The Bass Like Our Tackle

The season opened Monday morning and 'Pop' Wickizer and 'Arch' Sheldon both returned by 8 o'clock with nice catches. We have a dandy assortment of rods, lines, reels and baits to help you get your limit.

Fred Furman from Mehoopany took advantage of our special offer on Dockash Ranges. When you have a chance to buy a stove worth \$135.00 for \$95.00, it's time to grab it. We still have several at this price and other new ranges as low as \$45.00.

Regardless of what your idea of good roofing may be, we have the style you like. Holley Bros. at Hop Bottom are using 120 sheets of our Channeledrain steel this week. This roof is proof against rain, wind and lightning.

Your milk cooling problem can be solved easily. Our men just installed two large electric outfits for the Blackwell's at Ransom and another for Searle Stone at Springville. Give us a call when you are ready—we'll do the rest.

Charles Crawford at Rummerfield has purchased a perfect water system, consisting of a Rife Hydraulic Ram with 1000 gallon storage tank. We carry pumps and pipe in stock and guarantee real satisfaction and prompt service.

Howard Corby at Factoryville, is using a generous amount of Moore's Paint on his buildings. Moore's products spread well, look well and wear better.

Strange Saga Of A Dog And Marine In Flander's Field

(Continued from Page 1)

mare of marching and riding to a new position.

It was evident that this was to be a big job. This new one. And there was Verdun Belle and seven pups to take care of somehow. He decided that three of them would make the trek. Then real trouble overtook this young Leatherneck. Verdun Belle became lost in the maze of traffic. He asked nearly every doughboy in that part of France, but no one had seen her. The "big push" started in earnest. The pups were given to a Top-Sergeant in the medical division. The young Leatherneck was listed among the wounded. He was wounded and gassed. A few days later they were unloading him back of the lines. A muddy shaggy-coated dog sat watching every man they lifted down from those cross-marked trucks . . . and then she saw him. She nearly spilled a doctor and his assistant in getting to his side. The first thing the wounded Marine remembered was a rough, pink tongue washing blood from his face. His hand reached out and feebly grasped her ear as he had done in that village back in Lorraine . . . Verdun Belle had come back.

Here the writer's tale ends, for the choked hospitals of France swallowed up the wounded Marine and Verdun Belle, but there must be some one who remembers him and his canine comforter.

Some one who can write a "happy ending" to this tale of death and destruction amid Flander's Field.

Forced To Default Bonds

current teacher salaries. With the gift of \$4,500 from the State, a reduction of \$3,500 in operating expenses, which is offset by a \$3,500 reduction in revenue it would appear the school finances should be \$4,500 better than last year.

Blame Tax Liens
Many who have watched closely the claim that the failure of the board to meet its bonds is the direct result of the filing of tax liens against delinquent taxpayers, for which no provision was made in the school budget. The amount paid out for liens total approximately \$2,700. In some instances according to reliable authority, liens were filed against property where past due taxes amounted to only 60c. The amount which the board had to pay to file a lien against this amount being \$4.50 which it some day hopes to get back.

Those who defend this action on the part of the board say that the filing of these liens was brought about at the instance of the leaders of the Dallas Borough Taxpayers' Association against the instance of former members of the board who believed that it would be impossible for the school district to realize on these liens for many years to come if ever.

Follow Early Garden With New Plantings

In most sections of Luzerne County, such garden crops as early lettuce, spinach, radishes, peas, and in some cases early cabbage and beets will have been harvested by the last week in June or the first week in July. County Agent J. D. Hutchison says. On the vacated ground the following vegetables may be planted: Beets and carrots sown about July 1 will produce high quality roots for fall use and winter storage. String beans should be ready about 45 to 50 days after planting. Late cabbage can be planted the last of June or the first of July. Sweet corn can be planted as late as July 1 except in the northern part of the state. In the shorter seasons counties endive Chinese cabbage, kohlrabi, and kale should be sown July 1; in southern counties after July 15.
