The man of the house is sometimes full, too, and requires his help in fitting his key into the lock. But, in conducting the survey, the people came across numerous unusual events in the

Jacob Conden is slowly recovering from a serious operation at his home here.

Mrs. Loren Keller of Idetown gave an interesting talk in Epworth League on Sunday night. Her subject was "Missions."

Mr. and Mrs. Harold Boston and family have changed their residence to the former Zingerling home.

Esther Garinger spent several days this week in Plymouth. She attended the Sunday School Convention. She was the guest of Mr. and Mrs. George Armitage.

Mrs. William Wier of Avoca is spending several days with Mr. and Mrs. Harvey Kitchen.

George Armitage has purchased one of the new Chevrolets.

Marjorie Kitchen spent Sunday afternoon and night with Thelma Kiefer at Shrine View.

Two of Alderson's oldest residents dropped their pennies in the Missionary box in Sunday School on Sunday. They were Mrs. Lucy Altemus and "Grandad" Fred Odenkirchen. Mrs. Altemus is seventy-six and Mr. Odenkirchen eighty-eight. Mr. Odenkirchen has the distinction of being the oldest member of the I. O. O. F. in Pennsylvania. He has been a member for

sixty-five years. files of the three principal companies distributing milk in Metropolitan New York.

There was a driver out in Long Island City who found a five-week's old baby, snugly wrapped and sleeping, on the doorstep of a childless home. He got it adopted.

One driver came upon two thieves robbing a customer's mail box of a letter containing \$60 in cash. He caught 'em.

Another driver saw smoke pouring out of a house at 3 a. m. He broke down the door to rouse the occupants and led twelve of them to safety. Then the owner tried to have him arrested for ruining the door.

One driver walked down the basement stairs of an apartment house in an outlying section and found himself in water over his head. He had to drop his case of milk and swim out.

When steel workers were erecting the tower of the Chrysler building, a thousand feet above the street, one of the milk companies discovered in its ranks a driver who formerly had been a guide in the Swiss Alps. Every day at noon over a period of weeks he delivered a case of milk to the steel fabricators "on top" of New York City.

A competing company not to be outdone, established regular delivery to the crew of a submarine at Brooklyn Navy Yard.

The longest "delivery" on record was a 13,000-mile jaunt into Tibet which ten cans of jaunted milk took with an exploring expedition.

Not In Forty Years—

I have been in the mercantile business for the past forty years. Twenty of those years were spent in this vicinity. In all my experience I have never seen quality merchandise so low in price. That takes many depressions into account. Take a common garden hoe or rake. The manufacturers are making them like a twenty-jewel watch. They're balanced. Everything in our hardware line is the same way. Quality of the highest and priced low.
