BUT- \$2.25 A Month

Pays for our Electric Cooking!

A small cost? Sure it is, but it's no smaller for Mrs. Bowman than it is for numbers of other users of electricity for cooking. Facts are facts and figures don't lie. While you may have been told that electric cookery is too expensive, Mrs. Bowman's bills are proof of the actual low cost for this truly modern way to cook.

Find out for yourself about its low cost. All we ask is the opportunity to show you in your own home the true facts. Write or 'phone us or your electrical dealer TODAY!

After using other fuels, I like the faster, easier operation of my Westinghouse electric range, and, after using it for one year, I think it very inexpensive because it has cost me only on an average of \$2.25 per month. I cook for a family of four. Mrs. A. T. Bowman, Church Street, Dallas, Pa. July 11, 1940
