

FRENCH SEES A SHORT 1936 FARM CROP PRODUCTION

Harrisburg, Aug. 27—August estimates by the Federal-State Crop Reporting Service, made public by J. Hansell French, Secretary of Agriculture, indicate Pennsylvania will have a 1936 apple crop only 38 per cent of normal, a grape crop 60 per cent of normal, a potato crop 69 per cent of normal, a peach crop 23 per cent of normal and a tobacco crop of 80 per cent of normal.

Crop prospects in the United States declined materially during July. There will probably be light supplies of a number of important food crops, and, irrespective of weather conditions during the remainder of the season, there will be a shortage of grain that will necessitate rather heavy marketings of grain-consuming livestock and a reduction in the grain ration of the livestock wintered. In a fourth of the states pastures were the poorest on record for August 1. There is a severe short-

age of roughage in the northern Great Plains Area. The corn crop promises to be the smallest harvested in this country in more than 50 years. Combined production of corn, oats, barley and grain sorghums is only 8 per cent more than the final harvest of 1934, and about 31 per cent less than production in any other recent year.

Available supplies of hay will equal the average quantity fed during the last six years. Light crops of wheat, rye, buckwheat, beans, potatoes, several commercial truck crops and canning vegetables, and the principal fruits except pears and citrus, are indicated. The wheat crop is about equal to usual domestic requirements. Present indications are that the livestock feed situation is somewhat less serious than it was at this time in 1934.

Pennsylvania crop estimates for 1936 with comparisons follow:

	August 1 1936 forecast	1935 harvest	5-year average 1930-1934

AUNT MOLLY BAIRD "REMEMBERS WHEN"

"Aunt Molly" Baird

WEST MIDDLESEX, Pa.—"Aunt Molly" Baird, now 85, is probably Gov. Alf M. Landon's first acquaintance and original proponent of his candidacy for president.

"Aunt Molly," more formally known as Mrs. Mary Reed Baird, assisted when the future Republican presidential nominee was born. She still resides in the little town of West Middlesex, Pa., not far from the Governor's birthplace on Main street and well remembers "Alf" as a baby.

Mrs. Baird has been made No. 1 honorary member of the Landon-for-president club of Mercer county and is prominent, even at her advanced age, in Landon activities.

She is shown at left in the sitting room of her home.

Local Schools Begin Terms Next Week

LABOR DAY HOLIDAY

(Continued from Page 1.)

Senior English; Elizabeth Culbert, Commercial; William Brickel, mathematics and science, and Ernest Line, social sciences and physical education.

A number of the faculty members have studied at summer schools this year. Mr. Tinsley received additional credits at Millersville, Mr. Moran won his M. A. in secondary education at University of Alabama, Mr. Brickel studied at Bucknell and Mr. Line received his certificate in physical education at East Stroudsburg.

Will Instruct Band

Howard Hallock, widely-known band leader and teacher, will supervise music in the grades and teach in the high school on a part-time basis this year. He will probably have several chorale groups and a school band.

Aside from the innovations in the system and the policies of the schools there have also been a few outstanding physical improvements. The portable building has been painted and its seats refinished. The painting of the auditorium has been completed, lockers painted, floors painted in the office, hallways and library and the walls of the toilets and showers have been painted. The exterior woodwork on the large building will be repainted after school starts.

Practically all the improvements made during the summer have been made under WPA grants and a few have been done by local taxpayers who were working out their taxes.

All grades, with exception of first and second, will begin their daily sessions at 8:30. First and second grade students will begin classes at 8:45. First, second, third and fourth grades will be dismissed for noon recess at 11:30 and for the day at 3:30.

In the high school there will be seven 50-minute periods daily with a guidance and activity period from 3:30 to

Fred Woolbert Brightens Triangle At Trucksville

One of the busiest places in Trucksville these days is Fred Woolbert's Sinclair Station. Fred has completely renovated the place since he took it over last spring and has added considerable new equipment so that today his location is known as the "busy Triangle at Trucksville." The station is located in the triangle where the Luzerne-Trucksville highway branches off to Dallas and Fernbrook.

Fred knows the automobile service business from "A" to "Z." His years of experience with Stull Brothers in Kingston stands him in good stead. His station is equipped with the most modern greasing, washing and polishing equipment. But perhaps the largest single factor in growth of his business is the service which every employee renders the customer.

Dallas Descendant Succumbs At Ambler

Miss Edith Wharton Dallas of Ambler, a descendant of James Alexander Dallas after whom Dallas was named, died last Friday night at the age of 85 in her home. She was one of the few living descendants of the man who was Secretary of the Treasury and Secretary of War during President Madison's administration.

CORRECTION

Through an unfortunate and regrettable error last week the photographs of the baby contestants on the front page were confused and the wrong captions were used. The photograph identified as that of Charles Bythway was really Tommy Lee Hackling and Tommy's picture was run over Charles's name.

4, during which the school clubs will have their sessions, the home room activities will be conducted, and the athletic teams will begin their practices.

On the first day of school it will not be necessary for the pupils to report before 9 a. m. The first holiday will be Monday, September 7, Labor Day.
