Directors Name Garey Foreman

Men Who Owe Taxes Will Work At School

After innumerable delays and one argument over a foreman, the long-awaited job to install septic tanks and drain pipes at the Trucksville grade school began yesterday morning, with Gale Garey of Shavertown as foreman.

The original plans called for the work to be done as a WPA project and it was approved by the board and WPA officials, but a quarrel over the appointment of a foreman held up the work last week and it was finally decided that the job will be done by the unemployed men of the township, who will work out their taxes.

Paul Callahan of West Pittston, an engineer, will direct the work. Elwood Kresge of Shavertown was named timekeeper. Thirty-five men have registered to work and 20 names will be taken from that list to start this week. The other men will work the second week. It is hoped the job can be completed in two weeks.
