## The Old Scrap Book

Hello there:

The world criticises those who cry "Peace at any price", but at the same time, have they ever counted the price of war? The lives of our youth are worth more than all the land territory in the world. Dictators want more territory to wield their power over, and will go to any end to reach that goal.

Think of the price paid for the last war. Lives that were not taken, were maimed, disabled, minds warped, and sorrow and grief brought to thousands of mothers and fathers who were the victims of this monster we call war. I wonder if it is worth what it involves, when we consider and count the cost of war? Is it not better to sacrifice, yea, compromise, for the sake of saving the lives of our youth? And may America have enough common sense to keep out of any European tangle and stay on her own side of the ocean.

### MY SON

O Lord, must my son go to war? My boy, so clean, so strong, Can this be all I raised him for, This ghastly, awful wrong? His soul is pure, his spirit light, He's loyal to the core; Now by what right can they make Him fight, Who hates the thoughts of war?

The nation calls him out to fight, Puts a gun into his hand; They say that on our side is right, He must defend his land. But it cancels all that Jesus taught, And the punishment He bore; For His blood has bought and His spirit sought Both sides in this ghastly war.

Must this, my son, drop deadly shells On a thousand sleeping souls? A myriad fiendish, blazing hells, Let loose on their crowded goals? Must he poison, burn and mutilate, Spill oceans of human gore, To satiate the gods of hate, In seething, bloody war?

—H. C. Tuttle.
