More Than A Newspaper, A Community Institution

THE DALLAS POST, FRIDAY, MARCH 31, 1939

In Editorial Content, As In Its "Neo-Dynamic" Makeup, The Post Is Attuned Precisely To The Times, Streamlined For The Enjoyment Of Its Discriminating Audience.

No. 13

A CAPPELLA CHOIR WILL SING HERE ON SUNDAY

There are noises which never come out in the day, but rest so they can keep lonely people company at night. They float on the blackness of midnight, assuring those who are still awake that this natural phenomena of nightfall is nothing to be alarmed about because, come dawn, the world will be back again to resume its happy and hysterical course.

We were toying with such flossy philosophies early the other morning as we splashed sleepily homeward through a fine, cold drizzle. The rain was spreading silvery patterns across the sleek pavement. The windows were black patches, streaked with tiny rivers. Main Street stretched ahead of us, black, lifeless, abandoned . . . but not silent.

Add Woolbert's sign was creaking dolefully in the wind. Across the street, Danny Richards' awning was cracking like a .22 rifle. There was a mysterious gurgle we couldn't identify until we remembered that Toby's Creek, which you seldom remember in the winter, slips under the street near the bank building. Swollen by the was chuckling merrily, adding its bit to the symphony.

There was another noise. It sounded like the clanking of an anchor chain but that, of course, was ridiculous. We stopped and looked about and then our eyes popped with surprise. There, in Toby's Creek, slowly swinging around toward the bank, was a graceful, threemasted schooner, its bare spars thrust toward the low-hanging clouds, its clean white lines soft in the mist floating up from the water.

We were just getting ready to make a disorganized retreat up Lake Street when a lusty voice split the air. "Ahoy!" someone shouted. We thought we recognized the voice so we waited, still ready to get started on splitsecond's notice. "Hey," the voice called again, abandoning the seafaring vernacular. Then we saw a figure vault over the patch of water between ship and shore and come running toward We picked up a stone and slipped behind a gasoline pump. "Come on out, son," the figure called. "It's me, Eph . . . . Eph McCoy!"

And, sure enough, it was. He was still wearing his buckskin leggins and his weather-worn jerkin, but he had replaced his battered old fur cap with an admiral's plumed hat, worn crosswise. Eph's grizzled, grinning visage ered out from under the gaudy head-

**Reply To Protests Fans Interest Here In Municipal Plant** 

#### **Consumers Study Data On Experience In Towns** With Own Water System

A lengthy brief filed with the Public Utility Commission at Harrisburg this week by Dallas Water Co., in answer to two complaints of inadequate service directed to the Commission by local consumers, intimates that a rate increase will follow any improvement program carried out

Frankly admitting the charge of faulty service to consumers in higher sections, the utility asks the Commission to consider a suggestion for a merger of Dallas and Shavertown companies and the issuance of additional securities to finance improvements.

Copies of the answer were received here by borough officials, who sponsored the formal complaint in response to agitation against frequent interruption of service to consumers in the Parrish Heights section of town.

The brief fanned interest in the movement to establish a municipallyowned water system here, a course of action which is being investigated by a committee which spent a busy day at Harrisburg on Monday collecting information which will be helpful in determining whether a publicly-owned plant is, as many consumers have come to believe, the only solution to the water problem.

Upon its return from the capital, where its members discussed the local situation thoroughly with a number of persons who have been involved in attempts to solve the problem, the committee issued the following statement: "We hoped we could return with charges of involuntary man- Unfortunately, we could discover no evidence of any such prospects. #### EDITORIAL

We who stand to benefit so much from the construction of the Luzerne by pass cannot escape our moral obligation to stand with the people of Luzerne in their demand for improvements to Main and Bennett Streets.

The failure of the State Highway Department to keep its promise to pave the main road through Luzerne is not the problem of that borough alone. It effects every motorist from this section who drives into Luzerne to shop or who uses Main and Bennett Streets as a shortcut to upper Kingston.

Without the aid of the Luzerne people, we might not yet have our by-pass. It was largely because of their willingness to co-operate that the State Highway Department agreed to build the by-pass. They helped us greatly. It is now our duty to help them.

When the long fight for the by-pass was concluded last year two promises were made. One came from the State Highway Department. It agreed to pave Main and Bennett Streets when it built the by-pass. The other promise came from the men from this section. In return for Luzerne's co-operation, the local committee promised to insist upon improvements to Main and Bennett Streets.

The promise of the State Highway Department has never been kept. Unless we want to go back on our word, too, it is our duty to do everything within our power to support the Luzerne Civic Association in its demands. There is no other honorable course.

J. Willman, Times-Leader reporter, who Since it was largely because Luzerne is that the by- subsidies would amount to nearly \$90co-founder of The Record. Mr. Willman's petition was prompted by the rumors that The Record was to be sold or merged. Mrs. Robertson must file a bond of \$73,000 as life tenant of the estate and \$20,000 as executrix of the will, the court ruled.
