

Inspectors Get Ready To Grade Farm Products

Season Nears For Full Operation of Canning Plants

The official inspection of fruits and vegetables going to canneries and being loaded by the carlot for shipment throughout the world, will begin here about August 15, and continue for at least seven months, according to George A. Stuart, director, bureau of markets, Pennsylvania Department of Agriculture. The peak of this work is during October.

Requests for this inspection will not be as great as last season due to the failure of the peach crop. Stuart explained. However, a greater demand for inspection of raw products for canning is anticipated. The inspectors who perform this service, are licensed and supervised by the State and Federal Governments but are employed by the canneries and packing plants.

Last year 1800 cars of apples, peaches, grapes, and potatoes, in addition to almost 47,000,000 pounds of canning products, were certified as to grade. The canning products inspected included apples, tomatoes, grapes, sour cherries, and raspberries.

A large proportion of the apples were exported to Great Britain, Germany, and France during the winter. This Pennsylvania-grown fruit consistently tops foreign markets over competing states because of its quality and condition, bureau records show.

In addition to the carlot shipments, there is an increasing demand for inspection of truck loads of fruit intended mainly for local markets.

This inspection work will be done principally in Adams, Cumberland, Berks, Erie, Franklin, Lancaster, Lehigh and York Counties. Other counties in which some work will be done include Dauphin, Montgomery, Huntingdon and Chester.

Pennsylvania is recognized as one of the five leading fruit growing states of the Union.

-Noxen-

Howard Dinstel and family, of Kingston, are spending a week's vacation with August Dinstel.

David Jones and friends of Kingston spent Sunday with Mr. and Mrs. Thomas Wright.

The Minner family reunion will be held at Viola Park at Evans falls, Thursday of this week.

Mrs. William Wright who has been ill the past week is reported to be improving.

Mrs. Beulah Derby of this place is spending a few weeks at Kingston with her brother Howard Dinstel of Kingston.

The Noxen Ball team played Miners Mills team Sunday, the score stood 9 to 5 in favor of Noxen. A very interesting game and was largely attended.

How Cheese Is Made

Roquefort cheese originated, and the best is still made, in the Department of Aveyron, France. It is made of the milk of goats or ewes, and matured in caves, such as those in the Larzac cliffs, where the temperature is conducive to the type of mold which gives Roquefort its distinctive flavor.

-Huntsville-

The Adult Bible Class of M. E. Sunday School will meet with Mrs. Newcomb on Tuesday evening.

Mrs. A. R. Holcomb, Mrs. Wilbur Ruth, Mr. and Mrs. George Ide, son Glenwood spent several days with Mr. and Mrs. Edward Holcomb at Cresson.

Mr. and Mrs. H. A. Carlson and daughter June will leave for their home in Hollywood, California on Tuesday, after spending the summer with Mrs. Carlson's mother Mrs. J. A. Rogers.

The thirty first annual reunion of the Sutton family will be held at Forest Hill Farm (R. A. Harris Farm), Sweet Valley, August 16. Everybody welcome.

A picnic supper was served to Mr. and Mrs. Paul Kostenbauder, Mr. and Mrs. G. A. Learn, Mr. and Mrs. Paul Johnson, Mr. and Mrs. Clarence Elston, Mr. and Mrs. Paul Eckert, Mr. and Mrs. Gordon Johnson, Mr. and Mrs. Ray Perrego, Mr. and Mrs. Harry Edwards, Jane Keener, Olive Evans, Dorothy Anderson, June Oberst, Edith Bradbury, Jean Weaver, Irene Bissell, Dorothy Weaver, Mrs. Harold Bertram, Mrs. Kenneth Conway, Kenneth Howells, James Beacham, J. Alfred Rogers, Jr., Lynn Johnson, George Oberst, Warren Conway, Bert King, Russell Oberst, Mr. and Mrs. Clifford Oberst.

AUTO SAFETY CAMPAIGN SHOWS RESULTS DESPITE MUCH HEAVIER TRAFFIC

Harrisburg, Aug 9—The decrease in motor vehicle accidents during the second three months of the year, as compared with the first three months, extended to practically all types of mishaps, the Division of Safety today reported.

The most important reduction was in collisions between two or more vehicles where a drop of 12 per cent, occurred. Collisions with stationary objects showed a higher percentage of decrease, but in number declined only 291, while collisions between motor vehicles dropped 924.

The increasing use of bicycles as the result of warmer weather and the closing of schools for the summer was reflected in a jump of 150 per cent, in the number of collisions with motor vehicles. This class of accident mounted from 68 for the first three months of the year to 174 for the second quarter.

The Divisions of Safety, in discussing these trends said: "The general nature of the reduction in accidents during the April-June period, as compared with the January-March quarter, is particularly interesting in view of the greatly increased traffic during the second quarter of the year. Registrations, operators' licenses and gasoline consumption statistics all show pronounced gains in the volume of traffic. Yet, although more persons were using their cars with greater frequency and for longer

drives, fewer accidents resulted.

Making Headway.
"The reasonable assumption is that Pennsylvania is making headway in its accident reduction work and that motorists are showing some signs of becoming more careful. The 12 per cent. decrease in collisions between motor vehicles is outstanding in view of the greater chance for accidents which existed in the second quarter. A drop of nearly 50 per cent, in the number of collisions between motor vehicles and railroad trains indicates the growth of a much needed respect for grade crossings."

The following figures show the number of accidents for each type of accident, occurring during the first three months of the year and the second three months of the year, together with the aggregate for the first six months:

	First Three Months	Second Three Months	Six Months Total
Collision with motor vehicle	7,225	6,301	13,526
Collision with pedestrian	3,217	3,171	6,388
Collision with fixed object	1,495	1,204	2,699
Non-collision accident	540	599	1,139
Collision with street car	267	155	422
Collision with bicycle	68	174	242
Collision with horse-drawn vehicle	93	73	166
Collision with railroad train	103	52	155
Collision with animal	26	31	57
Collision with other vehicle	7	21	28
Miscellaneous	14	29	43
Totals	13,055	11,810	24,865

How Arc Welding Is Done

Arc welding is electric welding. The direct current is generally used, the electrode being the negative terminal. Touching the work with the rod and withdrawing it slightly draws an arc between them, and the intense heat soon brings the work to the welding temperature.

Guinea Pigs Largest Rodents

The largest rodents that exist today are the capybaras, which are giant guinea pigs that sometimes grow to weigh over 100 pounds.

Why Ice Floats

Unlike most substances, water is lighter in the solid than in the liquid state. The average specific gravity of water is 1.00; of sea water, 1.03, and of ice, 0.918, so it floats on water with about nine-tenths of its volume submerged. Physicists have produced special forms of ice which are heavier than liquid water.

Waiter! Come Here at Once!

The "steak," "potatoes," and "cauliflower" set before this young lady look very appetizing, but they'd prove hard to digest. These "vegetables" are really pieces of onyx and agate, some of the minerals on display at a Los Angeles mining show.

Mineral Matter Important

Mineral matter is essential for the formation of bone and the harder tissues of the body. It is also a constituent, though found in small amounts, of the muscles, blood cells and other parts of the body.

Bananas From Far Away

The bananas we enjoy travel more than a thousand miles to reach our tables. Swift refrigerator ships speed them to us from the Caribbean and Central America tropics.

14 New Members For Local Unit

Kingston Township Unemployed To Meet Tuesday At Shavertown

Fourteen new members were admitted to Kingston Township Unemployed League at a meeting on Tuesday night at Trucksville Hose House. This makes a total of 84 members. The officers estimate there are 150 unemployed men in the township.

The committee which went to Harrisburg to investigate relief work, reported. A committee having as members Messrs. Jones, Hughes, Daley, Lare, Phillips and Judge, was appointed to raise funds to take care of relief cases. The secretary was instructed to thank the Trucksville Hose Company for the use of its building for the meeting.

Messrs. Thompson, Hughes, and Dressel gave a report as to their meeting with County Commissioner MacGuffie.

It was decided to appoint a committee to take up whatever cases may come up for immediate action. Hughes Jones, Dressel make up the committee. The next meeting will be at the Shavertown schoolhouse on Tuesday, August 14.

Why Should Any Woman Read This Advertisement?

BECAUSE . . . It Tells Her How She Can Relieve and Prevent Periodic Pain by Taking Lydia E. Pinkham's Tablets

These tablets are a scientifically prepared, clinically tested uterine sedative. In plain English that means a modern medicine, made from the purest and most effective ingredients, which will bring welcome relief to women who suffer from monthly ailments. These tablets do not simply dull the pain for a little while. Any opiate will do that. They reach the cause of the pain and so prevent its return.

Why do you endure needless agony? Begin taking Lydia E. Pinkham's Tablets a week before-

hand and notice the difference. In stubborn cases you may need to take the tablets regularly for several months, but if yours is not a surgical case, you should suffer less and less. PERSISTENT USE BRINGS PERMANENT RELIEF.

These tablets contain no harmful drugs. They will not cause dizziness nor any ill effects whatsoever. They are chocolate coated, pleasant to take, convenient to carry. For sale at all drug stores. Small box 50¢.
