"Gone are the dear, dead days..."

Gone—with the wind and with the past—are the dear, dead days when the flickering yellow glare of the kerosene lamp was the only means of illumination on the farm. The miracle of electricity has changed that. Today a flick of a switch floods a room with shadowless light, commands a helper who lightens chores and housework, stands ever ready to make the new day happier, healthier and more prosperous. Make electricity your servant.
