A budget proposed for 1940 and 1941 was submitted and read. Action was postponed until next meeting, to give all members time to study their copies.

Bills amounting to \$344.44 were ordered paid.

On Thursday and Friday of next week, folks from as far as 50 miles will be in Tunkhannock to hear the special entertainment, see the displays and demonstrations of new home and farm equipment. Teachers Explain School Program

Lehman PTA Is Treated To Summary Of Work

A large and enthusiastic audience of parents, teachers, and friends applauded an interesting program, depicting school activities, that was presented on Monday evening, March 11, at the regular meeting of the Lehman Parent-Teacher Association, in the school auditorium.

Clarence Boston, high school principal, in announcing the various parts of the program, explained to the group the cardinal principles of education and stated the aims of the local school in applying these basic fundamentals.

One phase of vocational guidance in Lehman High School was demonstrated by the home economics girls, who, under the direction of Miss Eleanor Tretheway, department teacher, presented a clever fashion show. Clothes for morning, a school day, sports, and evening were well modeled by the girls.

Miss Ethel Woodward, commercial teacher, in a short talk, emphasized business training for boys and girls in helping these young people find their places in the busy world of varied occupations.

John Sider of the agriculture department, explained the origin of vocational guidance in the public schools and stressed its importance for boys of a rural community. He also announced the Father-Son banquet that the Future Farmers chapter is planning to hold on April 24.

Health, a highly important cardinal principle, with its phases and objectives as carried out in physical education, was discussed by Donald Dodson, physical education teacher. "Individual, rather than group athletics, has been one of our aims," stated this instructor.

A novel demonstration by the beginners' violin class, under the direction of Joseph Clouser, music supervisor, showed the members of the association one way on which students are trained for worthy use of leisure time.

Mr. Morgan, athletic coach, further emphasized student participation in school activities. He stressed the reading of good books and the building up of our school library.

The seniors also presented a skit from their play in order to interest the group in seeing their final production.

W. E. Chamberlain, president, had charge of the business meeting that preceded the above program. Clyde Cooper, of the ways and means committee, reported that his group plans to present a play for the benefit of the association late in April.

Charles Nuss, chairman of the dedication committee, announced that the dedicatory exercises are being planned for presentation within the next three weeks.

Miss Lee Faylor, chairman of the publicity committee, made announcements about the senior play of March 12; the annual Easter vacation, to end Tuesday morning, March 26; the Easter assembly program that the sophomore second section presented on Thursday afternoon, March 21; the Junior Class play for April 12.
